# American Railroad Journal.

**Saturday, June 9, 1877.**

### Financial and Commercial Affairs.

Extreme ease is yet reported in the Money line, with supplies available to responsible borrowers largely in excess of their requirements, even at the almost nominal current quotations. Speculation at the Stock Exchange is comparatively moderate, calling for no extraordinary aid in a financial way. And in the mercantile line business is on a restricted scale, and discount applications at bank are not urgent from any source regarded by the bank managers as entitled to favorable consideration. Call loans are quoted at 1@2½, with most of the important negotiations reported on the basis of 1½@2 per cent; and very choice to prime mercantile credits are rated at 3@4½, mainly 3½@4 per cent per annum. The City banks, last week, reported a further increase in their legal tender reserves, and a slight enlargement of their circulation. The loan and discount item was again contracted, and the specie and deposit averages also reduced. The loan and discount average was cut down $2,752,100. The item of circulation was augmented $74,700. The deposits were diminished $1,951,000; the legal tender reserve enlarged $2,329,300; and the specie average reduced $1,504,200.

The City banks reported their average of gold last week at $19,844,500, as against $17,488,800 same date last year; and their greenback average at $55,899,700, as against $51,766,500 on June 3, 1876. Their deposits stood at $223,481,600, against $211,196,600 same time in 1876. The loan item was $250,754,400 against $250,679,500 a year ago.

The City bank net reserve of specie and legal

tender notes now shows an excess over the legal requirement of reserve to liabilities of $19,878,800, as against $18,560,950 the preceding week, $9,039,775 the week ending 14th April (the lowest footing of this item thus far in the current year,) and $24,781,800 on January 27 (which latter was the highest aggregate reached this year.) The City bank exchanges in currency reached $333,585,819, or a daily average of $66,707,164.

The U. S. Sub-Treasury in this city closed the week ending on Wednesday with a currency balance of $48,323,837, against $46,984,497 the preceding week; and a coin board of $84,136,988, against $86,221,007 on the return of a week earlier. The Customs revenue of the port during the past week was $1,852,000.

The U. S. Sub Treasury receipts in May were $68,075,185 (of which $7,792,806 from custom); payments, $58,376,227, (of which ($4,410,029 of coin interest.)

The aggregate of the outstanding U. S. currency of all denominations, June 1st, was $381,684,578. The outstanding amount of legal tender notes is $360,412,580. The National bank circulation is now $317,439,674 of currency notes and $1,432,120 of national gold bank notes.

National Bank notes received at the Treasury Department last week for redemption were to the amount of $5,297,000.

It has been stated positively that the sum of one million dollars of legal tenders has been permanently retired, canceled and destroyed under the act of January 1st, 1875, and that it was for this purpose that the million gold was sold on Thursday, May 31.

The income of the Government from internal revenues last week was about 8¼ millions, and since July 1, 1876, about 112 millions; and from Customs last week about 1¾ millions, and since July 1, 1876, about 119¾ millions.

On Wednesday of this week the cash balances of the Treasury Department at Washington were: of Currency, $5,009,275; special deposit of legal tenders for the redemption of certificates of deposit, $47,575,000; Coin, $107,597,050, including of Coin certificates, $45,476,200.

Gold has been quoted lower on a less active speculative movement and a comparatively limited inquiry for export account and custom house purposes. The extremes of the price during the week have been 105⅝@106⅜, closing at 105⅝, as against 106⅜ on Wednesday of the preceding week. The lowest point yet touched was 104¼, on Friday, March 2d. The specie outflow last week was up to $463,000, (of which $155,000 in various forms to London, $200,000 to Plymouth, and $100,000 to Bremen,) making the total exports of specie hence since January 1, $15,260,274, against $25,127,750 the same time in the preceding year. The imports of specie at this port last week were $32,121, (of which $13,771 from Aspinwall, $8,000 from Jeremie and 10,350 from Havana,) and since January 1st $6,869,885 as against $1,742,582 same time last year. The Customs demand for gold last week averaged only $270,400 per day. Foreign Exchange has been less sought after and quoted rather easier in price. Bankers' sixty day bills on London closed on Wednesday at $4 86¾@$4 87¼; sight bills on London at $4 89⅛@$4 90 to the £ sterling. The week's imports of Dry Goods and general merchandise were to the specie value of $6,340,376 as against $4,087,668 the corresponding week of 1876. The week's import entries of Foreign Merchandise at New York included $923,991 of Dry Goods and $5,416,385 of General Merchandise. The week's exports of Domestic Produce and Miscellaneous Goods from this port were $6,251,582, against $5,574,347 same week in 1876.

Government securities have been quite active at the ruling figures. The investment inquiry was more animated toward the close. At the close the market was quoted firm, leaving off on Wednesday as follows:

United States currency sixes, 122@122¼; do. 6s, 1881, registered, 110¾@111; do. coupon, 115@115¼; do. 1865, new, registered, 106¾@107; do. coupon, 109¾@110; do. 1867, registered, 109⅞@110½; do. coupon, 113⅛@113⅜; do. 1868, registered, 113⅛@114; do. coupon, 116¼@117; do. ten-forties registered, 112¼@112⅜; do. coupon, 112¾@112⅞; do. five per cents 1881, registered, 111⅛@111⅜; do. coupon, 111⅛@111⅜; do. 4½ per cents, 1891, registered, 107@107⅛; do. coupon, 107@107⅛; Central Pacific Gold bonds, 109½@110.

The liquidation of the national indebtedness in May was $6,981,275, making the total reduction since June 30 1876 $36,062,003.

The decrease in May was made up as follows: Decrease in principal, viz: Called bonds due, $727,080; legal tenders redeemed, $1,081,824; fractional currency redeemed, $979,645 29; coin certificates decreased, $4,305,200; total, $7,093,749 29; less other items increased, $112,474 46; net decrease, $6,981,274 83; ordinary decrease of debt $5,000,000; estimated amount of decrease on account of deficiency in appropriations, including the pay of the navy, $1,981,274 83.

The total disbursements of the National Treasury in May (other than on account of the interest or principal of the public debt) were $11,522,849, including on account of civil and miscellaneous, $3,951,713; war $3,121,936; navy, $435,794; interior (Indians and pensions), $4,013,406.

The amount of U. S. bonds held by the Treasurer of the United States, as security for the National Bank circulation, is $340,415,100, and $18,898,000 as security for public deposits.

State and Railway bonds have been moderately active, and the more substantial loans have shown more firmness as to values. And in the line of Railway and Miscellaneous share property business has been to a fair aggregate, but prices have been unsettled, closing rather more steadily.

A fair demand has been noted for most kinds of domestic produce, especially Breadstuffs, Provisions and Cotton, but prices have been quite variable, closing generally weaker. Naval Stores and Petroleum have been moderately dealt in and quoted somewhat firmer. Foreign merchandise has been in generally slack request at about former prices. Groceries much tamer.

A light business has been reported in Hardware, Boots and Shoes and Dry Goods, prices of which have been without further important alteration.

Metals have been in less demand with prices quoted generally weak. Eglinton Pig Iron quoted at $25 50; Glengarnock $27 50; Coltness $28 50 @$29; No. 1 American Pig at $18@$19; No. 2 do. at $17@$18; Forge $16@$17; American Rails at works $33@$37; Old Rails $18@$19. Wrought Scrap $24@$25. Steel Rails, on the basis of $46 @$50 at the mills. Ingot Copper quoted 19¼@19¾ for early delivery.

Ocean freights have been quite active, especially in the line of Grain and Petroleum shipments, at firmer rates on berth, and at irregular figures on charter contracts. Liverpool steamer rates at the close for Grain, 7d. per standard bushel. Provisions, 40s.@55s.; Tallow, 35s.; Leather, 70s. Measurement Goods at 25s. per ton; Cotton, ⅛d. per lb., Liverpool, by sail, Cotton, ⅛d. Grain, 5 @5½. Oil Cake and Slate, 12s. 6d.@15s.; Measurement Goods, 10s.@12s. 6d. Tobacco 30s. Grain rates on charter hence for Cork and orders left off at 5s. 1½d.@5s. 6d.; for the Continent, at 5s. 6d. and from Baltimore for Cork and orders, 5s.@5s. 3d., and from Phila. ports, at 5s. per quarter. Refined Petroleum hence for Cork and orders, 4s. 3d.@4s. 6d.; for the Continent, 3s. 7½d@4s. 4½d. per bbl. And for Liverpool by steam, from Chicago, of through freight, Provisions, at 62c.@66c. via Boston and Philadelphia, per 100lb.

# FISK & HATCH,

**Bankers,**

No. 5 NASSAU ST., NEW YORK.

U. S. GOVERNMENT BONDS bought and sold in amounts to suit investors: also, Gold, Silver and foreign coins: Deposits received in Currency or Gold, and interest allowed on Balances: Special attention paid to Investment Orders for Miscellaneous Stocks and Bonds.

### Union Pacific Railroad.

The earnings of the Union Pacific Railroad for April, 1877, were $1,088,280 11, against $1,054,187 78 for April, 1876, an increase of $34,092 33. The earnings and expenses for four months, from January 1 to April 30, were as follows:

| | 1876. | 1877. |
|---|---|---|
| Earnings | $3,289,633 52 | $3,782,246 85 |
| Expenses | 1,753,570 33 | 1,611,509 18 |

### Atchison, Topeka and Santa Fe Railroad.

The earnings of the Atchison, Topeka and Santa Fe Railroad Company for the month of April, 1877, were $200,681 34, the operating expenses $101,358 16, and the net earnings $99,323 18. For the month of April, 1876, the earnings were $197,995 67, the expenses $95,998 84, and the net earnings $102,001 83—showing an increase in earnings of $2,685 67, an increase in expenses of $5,364 32, and a decrease in net earnings of $2,678 65. Per cent of expenses to earnings in April, 1877, 50.51; in April, 1876, 48.48. Number of miles operated in both years, 711. The following is a comparative statement of the earnings, expenses, etc., for the four months ending April 30, 1876 and 1877:

| | 1876. | 1877. |
|---|---|---|
| From freight | $426,434 69 | $428,954 84 |
| " passengers | 188,076 10 | 202,791 95 |
| " mail | 12,668 08 | 12,668 08 |
| " express | 9,828 61 | 12,874 22 |
| " miscellaneous | 3,288 80 | 3,740 94 |
| Total | $639,791 28 | $661,025 03 |
| Operating expenses | 321,562 15 | 370,602 73 |
| Net earnings | $318,229 13 | $290,422 30 |
| Per cent operating expenses to earnings | 50.26 | 56.06 |
| No. miles operated | Av. 670 | 711 |

☞ The New York and Oswego Midland Railroad was recently up for sale to satisfy creditor's claims, but was withdrawn on account of the bids not reaching $2,500,000, the minimum sum fixed by the court. Application was made on the 2d inst. to Judge Blatchford, in the United States Circuit Court, to fix a lower sum, but after counsel for the various parties interested had been heard, definite action was postponed until a decision has been given by the United States Supreme Court on questions pending before it relative to priority of claims against the railroad. It is expected this decision will be given next Autumn.

☞ At the annual election for Directors of the New York Central and Hudson River Railroad Co., held at Albany on the 6th inst., 861,000,000 was voted on, and the following persons were chosen: William H. Vanderbilt, Cornelius Vanderbilt, William K. Vanderbilt, Frederick W. Vanderbilt, Augustus Schell, Samuel F. Barger, Joseph Harker, Chauncey M. Depew, John E. Burrill, James H. Rutter, New York; Chester W. Chapin, Springfield, Mass.; George J. Whitney, Rochester, N. Y.; James M. Marvin, Saratoga Springs, N. Y.

☞ At the annual meeting of the Eureka and Palisade Railroad Company, held at Eureka, Nevada, on the 22d ult., the following board of directors was elected: Edgar Mills, P. Everts, I. L. Requa, William H. Shaw and W. O. Mills, Jr. The board re elected the following officers: President, Edgar Mills; General Superintendent, P. Everts; Secretary, J. E. Duff. The company have decided not to extend the road southward this season.

☞ The articles of incorporation of the People's Passenger Railway Company of Baltimore City have been recorded in the executive office. The incorporators are: Gustavus A. Thompson, Wm. May, John T. Grindall, Columbus C. Thompson and Sydney C. Long.

### The Coal Trade.

The total tonnage for the week ending on the companies, amounted to 549,942 tons, against 26th ultimo, as reported by the several carrying 395,379 tons in corresponding week last year, an increase of 154,563 tons. The total amount of anthracite mined for the coal year is 7,681,508 tons, against 5,826 399 for same period last year, an increase of 1,855,109 tons. The quantity of bituminous coal sent to market for the week was 69,973 tons, against 79,547 tons for corresponding week last year, a decrease of 9574 tons. The whole bituminous tonnage from the beginning of the coal year is 1,110,250 tons, against 1,195,319 tons in corresponding time last year, a decrease of 85,069 tons. The total tonnage of all kinds of coal for the week is 619,915 tons, against 473,926 to corresponding date last year, an increase of 145,989 tons, and the total tonnage for the coal year is 8,791,758 tons, against 7,021.718 tons, to same date last year, an increase of 1,770,040 tons. The receipts of coal at Port Richmond for the week ending on Saturday, the 2d instant, were 67,000 tons, and the shipments for the same time 75,500 tons. The receipts at Perth Amboy for the week ending on the 26th ult'mo were 36,122 tons, the shipments 34,486 tons, leaving a stock on hand of 186,938 tons. The quantity of coal and coke carried over the Pennsylvania Railroad for the third week in May was 89,631 tons, of which 72,552 tons were coal, and 17 079 tons coke. The total carried for the year is 2,837,855 tons, of which 1,490,853 tons were coal and 357,320 tons coke. These figures embrace all the coal carried over the road, east and west.—*Phila. Ledger, June* 4.

### Pacific Mail Steamship Co.

OFFICE OF PACIFIC MAIL STEAMSHIP CO.,
No. 6 BOWLING GREEN, NEW YORK,
May 26th, 1877.

*To the Stockholders of the Pacific Mail Steamship Company:*

In presenting to you, in compliance with a resolution of the board of directors, the results of the operations of your company for the period during which the present directors have been in control, it is proper that your attention should be called to its condition on the 31st of May, 1876, the date of the last election. It was then to all appearances on the eve of bankruptcy. Its debts were over two millions of dollars beyond its available assets. Its credit was gone. Its bills payable selling at a ruinous discount. Among the last acts of the former board was the execution of two millions of the bonds of the company, secured by a mortgage on all its property, and their delivery to certain creditors as security at the rate of two dollars to one of indebtedness. The new board was thus deprived of the power to raise money either upon its property or bonds. Creditors were pressing for payment, and threatening to sell the bonds at auction, apply the proceeds toward the payment of their claims, and look to the company for the deficiency. Such was the financial condition.

The business of the company was in an equally disastrous and discouraging state. It had ceased to do business upon its most important and most profitable line, that between New York and San Francisco. In consequence of its long neglect to pay the Panama Railroad for transportation across the Isthmus, the road had terminated its contract, and had entered into an exclusive contract with the Panama Transit Steamship Co., which gave to that company all the advantages which this company had fully enjoyed. The railroad refused to transmit freight or passengers for this company, except at local rates, and on prepayment, and had deprived it of the power to issue through bills of lading, or through passenger tickets. It was also found that all the company's ships, funds, and supplies in California had been attached, and were in the hands of the sheriff as security for its debts. Such was the situation of your company on the election of the present board.

On assuming direction of the company's affairs, the new directors were obliged to use their personal credit and resources to pay the pressing debts of the company. Within five weeks they placed to its use over a half million of dollars, and thus enabled it to continue business and avoid the threatened sacrifice of its bonds. They came forthwith to an agreement with the railroad and transit companies. The attachments against its property were removed. Your company was thus rescued from its perilous condition, and started on its way to renewed prosperity.

Notwithstanding the times have been very unpropitious, and the carrying trade universally depressed, and for the most part unprofitable, the business of your company has been moderately prosperous. The operating expenses have been greatly reduced. The company's credit has been re established. Not a note is outstanding except those held by the Panama Railroad Co. and the directors. None of the bonds of the company have been sold. The agencies have been placed in the hands of persons or firms of responsibility and large influence, and measures taken by which the business upon all the lines is being developed. The company has on hand an ample stock of coals, stores and materials, at its various depots. Its ships have been put in thorough order at an outlay of over $150,000, which has been charged to the expense account. From the earnings of the company and the sale of useless property to the amount of $249,000, the indebtedness has been reduced, after deducting cash assets, from $2,008,078 79, May 31, 1876, to $818,020 76, on April 30, 1877, and since that date has been still further reduced.

The company has shown itself capable of enduring and surviving great difficulties, and is the only one left which carries the American flag to numerous foreign ports, and whose ships, in case of war, could be added to the naval fleet of the nation. It has the capacity of great enlargement and increased usefulness, and, if properly fostered, of benefiting the whole productive and commercial interests of the country. It is reasonable to expect that it will not be left alone to fight the battle for the equality or supremacy of American commerce, but that the Government of the United States, following the wise precedent set by Great Britain, in order to build up its commercial marine, will aid by a proper recognition of the important postal and commercial service which the country receives from this company.

The accompanying map shows the wide extent of your company's operations.

The ships in active service are as follows:

1. On the Transpacific line, the City of Peking, the City of Tokio and the Alaska.

2. On the Australian line, the City of New York and the City of Sydney.

3 On the Victoria line, the City of Panama and the Dakota.

4. On the Panama line, the City of San Francisco, the Granada, the Colima and the China.

5. On the Atlantic line, the Colon and the Acapulco.

6. On the Central American line, the Salvador, the Winchester, the Honduras and the Costa Rica.

Besides these ships we have some that are laid up as unprofitable for use in their present condition; but it is among the possibilities of the future that these may at a moderate cost be so altered as to do profitable work as carriers of heavy freight, as this company has, in my opinion, a great opportunity open to it in transporting, in connection with the Panama Railroad, the wheat of California to Europe, and in carrying between the Atlantic and Pacific ports the great body of the freight which is now carried by sailing ships around Cape Horn. It is a subject to which much attention has been given and which I hope soon will receive a practical solution.

I add various statements showing the property and financial condition of the company, and in conclusion I would say that looking at the situation and prospects of the company my judgment is that there is a prosperous business before it, and with due attention to such business and any fair treatment on the part of the government, it will, within a comparatively short period, resume its place among the dividend paying stocks, a place it has not held since the year 1869.

WM. P. CLYDE, President.

## FINANCIAL.

ALEX. FROTHINGHAM & CO., BANKERS AND Brokers, No. 19 Wall st., make for customers desirable investments of large or small amounts in stocks of a legitimate character, which frequently pay from five to twenty times the amount invested every thirty days.

Reliable stock privileges negotiated at favorable rates. Stocks bought and carried as long as desired on deposit of three to five per cent. Circulars and weekly reports sent 1y23*

☞ During the past year a patented eletric system has been introduced on the trains of the Philadelphia, Wilmington and Baltimore Railroad, and gives general satisfaction. This system su peraedes the present bell and cord arrangement to communicate with the engineer, and also gives a continuous automatic alarm on the locomotive whenever any portion of the train becomes accidently detached. The arrangement is also applied to freight trains, the cost of making the attachment being but trifling.

☞ The gross receipts of the Whitby (Canada) railway for the year amount to $50,501 31, an increase of 18.47 per cent. over the previous year. The working expenses of the year being 62.18 per cent., an increase of 2.37 per cent. The permanent way, buildings, locomotives and rolling stock, have been maintained in complete repair and efficiency. 15 tons of new iron rails and 9,000 ties have been placed in the track during the year.

☞ The purchasers of the Wilmington and Western Railroad met at Wilmington, Del., on the 31st ult., for organization. About $400,000 of bonds were represented at the meeting. The name of the Delaware Western Railroad was adopted, and the following directors were elected: Wm. M. Canby, Daniel M. Bates, Wm. Canby, Henry S. McComb, James L. Devon, Henry C. Robinson and Washington Jones. Wm. M. Canby was elected President.

☞ The bondholders of the old Wilmington and Western Railroad Company met at Landenberg, Penn., on the 1st inst., and organized a corporation under the laws of Pennsylvania, to be known as the Delaware Western Railroad of Pennsylvania. The same president and board of directors for the company were chosen as were elected in Wilmington, Del., on the 31st ult.

☞ The Corvallis Gazette gives a long account of the ceremonies connected with breaking ground on the Willamette Valley and Coast Railway (Yaquina Bay), on the 17th ult. Work was to have commenced on the following Monday. The success of the enterprise is said to be certain.

☞ A certificate of incorporation has been filed with the Secretary of State of Ohio of the Marietta and Shawnee Railway Company, capital stock $450,000, by Thomas Corcoran and others. The termini of said road will be Marietta, Washington county, and Shawnee, Perry county.

☞ At a meeting of the Directors of the Pacific Mail Steamship Co., held on the 31st ult., the following officers were elected: President, William P. Clyde; First Vice President, C. G. Francklyn; Second Vice President, Amos Rogers.

☞ A New Ferry Boat for the West Jersey Ferry Company, was launched on the 2d inst. from the yard of the Harlan & Hollingsworth Company, Wilmington, Del.

☞ The track on the Burlington and Lamoille Valley (Vt.) Railroad is now laid as far as Jericho, nearly half the length of the line.

### The United States Four Per Cent Loan.

At Washington, D. C., on Saturday, June 9, 1877, a contract was entered into and signed by the Secretary of the Treasury and Messrs. Rothschild, J. S. Morgan & Co., Seligman Bros., and Morton, Rose & Co., of London, England, and Messrs. Belmont & Co., Drexel, Morgan & Co., J. & W. Seligman & Co., Morton, Bliss & Co., and the First National Bank of the City of New York, for the sale of the four per cent thirty year consols at par in coin, of which $25,000,000 are subscribed for now, to be paid for in July and August, $5,000,000 to be for resumption purposes and $20,000,000 for the redemption of the six per cent bonds, and the sales are to be continued as rapidly as possible. The contract is for six months, and is similar in its general terms to the former contract, but has this important provision, that for thirty days after full notice the loan shall be open to popular subscription in the principal cities of the United States at par in coin, with the right to pay for the bonds within ninety days after subscription upon delivery.

Upon a notice given some days since the Secretary of the Treasury has withdrawn from the market one hundred millions of the four and a half per cent bonds, and the former Syndicate have subscribed under the old contract for $25,000,000, in four and a half per cent bonds, being the balance of the $200,000,000—the amount of that loan; $5,000,000 to be applied during June for resumption purposes, $5,000,000 during July for the same purpose, and $15,000,000 to be applied to the redemption of six per cent bonds. These agreements close out the four and a half per cent loan, and place upon the market the four per cent loan with a firm subscription of $25,000,000.

The new loan, drawing four per cent interest, and extending for thirty years, with interest payable quarterly, is not only far more favorable for the government than any ever before issued, but from its permanency and security will become the natural investment of the earnings of the people both in the United States and Europe. Every bond sold will lessen one-third the burden of the public debt to the amount of the bond. The bonds are issued in sums of fifty, one hundred, five hundred, one thousand dollars, and larger amounts; and will, by the mode of their sales, be brought within the reach of all classes of people.

### Baltimore and Potomac Railroad.

The annual meeting of the stockholders of the Baltimore and Potomac Railroad Co. was held in Baltimore on the 6th inst. From the report which was presented we learn that the gross earnings from all sources for the year ending December 31, 1876, were $722,485 56; of which the Washington line and tunnel yielded $678,894 55, and Pope's Creek line $43,591 01, showing an increase on the Washington line and tunnel of $39,902 17, and on the Pope's Creek line of $4,491 70—a total increase over 1875 of $44,393 87, and over 1874 of $107,070 20. The total expenses were $600,205 09, viz: on the Washington line and tunnel $541,596 51, and on the Pope's Creek line $58,608 58—an increase of $50,192 87; of which $34,390 01 was on the Washington line and tunnel, and $15,801 46 on Pope's Creek line. The net earnings were $122,280 47, viz: $137,298 04 on the Washington line and tunnel, with a loss on the Pope's Creek line of $15,017 57—a decrease of net earnings in 1876 from 1875 of $5,798 50.

The general expenses and conduct of transporportation were largely reduced. The increased total expenses arise solely from large outlays on maintenance of way caused by the use of a larger amount of track material, the total cost aggregating $70,800.

Nearly one-half of the main line between Baltimore and Washington has been relaid with steel rails, (614 tons;) the remainder and the whole of the Pope's Creek line repaired with new iron.

During the year there was charged to construction and equipment account for double track, etc., $15,820 52. A new and handsome iron bridge is being built by the city over the Pennsylvania avenue opening of the tunnel. Extensive repairs have been made in the Herbert's Run. Little Patuxent and Beaver Dam bridges of the Washington line, and nearly all the bridges of the Pope's Creek line have been entirely renewed or extensively repaired.

Since the last annual meeting strenuous efforts were made by certain property owners on Maryland avenue, in Washington, to secure by act of Congress a removal of the depot building in that city to a point further out. These efforts were happily frustrated.

Desirous to remove as far as possible any just cause of complaint they might have because of the obstruction of said avenue, the company has constructed and well fitted up an extensive coal yard on its property on Fourteenth street, have built a siding 1,128 feet long at the north end of the tunnel, and suitable pens for a stock yard in connection with it; and also a new siding 1,105 feet long between Eighth and Tenth streets southwest, to facilitate the passage of freight trains. Other improvements in the property and adornments of the public grounds in Washington through which the road runs are contemplated, which, it is confidently believed, if they do not remove the objections of these property holders, will satisfy Congress.

Expenses have been reduced as far as compatible with the proper preservation of the road and its equipment, and a reduction of ten per cent in the pay of officers and employees, which went into effect June 1, has been acquiesced in by all without complaint.

Directors for the ensuing year were elected as follows: A. J. Cassatt, George B. Roberts, George Small, B. F. Newcomer, Wm. F. Walters, Eli J. Henkle and Samuel Cox, with re-elections of offi-

cers as follows: President, Hon. Oden Bowie; Vice President, A. J. Cassatt; Treasurer, John S. Leib; Secretary and Auditor, John Crowe.

### New York Elevated Railroad.

By invitation, extended on Saturday last, of the President, Directors and Secretary of the New York Elevated Railroad Company, a large number of gentlemen participated in an excursion over the road to Fifty-ninth street and return. The train, consisting of nine cars which were comfortably filled, started from South Ferry at 12:05 o'clock, and made stoppages at the principal uptown stations to receive guests who found it inconvenient to go to the lower stations. The entire trip was made in one hour and a quarter, the train returning to the South Ferry at 1:20 o'clock. Immediately upon its arrival the guests proceeded to Delmonico's where, after disposing of the lunch, they were entertained with several timely speeches on the relations of rapid transit to the commercial prosperity of the Metropolis. Mr. Cyrus W. Field, President of the company, in his address, predicted that the city would soon have a rapid-transit route on the east side as well as the west side. As an illustration of the increasing popularity of rapid transit with the public, and as a justification for this prediction, Mr. Field read a comparative statement of the road in 1875, 1876 and 1877, showing that 74,721 passengers had ridden on the road during May, 1875, 180,617 in May, 1876, and 298,792 in May, 1877. During those years not a single life had been lost, nor had any passenger been seriously injured. Mr. Field then read the following letter from Capt. Douglas Galton, Royal Engineer, C. B., F. R. S., in which, after reviewing the features of the level, underground and elevated railroads, he declared the latter to be freer from objection than any other form of road for rapid-transit in cities:

12 Chester Street, Grosvenor Gate,
London, May 23, 1877.

The elevated railway is the best arrangement for rapid transit through towns which I know of.

Rapid transit through towns can only take place under the condition of a separation between the ordinary street traffic and the rapid traffic. The road for it must, therefore, either be on a level of ground, underground or elevated.

If on level ground there will always be inconvenience at points where ordinary traffic desires to cross it. Level crossings cause continual interference with and stoppage of traffic; over or under bridges for street traffic entail extra cost of haulage on street traffic.

An underground railroad is enormously expensive to construct. It greatly interferes with street traffic during construction from large quantities of material to be removed and brought on to ground; it interferes with sewers and drains and with basements of houses; and the passage of trains causes noise and vibration; it can never be healthy or free from deleterious gases; in foggy weather it is always full of a thick atmosphere which increase liability to accident and is very disagreeable to travellers.

On the other hand, the elevated railroad is simple in construction and does not much interfere with street traffic in erection; it is economical; it is pleasant to travel on; comparatively free from risk of accident from collision; it is easy of access; the form of locomotive adopted is free from objection, as it is comparatively noiseless and does not appear to frighten horses when passing above them. The objection to it of passing in front of houses is not of importance in broad thoroughfares, and its form of construction causes a minimum of interference with light in the lower floors. On the whole, the elevated railroad is freer from objection than any other form of road for rapid transit in towns.

Douglas Galton.

A letter was also read from Mr. William Allen Butler in which, among other things, he said that "next to a good city government, the first need of the metropolis at this moment is safe and regular transit by steam, above ground, from one end of the city to the other through such streets as are available for the purpose, and for public benefit."

Dr. R. H. Gilbert, the projector of the Gilbert Elevated Railway, addressed the meeting. From his speech, which was of considerable length, we make the following extract:

When I was present last Tuesday evening at the meeting in Chickering Hall I could but note the change in public sentiment since the time when I spoke at the Cooper Institute ten years before, when only about two hundred were gathered together to listen to what I had to say about elevated railways for rapid transit. Chickering Hall was crowded to its utmost capacity with the solid business men of this city, representing the best thought, wealth and commercial interests. Now, the vital point in all these meetings is this—that you, the representative men of this city, who have its progress and its prosperity at heart, if you would have it retain its supremacy as the great city of the Empire State and of our country, must make your influence felt at the primary meetings and the caucuses. When our representatives are put in nomination see to it that you understand just on what ground they stand—whether they are in favor of rapid transit or against it. This is no political question. It makes no difference whether the nominee be a democrat or a republican. What you, the business men of the city, want to know and what we want the candidate to pledge himself to is this—whether he will stand up for rapid transit and the best interests of the city. Then we will know just what to depend upon. If he says that he is in favor of rapid transit and will use every honorable means to promote it ninety-five out of every hundred will vote for him; and if he will say that he is opposed to it the people of this city will clear him out, root and branch, at the polls. Gentlemen, this whole matter rests in your hands. You must attend the primary meetings, organize and agitate. See to it that none but friends of rapid transit are put on guard. Its necessity is universally conceded. No further argument is needed in its favor. You need only to act. From the moment that you undertake the matter with the spirit and energy that its importance demands you will succeed. How was it with the success of the Atlantic cable? When was it that the Atlantic cable was called into being and became a success? Was it when we heard the first faint ticking across the cable from Valencia? No; it was from the time that the possibility of the great project took form and shape in the mind of the projector, whose iron will, whose perseverance and determination made his defeats and discouragements only the stepping stones to success. (Loud cheers.) I remember an incident in the life of the first Napoleon which well represents my idea of what you may accomplish when you earnestly undertake the work. People are apt to date his control of France from the time he dissolved the National Assembly with the stamp of his foot, but it really dated from a period far back of the time, when he had conquered in Italy and his name had been echoed over two continents. It was at the time when 500 irresolute men were gathered together in that Assembly, which called itself, and pretended to be, the government of France. They heard that the Parisian mob was coming the next day to turn them out of doors, as they were accustomed to do in those days. And where did this seemingly august assembly go for protection? Why, they sent Tallien to seek out a boy lieutenant so thin and pale that when he was brought before the Assembly the President, fearing that if the fate of France depended upon the slight form and sunken cheek of the young man before him that all hope was gone, said, "Young man, can you protect the Assembly?" The thin lips of the Corsican boy parted only to utter, "I always do what I undertake." It was then and there that he ascended the throne of France, and the cannon that thundered through the streets the next day taught the mob what it learned for the first time, that it had a master. So will it be, gentlemen, with reference to this great and vital subject of rapid transit for this city. It can be speedily accomplished if you will only earnestly undertake to see to it that none but its friends are put in nomination or permitted to hold official positions.

During the delivery of the address Dr. Gilbert was frequently applauded, and at its conclusion heartily cheered.

Among those present were: James B. Colgate, Peter Cooper, Joseph Seligman, H. B. Claflin, Charles L. Tiffany, Wm. E. Dodge, A. S. Hewitt, Jordan L. Mott, Edward Cooper, Jacob D. Vermilye, M. K. Jesup, J. S. Schultz, Wm. H. Wickham, Dr. Isaac I. Hayes, J. A. Cowing, the Secretary of the Company, Senator Kennedy, of Brooklyn, and a number of Assemblymen, prominent politicians, financiers, etc.

### Northern (N. H.) Railroad.

The earnings of this road for the years ending March 31, 1876 and 1877, were as follows:

| | 1876. | 1877. |
|---|---|---|
| From passengers | $181,819 97 | $162,709 35 |
| " merchandise | 295,148 53 | 267,506 63 |
| " mails | 14,910 00 | 18,217 94 |
| " rents | 3,106 36 | 2,369 24 |
| " express | 7,500 00 | 7,500 00 |
| | $503,984 86 | $458,303 16 |
| Expenses, viz: | | |
| Passenger department | $28,157 94 | $20,325 78 |
| Merchandise " | 41,131 24 | 33,266 26 |
| Locomotive " | 133,441 28 | 122,667 70 |
| Maintenance of way | 92,545 47 | 88,747 75 |
| General expenses | 18,566 78 | 16,675 07 |
| Miscellaneous expenses | 26,692 91 | 21,106 29 |
| State tax | 42,639 02 | 32,264 24 |
| | $383,174 64 | $335,153 09 |
| Balance of earnings | $120,810 22 | $123,150 07 |
| Less new rail account | 26,560 28 | 19,734 49 |
| Net earnings | $95,249 94 | $103,415 58 |
| Add balance of income per last report | | 28,335 91 |
| Balance of interest account | | 33,090 49 |
| Balance on settlement of old accounts | | 27,055 88 |
| Total income | | $186,897 86 |
| From which deduct— | | |
| Paid dividend Dec. 1, 1876, $2 50 per share | $74,952 50 | |
| Dividend payable June 1, 1877, $2 50 per share | 74,932 50 | |
| | | 149,885 00 |
| Balance of income account | | $37,012 86 |

Compared with the previous year the gross earnings show a decrease of $54,681 70, with a decrease in expenses of $62,847 84—making the increase in net earnings $8,165 64. The report says:

On comparison of the above statement of the agent with that in the report of last year, it will be seen that while there has been a very considerable decrease in the gross earnings of this year from those of the previous year, yet there has been a greater reduction of expenses; so that there is an increase of the net income of the year from that of last year.

Considering the continued depression of business generally during the year, and on compari-

son with the experience of most other roads during the same time, this result on our road will appear favorable. And the business engagements and relations of the road with connecting roads have not been, for many years, in so favorable situation as they are, on the whole, at this time.

The Peterborough and Hillsborough Railroad has commenced the construction of its road from Hillsborough to Peterborough. The completion of that road is important for the protection and improvement of the business of the road now extending from Concord to Hillsborough, in which the Northern Railroad has a large interest. And in that view the directors have deemed it for the interests of this company to aid the success of that enterprise, so far as its means would allow without incurring any liability in the matter.

During the year 300 tons of iron and 195 tons of steel rails, and 58,967 new sleepers have been laid in the track, and about 3,400 tons of rails have been repaired and relaid. One passenger engine and thirteen freight cars have been rebuilt to supply the place of others; and the road and furniture have been kept in good repair.

The equipment of the road March 31, 1877, was as follows: 12 passenger and 13 freight locomotives, 423 long and 101 short merchandise cars, 14 passenger, 1 mail, 2 mail and smoking, 7 baggage and 19 gravel cars. Number of miles run by passenger trains, 190,218; by freight trains, 243,608; by other trains, 4,707—total, 438,533. Number of passengers carried, 154,664; do. carried one mile, 5,766,165. Tons of merchandise carried, 323,513; do. carried one mile, 20,031,812.

TRIAL BALANCE SHEET, March 31, 1877.

| | | |
|---|---|---|
| Construction | | $2,068,400 00 |
| Rails | $42,365 36 | |
| Oil | 784 94 | |
| Waste | 69 24 | |
| Fuel | 68,072 00 | |
| Shop stock | 89,196 22 | |
| | | 150,478 76 |
| 711 shares Northern Railroad N. H., cost | | 87,708 34 |

*President.*—ONSLOW STEARNS.

*Directors.*—Onslow Stearns, John A. Burnham, George W. Nesmith, Uriel Crocker, Josiah Minot, Charles F. Choate, Edward Lawrence.

*Treasurer.*—J. MINOT.

*Superintendent.*—GEORGE E. TODD.

☞ In the Mobile and Ohio Railroad Company's litigation before the United States Court at Mobile, Ala., Judges Bradley and Woods have made an order that the three suits for the foreclosure of the first mortgage shall proceed as one cause. This degree consolidates the bills of Morris Ketchum, W. B. Duncan and the suit brought by Swiss bondholders. The argument on the question of lien claimed by Alexander Duncan on coupons of 1874 was concluded on Saturday last, and the decision was rendered on Monday, placing them on the same footing as the first mortgage bonds, and ordering the sale of the road to satisfy claims. In reference to the Tennessee branch of litigation in Memphis it has been adjudged that the European bondholders, represented by Moran Bros., of N. Y., are entitled to protect their interests as parties defendant in the suit brought by the substitution bondholders.

### Vermont Central and Vermont and Canada Railroads.

At St. Albans, Vt., on the 11th inst., Chancellor Homer E. Royce, sitting in the regular term of the Court of Chancery for Franklin county, filed a decretal order on the petition of the Central Vermont Railroad Company's receiver and manager for an order of the sale of the Vermont Central and Vermont and Canada Railroads and property to pay the trust on the receivership's debts. The petition was filed last September, and a final hearing was had at the present term, commencing May 17 and lasting three days, when a large number of parties and counsel were present. This decretal order is a very important one. The Court considers:

First, that the trust debt accrued and accruing in the administration of the Vermont Central and Vermont and Canada Railroads, under the receivership thereof, as set forth in said petition, is a legal and binding debt, and constitutes a charge and first lien upon the Vermont Central and Vermont and Canada Railroads, their privileges and appurtenances and the equipment appertaining thereto.

Second, that the Court of Chancery has power to satisfy said lien by a sale of said railroads, equipment and other property, and that a sale may be ordered under this petition.

Third, that the amount and character of the trust debt is shown by the proofs, and the inability of the petitioners to provide for the same furnishes an occasion for and the full justification of a sale, and that the priorities as between different interests sufficiently appear from the proofs and prior proceedings in the case.

Fourth, I am therefore of the opinion that on the allegations and proofs the petitioners are entitled to the relief asked for and that the prayer of the petition ought to be granted. But it is highly important to all interested that the questions of the validity and priority of the trust debts referred to in the petition should be determined and settled before any sale of the property is had, and as doubts have been entertained and in the event of ordering a sale the question would probably be made as to when an appeal could be taken (whether immediately upon the order or after the sale, or sale and conformation.)

It is for the above reasons and for the purpose of having all the questions involved under said petition, answers and proofs, so far as may be practicable, determined and settled before any further proceedings are had, ordered pro forma, on the day and year last aforesaid, at St. Albans aforesaid, that the petition be dismissed without prejudice, on a motion of the Central Vermont Railroad Company petitioners, on appeal from this decision to the Supreme Court, at its next regular term in this county, in January, 1878, or to any special term of the Supreme Court in this county, if one shall be sooner held, as under an act of the last Legislature, it is likely there will be next month.

☞ The Chesapeake and Ohio Canal Company are building a telegraph line over the towpath from Cumberland, Md., to Alexandria, Va., and thence on the Western Union Company's poles to Annapolis. The length of the line will be two hundred miles, with offices at convenient intervals. The transaction of commercial business is, we believe, not contemplated at present. The line will supply a much needed facility in the transaction of canal business.

### New York Bridge Co.

At a meeting of the newly appointed members of the Board of Trustees of the New York Bridge Co., held at the office of the company in Water Street, Brooklyn, on the 12th inst., Henry C. Murphy was unanimously re-elected President, Arthur Leary Vice President, J. H. Prentice Treasurer, and O. P. Quintard Secretary. In returning thanks for his re-election, Mr. Murphy said he would endeavor to promote the interest of the great work in which they are concerned and which had been committed to their charge. They had now reached an epoch in the construction of the bridge which is gratifying and encouraging. The great stone towers, the anchorage and the land taken for the approaches of the bridge, constituting about two-thirds of the whole work, have been completed and the expenses thereof have been met. They could now with certainty fix the period for the completion of the bridge as within three years from this time. A contract has been made for a large cable, which is now in process of manufacture; but the engineer is satisfied that a larger wire may be used in the construction of the cables, thereby saving time. Authority for the use of larger wire must, however, first be given by the Board.

In relation to the new wire required, he said that it would be a saving of twenty-five per cent in the time occupied in making the cable, while the cost would be about the same as at present contracted for. Mr. Stranahan remarked that it would facilitate the completion of the bridge some months, which would effect a saving on the interest of the capital invested. The new wire has not quite the strength demanded but it has greater elasticity.

The financial report showed that the aggregate receipts up to May 31, 1877, were $7,649,014 22. The cash expenditures amounted to $7,468,646 66. During the past month the receipts were $279,041 18, and the expenditures $174,288 65.

### Lehigh Valley Railroad.

The following is an official statement of net earnings from transportation for the first six months of the fiscal year 1876-'77, as compared with former years:

| | | | |
|---|---|---|---|
| 1874 | $1,364,832 08 | 1876 | $1,279,827 87 |
| 1875 | 857,718 79 | 1877 | 1,189,489 13 |

The total net earnings for the entire year from all sources were as follows:

| | | | |
|---|---|---|---|
| 1874 | $3,865,548 69 | 1876 | $4,194,497 16 |
| 1875 | 4,055,205 71 | | |

The total tonnage for the first six months of the present fiscal year, as compared with former years, is as follows:

| | | | |
|---|---|---|---|
| 1874 | 1,898,879 17 | 1876 | 1,596,098 05 |
| 1875 | 839,085 18 | 1877 | 1,977,476 10 |

☞ Riehle, Bros. are filling orders for their Self-adjusting Railroad Track Scales of 80,000lbs. capacity for erection on the Western and Atlantic Railroad, Atlanta, Ga., and the Cleveland Iron Co., Cleveland, O. They also have orders for one of their Patent Coal or Wagon Scales of 15 Tons capacity with new "Window Beam" arrangement from Bristol, England. This is no doubt one of the many good results of the Centennial.

### Egypt and the Suez Canal.

In an official communication to the Department of State at Washington it is stated that the Suez Canal, up to the close of last year, cost the Egyptian Government, in addition to the amount of shares sold to the English Government, over $71,000,000, about half of this sum being interest. This includes the cost of the fresh-water canal from Cairo to Ismailia, and thence to Suez, for the use of the Suez Canal and the stations on its line, including the cities of Port Said, Suez, and Ismailia. This enterprise, so useful to many nations, and especially to England, was one of the first causes of the present financial embarrassment of Egypt. Notwithstanding this great sacrifice in the interests of commerce, Egypt to this time has received no benefit from this canal, but, on the contrary, has absolutely sustained, in addition to the money invested, constant loss. By the passage of all classes of vessels with their passengers and cargoes directly through the canal, considerable commerce is lost to Egypt, and also a large business in freights and passengers that would otherwise be transported from Alexandria to Suez on the Egyptian railways. It appears from a statement showing the navigation through the Suez Canal from Dec. 1, 1867, to Dec. 31, 1875, that the entire number of vessels was 6,275; the largest numbers being 4,347 English, 292 Italian, 168 Dutch, 140 Ottoman, 345 Austrian, 118 German, 48 Russian, 82 Spanish, and 10 American. Of the entire number of vessels, 4,406 were commercial steamers and 1,107 postal steamers. The total number of passengers was 359,036.

### Wisconsin Central Railroad.

On Saturday evening, June 2d, the gap between the northern and southern portions of the Wisconsin Central Railway was closed. The gap consisted of 11.7 miles, 42 miles south of Ashland, between the villages of Butternut and Chippewa, and trains commenced running over the new road on the following Monday. The formal opening was to have taken place on the 10th inst. The company now operates 455 miles of road, 26 engines and 30 trains. The route runs northward from Milwaukee to Hilbert and Green Bay, west from Hilbert to Stevens Point, and north to Ashland, which route constitutes the main line, being 351 miles in length. Hilbert is 27 miles south of Green Bay, and the branch between these two points is a very important one. The time between Milwaukee and Ashland is from 20h. 15m. to 21h. 50m. The *Wisconsin*, from which the above was obtained, says:

This great work has been carried forward amid peculiar discouragements, and completed at a time when the business of railroad construction has been almost paralyzed; and to Messrs. C. L. Colby and E. B. Phillips, (the former President, and the latter General Manager,) who have not only invested their money in it, but to whose personal supervision and energy the progress and completion of the work were due, the people of this State are greatly indebted. The only thing about the matter to be regretted is that the State has not always given them the support and encouragement which they deserved. They have built the branch from Stevens Point to Portage, which their enemies asserted they would not build; they have now completed the main line which some affected to think they would not do, and thus shown that their good faith is equal to their enterprise. The continuation of the line along the shore of Lake Superior to connect with the Northern Pacific at Duluth or Superior is an event of not distant realization, and then Milwaukee will possess two direct connections with the far Northwest.

### Railroad in Arizona.

YUMA, (A. T.,) June 4th.—Superintendent Hewitt and party returned yesterday evening to Los Angeles.

It is reported that the bridge will be completed by the last of July.

Grading is progressing on the line of Madison avenue through the bluffs to the bank of the river, where the approaches for the bridge are also being made.

Colonel Gray, Chief Engineer, met the Council on Saturday night to ask for four lots diagonally opposite the Court-house, for depot grounds. The owners will agree to-day upon a basis of sale or exchange. Repair and machine shops and roundhouse will be located at the head of Gila street, the line of road diverging from Madison avenue to Gila slough.

### Georgia Railroad and Banking Company.

The earnings of this road for the years ending March 31, 1876 and 1877, were as follows:

| | 1876. | 1877. |
|---|---|---|
| From passengers ..... | $245,119 53 | $194,280 76 |
| " freight .... .... | 920,911 60 | 919,641 88 |
| " mails.. .... .... | 28,292 94 | 29,205 60 |

Compared with the previous year the gross earnings of 1877 show a decrease of $51,195 83, with an increase in expenses of $1,432 87—making a decrease in the net earnings of $52,628 20. The President in his report says:

A brief report of the Superintendent, with appended reports of subordinate officers of his department, exhibits the business operations of the road for the past fiscal year, together with the expenses of management, and all expenditures properly chargeable to road receipts, for the same period. The report, though by no means encouraging, furnishes no just cause of complaint, as it compares very favorably with the exhibits made by many of the best managed railroads at the South. But the Superintendent very truly remarks, that "this year has been one of great hardship upon the railroad interest of the whole country," and it must be confessed that there are at present no indications of early improvement, especially for Southern railroads.

The Superintendent refers encouragingly to the establishment of a fast line between New York and New Orleans, by way of Augusta, Macon and Montgomery. As a rule, very fast schedules for a light business cannot be commended. The increased expense and wear and tear of road and rolling stock may, and often do, more than neutralize any increase of travel by this attraction. As an experiment it has thus far promised well. If, on full and fair trial, it should prove to be unprofitable, it may be discontinued. To insure permanent success, the road should be put in first class condition, and maintained in a scrupulously accurate state of adjustment. These considerations add weight to the recommendation to renew with steel rail gradually, and commence a process of ballasting on certain parts of the road-bed. If put in proper condition, with appropriate mail pay, it is believed that no other line can offer so many advantages for permanent mail service at all seasons, between these important points. Should all the links on the line be placed in first class condition, and harmoniously cooperate, it is not believed that this route is likely to be superseded by any other.

The policy recommended of permanent adoption of steel rail instead of iron for renewals, is undoubtedly sound, and after the fullest trials and tests, has been adopted by most of the leading roads of the country. About thirteen miles of approved pattern and guaranteed quality and make, have been ordered, to be delivered in May and June. Should the means of the company justify, this order may be doubled. The hopes of increased net profit, as a result of the large reduction of expenses about the close of the preceding fiscal year, have not been fully realized. The heavy losses by fire and flood, at Oconee and Macon, not only for renewal of bridges, but by heavy diversion of business, fell mainly on this year's business. The heavy loss also, by the opening of the North-Eastern Road from Athens, has been, as was expected, severely felt.

Strangely enough this rival road was advocated and sustained by our largest stockholders, without whose assistance it could not have been built! As the company did not contribute to this hostile enterprise, the stockholders have no right to complain of a measure which they had no power to prevent.

Upon the business outlook for the future, the board will venture no prophecies or predictions. At the present the prospect for Southern roads seems gloomy enough! The railroad interest is not an isolated interest, but sympathizes closely with various other interests with which it is connected, and on whose prosperity it is mainly dependent. Just at a time when the hope was entertained that we had seen the worst at home, and that any change must be improvement, that hope was defeated by new complications in Europe. To the grain growing sections this may be fortunate, but to the planting and manufacturing interests it can only intensify the present blighting paralysis, and prove an unmitigated evil.

The company have 48 locomotives, 28 passenger, 2 sleeping, 9 baggage, 8 mail, 8 express, 525 box, 26 cab, 114 platform, 34 stock, 61 coal, 23 shanty, 1 pay and two wood cars. Miles run by locomotives, 1,162,800, against 1,083,446 in 1876, an increase of 78,854. Miles of road in use, 231. Bales of cotton transported 272,602. Bushels of grain, 1,667,529. Barrels of flour, 149,460. Pounds of guano, 75,415,168. The operating expenses were 56.25 per cent of gross earnings, against 53.75 in 1876. The Superintendent in his report says:

From the foregoing you will perceive that the gross earnings of the road for the fiscal year ending March 31st, were $1,143,128 24. After paying all expenses the net is $500,017 94.

This year has been one of great hardship upon the railroad interest of the whole country. Very few southern roads have been able to pay dividends, and many roads of respectable standing have been unable to meet the interest on their bonded debt, and have gone into the hands of receivers. The Georgia road, though its dividends have not been entirely uniform, has been generally able to meet the wishes of the stockholders and relieve their pressing wants.

In operating the road the year just ended, it will be seen that in working the Georgia Railroad, the percentage of expenses on gross receipts will compare favorably with the best managed roads in the country, notwithstanding its incumbrance with several unprofitable branches. The condition of the property, however, has been carefully guarded and not allowed to suffer from a restricted economy.

For instance, the last annual report of the Central Railroad makes expenses 62 per cent. of gross earnings. The last annual report of the Atlanta and West Point Railroad makes expenses 61½ per cent. The last annaul report of the Charlotte, Columbia and Augusta Railroad makes expenses 61 per cent. The last annual report of the South Carolina Railroad makes expenses 57½ per cent. This is conclusive that the Georgia Railroad has

been worked as low as any of its connections, and no one will deny that the road is in good order.

In commencing the new year, it may not be amiss for me to impress upon the minds of those owning the property, that it is important in renewing the road to use steel rails, on the ground of economy, as our experience for the last few years with iron rails has been that in many instances they have not lasted over two years, and you rarely get an iron rail, in these days, that will last five years, which makes it very expensive to keep up the road, and it is true economy in the end to lay entirely with steel rails, for no road with the tonnage of the Georgia Railroad can afford to lay iron, whilst the price of steel is only about ten dollars per ton more, while the expense of laying the iron is equal to the expense of laying the steel.

We laid six miles of steel rail last year, and it is as good as when put down.

It is also important to commence ballasting the track at an early day.

You will ascertain from the Road Master's report, the number of miles of new iron laid during the year, and the number of cross ties put in the track. We have been able to run our trains the last year with great success, which is due mainly to the fine track and good rolling stock.

The business of the year on the Main Line of the Georgia Railroad has been satisfactory to the officers, and our increase in shipments of cotton this year, over the previous year, has been very heavy, which increased our revenue very largely in down freights, but the prevalence of the yellow fever in Savannah, caused these large shipments of cotton to pass over the Georgia Railroad, which added very largely to the receipts in September, October and November, which fact should not be overlooked.

The excess of guano transported this season, over the previous one, no doubt will add largely to the local cotton receipts next fall.

The competition for business to and from Atlanta, since the opening of the North Eastern Railroad, has been great and the business of the Georgia Railroad has suffered seriously, and our losses by the opening of this new route have been very heavy.

From the report of the Master Machinist you will perceive that the engines are in good order, and that his experience in regard to burning coal in his engines is satisfactory. From this time when we overhaul the engines they will be turned into coal burners.

The earnings of the Macon and Augusta Railroad were $116,329 45, the expenses $98,040 15, and the net profits $18,289 80.

The following is a condensed statement of the condition of the Georgia Railroad and Banking Company on 31st March, 1877:

| | | |
|---|---|---|
| The road and its outfit | | $4,156,000 00 |
| Real estate | | 123,783 03 |
| Banking house and lot | | 35,000 00 |
| Material on hand for road | | 52,259 11 |
| Road expenses | $739,910 63 | |
| Interest on bonds | 37,520 00 | |
| Incidental expenses and salaries | 9,241 40 | |
| Taxes | 3 069 27 | |

*Superintendent.*—S. K. JOHNSON.

*Cashier.*—GEO. P. BUTLER.

### West Wisconsin Railroad.

The West Wisconsin Railroad is in the hands of a Receiver, W. H. Ferry, the General Manager of the road, having been appointed to that position by Judge Drummond, sitting at Madison for Judge Hopkins, of the United States District Court for the western district of Wisconsin. The action was had on application of George Burnham and others. The road extends from Elroy, Wis., to St. Paul, Minn., via Hudson and Stillwater, a distance of 197 miles. It has of late been run in connection with the Chicago and Northwestern road, thus giving it a continuous line to St. Paul. It is said that the bondholders design, by the action in question, to secure the reorganization of the company on the basis of a reduced bonded indebtedness. The order appointing Mr. Ferry receiver directs him to pay all debts for wages and supplies that have accrued during the six months past, the debts of a similar nature accruing previous to that time having all been paid. No change of management is contemplated at present, it is said, and the road will run as usual. It is thought that this step will result in making the road a part of the lines of the Northwestern company—in fact that it was dictated with this end in view. Whatever may result to the stockholders of the West Wisconsin company, this acquiring of the road by the Northwestern will no doubt result in the great improvement of the line, and the consequent advantage of the country through which it passes.

Ultimately, the road will become a very important one, as it connects at Hudson with the North Wisconsin, which is pushing its way northward to Lake Superior, and which will probably be completed within a few years. This projected road will penetrate a new and sparsely settled portion of the state, but one of considerable resources, and now without means of transportation for its product. The road is completed a distance of some forty miles, and is in operation, and, with better times, work on it will go forward more rapidly.

Milwaukee is not likely to experience much direct benefit from this line of road until the line from this city to Lodi, in Columbia county, is built. Such a road would place our city on an equality with Chicago, so far as connection with the Wisconsin branches of the Northwestern road is concerned. A few years ago there was much talk of building this road, and we think the time is coming when the project will be realized, because it will be for the interest of the company. —*Mil. Wis.*

☞ The Florida Central Railroad, from Jacksonville to Lake City, which has been in receivers' hands three years, has been delivered to the company by order of court.

☞ The long continued competition between the Boston and Maine and Eastern Railroads has been terminated by an agreement entered into by the managers of the two roads, the basis of which is the pooling of all competing business. The road that does the business is to have fifty per cent. of the receipts, and the balance, or the remaining fifty per cent., is to be divided equally between the two corporations. All freight cars of the Eastern road can go beyond Portland, but all other cars, with the exception of the night Pullman trains and the Pullman trains, are to stop at Portland, where passengers will be transferred. At certain stations only one agent will be employed for both roads, thereby effecting a saving in salaries. Trains of the Eastern road are allowed to run into Lawrence, and all law suits between the two roads are considered settled. Each road is at liberty to inspect the free passes issued by the other road.

☞ The annual meeting of the shareholders of the Chicago and Canada Southern Railway Company, the Toledo, Canada Southern and Detroit Railway Company and the Canada Southern Bridge Company was held at Grosse Isle on the 7th inst., and the following directors were elected: For the Bridge Company—W. H. Vanderbilt, Augustus Schell, Sidney Dillon, J. W. Converse, S. F. Barger, E. A. Wicks, E. D. Worcester, W. L. Scott and James Emmett. For the Chicago and Canada Southern Railway Company—Sidney Dillon, J. W. Converse, Charles Lanier, E. A. Wickes, W. B. Leonard, Elisha Atkins, A. J. Aiken, David Dows and A. L. Pritchard. For the Toledo, Canada Southern and Detroit Railway Company—W. H. Vanderbilt, Augustus Schell, S. F. Barger, Sidney Dillon, E. D. Worcester, W. L. Scott, Joseph Harker, E. A. Wickes and S. W. Davis.

☞ The Boston, Winthrop and Point Shirley Railroad is completed to Winthrop, and the cars are running. This is the first railroad ever built with the angle rails, and it is giving entire satisfaction. The grading is being continued beyond Winthrop, and in a short time the cars will be running to the beach. The road will then be immediately continued to Point Shirley. The officers of the company are: Samuel G. Irwin, President; Albert L. Rice, Vice President, President Angle Iron Railway Construction Company; James W. Teague, Superintendent; Frank H. Hills, Treasurer; E. G. Allen, Secretary.

☞ The engineers of the Royal Land Company are surveying another route from Orange Court House to Harrisonburg, Va., for the Narrow Gauge railroad. The new survey crosses the Blue Ridge at Powell's Gap, the grade on which is about eighty feet to the mile, against one hundred and twenty on the Swift Run Gap route.

☞ A certificate of incorporation has been filed with the Secretary of State of Ohio of the Cincinnati, Montgomery and West Loveland Railroad Company. The termini is Cincinnati and West Loveland, Ohio. Capital stock $100,000, in shares of $50.

☞ The capital stock of the Suez Canal is divided into 400,000 shares, of which England owns 176,602 shares, from which she will receive dividends after 1894.

☞ At the recent annual meeting of the Boston Land Co., informal reports were made by the Superintendent, Mr. Charles Bird, and the Treasurer, Mr. Edward Turner. The former described the work which the Company is doing on different parts of its land and foreshadowed the Company's action with regard to certain matters of policy. The Treasurer reported that the receipts for the eight months ending June 1 amounted to $39,658 56, and the current expenses to $5406 27. The assets of the Company amount to $178,151 74, and the liabilities to $156,458 68.

☞ The funded indebtedness of the District of Columbia and the late corporations of Washington and Georgetown, June 1, 1877, amounted to $8,381,391 96, a reduction since December 1, 1874, of $502,088 22. The sinking fund commissioners have in hand the following assets, which, if disposed of and applied, would still further reduce the amount of debt: Chesapeake and Ohio Canal bonds $75,000, and Washington and Alexandria bonds (in litigation) $59,000. The amount of fifty year 3.65 bonds issued per act of Congress of July 20, 1874, to the present time, is $13,743,250.

### Commerce of New York.

The foreign imports at New York for the month of May, 1877, are officially stated as follows:

| | 1876. | 1877. |
|---|---|---|
| Entered for consumpt'n. | $9,286,918 | $11,348,796 |
| Do. for warehousing | 8,078,024 | 8,993,413 |
| Free goods | 6,130,616 | 7,869,770 |
| Specie and bullion | 175,953 | 549,114 |
| Total entered at port | $23,671,511 | $28,761,093 |
| Withdrawn fr. wareh'use | 6,844,256 | 6,189,879 |

The foreign imports at New York for five months from January 1, were:

| | 1876. | 1877. |
|---|---|---|
| Entered for consumpt'n | $57,199,144 | $61,536,121 |
| Do. for warehousing | 40,879,150 | 35,858,765 |
| Free goods | 37,397,500 | 42,045,908 |
| Specie and bullion | 1,752,405 | 6,846,210 |
| Total entered at port | $137,228,199 | $146,287,004 |
| Withdrawn fr. wareh'se | 35,238,887 | 31,187,732 |

The foreign imports at New York for eleven months of the fiscal year were:

| | 1876. | 1877. |
|---|---|---|
| Six months ending January 1 | $148,376,529 | $147,027,452 |
| January | 29,756,259 | 27,606,337 |
| February | 27,977,330 | 26,659,268 |
| March | 32,018,867 | 34,402,295 |
| April | 23,804,232 | 28,858,011 |
| May | 23,671,511 | 28,761,093 |
| Total eleven months | $285,604,728 | $293,314,456 |
| Deduct specie | 7,649,985 | 30,812,813 |
| Total merchandise | $277,954,743 | $262,501,643 |

The duties received at New York for eleven months ending with May, were:

| | 1875-'6. | 1876-'7. |
|---|---|---|
| July | $9,273,546 61 | $7,497,199 39 |
| August | 11,417,505 51 | 10,125,386 42 |
| September | 10,163,829 28 | 8,634,411 36 |
| October | 8,208,316 27 | 8,031,580 14 |
| November | 7,084,576 39 | 5,720,296 82 |
| December | 5,349,574 79 | 4,822,595 04 |
| January | 8,160,728 44 | 8,058,938 72 |
| February | 9,473,003 56 | 8,224,434 61 |
| March | 10,237,275 36 | 8,695,637 63 |
| April | 7,764,457 04 | 7,569,482 75 |
| May | 7,575,997 28 | 7,054,082 33 |
| Total | $94,658,810 53 | $84,434,045 21 |

The exports from New York to foreign ports in the month of May, were:

| | 1876. | 1877. |
|---|---|---|
| Domestic produce | $20,652,833 | $22,241,422 |
| Foreign free goods | 146,737 | 220,919 |
| Do. dutiable | 776,557 | 423,690 |
| Specie and bullion | 8,519,671 | 10,743,150 |
| Total exports | $30 095,798 | $33,629,181 |
| Do. exclusive of specie | 21,576,127 | 22,886,031 |

The exports from New York to foreign ports for five months from January 1, were:

| | 1876. | 1877. |
|---|---|---|
| Domestic produce | $96,760,486 | $106,410,760 |
| Foreign free goods | 1,558,265 | 1,219,977 |
| Do. dutiable | 2,582,216 | 1,908,364 |
| Specie and bullion | 28,787,128 | 16,326,161 |
| Total exports | $124,678,095 | $125,864,262 |
| Do. exclusive of specie | 100,885,967 | 109,538,101 |

Exports (exclusive of specie) from New York to foreign ports for eleven months ending with May, were:

| | 1876. | 1877. |
|---|---|---|
| Six months ending January | $134,944,600 | $151,493,635 |
| January | 21,800,226 | 25,403,169 |
| February | 18,304,987 | 19,662,718 |
| March | 20,944,776 | 19,822,112 |
| April | 18,259,851 | 21,764,071 |
| May | 21,576,127 | 22,886,031 |
| Total produce | $235,830,567 | $261,031,736 |
| Add specie | 40,988,440 | 30,796,930 |
| Total exports | $276,819,007 | $291,828,666 |

☞ The directors of the Chicago and Northwestern Railway Company, elected on the 7th inst., are: David Dows, Sidney Dillon, J. H. Howe, Marvin Hughett, J. M. Burke, Harvey Kennedy, S. M. Wells, W. L. Scott, John Bloodgood, Jay Gould, J. L. Tenbave, A. G. Dulman, W. H. Ferry, R. P. Flower, M. L. Sykes, Jr., H. H. Parker, Albert Keep. Among the officers elected by the directors are the following: President, Albert Keep; Vice President, Secretary and Treasurer, M. L. Sykes, Jr.; General Manager and Superintendent, Marvin Hughett.

☞ At the annual meeting of the Northern Railroad Company, held in Concord, N. H., on the 31st ult, the following Board of Directors was elected for the ensuing year: Onslow Stearns of Concord, John A. Burnham of Boston, George W. Nesmith of Franklin, Uriel Crocker of Boston, Josiah Minot of Concord, Charles F. Choate of Boston, and Edward Lawrence of Boston.

☞ At Little Rock, Arkansas, on the 9th inst., the Supreme Court decided that the act under which about $16,000,000 of bonds were issued in 1869 in aid of railroads was unconstitutional, and that the bonds were illegal. The case was appealed from the Pulaski Circuit Court, and the Supreme Court affirms the decision of the court below.

☞ At a meeting of the Concord and Claremont Railroad Co., held at Concord, N. H., on the 30th ult., the following directors were elected: Onslow Stearns, Edward L. Goddard, David W. Johnson, Dexter Richards, Mason W. Tappan, Chas. Minot and Chas. P. Sanborn.

☞ The Mason Machine Works, of Taunton, Mass., have just shipped a narrow gauge engine to the North Pacific Coast Railroad, Cal.

### Imports of Dry Goods at New York.

The imports of foreign dry goods at New York for the month of May, were:

ENTERED FOR CONSUMPTION.

| | 1876. | 1877. |
|---|---|---|
| Manufactures of wool | $358,054 | $378,486 |
| " cotton | 580,777 | 717,987 |
| " silk | 888,314 | 867,543 |
| " flax | 397,338 | 519,970 |
| Miscellaneous dry goods | 368,344 | 315,778 |
| Total | $2,592,827 | $2,799,714 |

WITHDRAWN FROM WAREHOUSE.

☞ The Contra Costa Gazette says that the regular schedule train time on the new railroad line, when the track has been properly ballasted and bedded, will be at the rate of forty miles an hour, including stoppages. This rate will put Martinez within forty-five minutes of Oakland, and an hour, or but a few minutes over, of San Francisco.

# American Railroad Journal.

**Saturday, June 16, 1877.**

### Financial and Commercial Affairs.

Money yet rules very easy for responsible borrowers, the amount of capital being largely ahead of the opportunities for profitable employment. The demand from all sources for accommodation is very moderate, and in no important instance urgent. Low rates are named on loan and discount applications of a satisfactory character; the quotations on call being down to almost nominal figures. Washington reports and rumors as to the plans and purposes of the Treasury Department have not had much weight in the general market. Call loans are quoted here at 1@2½, with most of the important negotiations reported on the basis of 1½@2 per cent; and very choice to prime mercantile credits are rated at 3@4½, mainly 3½@4 per cent per annum. The City banks, last week, reported a decrease in their legal tender and specie reserves, and a further slight enlargement of their circulation. The loan and discount item was augmented slightly, and the deposit average also increased. The loan and discount average shows an addition of $918,600. The item of circulation was augmented $18,800, and the deposits $256,900. The legal tender reserve was reduced $821,600; and the specie average $402,800.

The City banks reported their average of gold last week at $19,441,700, as against $15,729,100 same date last year; and their greenback average at $55,078,100, as against $53,060,000 on June 10, 1876. Their deposits stood at $223,788,500, against $210,880,500 same time in 1876. The loan item was $251,678,000 against $249,870,700 a year ago.

The City bank net reserve of specie and legal tender notes now shows an excess over the legal requirement of reserve to liabilities of $18,585,175, as against $19,873,800 the preceding week, $9,039,775 the week ending 14th April (the lowest footing of this item thus far in the current year,) and $24,781,800 on January 27 (which latter was the highest aggregate reached this year.) The City bank exchanges in currency reached $404,145,247, or a daily average of $67,857,541.

The U. S. Sub-Treasury in this city closed the week ending on Wednesday with a currency balance of $48,582,648, against $48,323,837 the preceding week; and a coin board of $81,331,457, against $84,186,988 on the return of a week earlier. The Customs revenue of the port during the past week was $1,488,000.

The aggregate of the outstanding U. S. currency of all denominations, June 1st, was $381,684,573. The outstanding amount of legal tender notes is $360,412,580. The National bank circulation is now $317,823,486 of currency notes and $1,429,325 of national gold bank notes.

National Bank notes received at the Treasury Department last week for redemption were to the amount of $7,654,000.

The income of the Government from internal revenues last week was about three millions, and since July 1, 1876, about 115 millions; and from Customs last week about 1⅞ millions, and since July 1, 1876, about 121½ millions.

On Wednesday of this week the cash balances of the Treasury Department at Washington were: of Currency, $5,519,957; special deposit of legal tenders for the redemption of certificates of deposit, $50,460,000; Coin, $103,858,791, including of Coin certificates, $43,413,100.

Gold has been more active but lower and variable; influenced mainly by the refunding reports and rumors from Washington. The extremes of the price during the week have been 104¾@105⅝, closing at 105⅛, as against 105⅝ on Wednesday of the preceding week. The lowest point yet touched was 104¼, on Friday, March 2d. The specie outflow last week was up to $1,356,135, (of which $29,000 to London, $667,300 to Liverpool, $250,000 to Southampton, $150,000 to Havre, $50,000 to Paris, and $197,947 to Havana,) making the total exports of specie hence since January 1, $16,616,409, against $25,549,171 the same time in the preceding year. The imports of specie at this port last week were $81,039, (of which $70,039 from Port au Prince, $2,073 from Aspinwall, $7,377 from Belize and $730 from Liverpool,) and since January 1st $6,918,803 as against $1,806,394 same time last year. The Customs demand for gold last week averaged $247,167 per day. Foreign Exchange has been in moderate request and quoted somewhat weaker. Bankers' sixty day bills on London closed on Wednesday at $4 86⅛@$4 87⅛; sight bills on London at $4 89@$4 90 to the £ sterling. The week's imports of Dry Goods and general merchandise were to the specie value of $6,529,778 as against $5,907,450 the corresponding week of 1876. The week's import entries of Foreign Merchandise at New York included $804,914 of Dry Goods and $5,724,864 of General Merchandise. The week's exports of Domestic Produce and Miscellaneous Goods from this port were $6,028,957, against $5,513,296 same week in 1876.

Government securities have been in fair request for investment account, and prices have been comparatively well supported considering the decline in Gold, as resulting from the refunding and redemption measures of the Treasury Department. At the close the market was quoted firm, leaving off on Wednesday as follows:

United States currency sixes, 122¼@122½; do. 6s, 1881, registered, 110⅝@110⅞; do. coupon, 114⅜@114⅞; do. 1865, new, registered, 106¼@106½; do. coupon, 109¼@109½; do. 1867, registered, 109¼@110⅛; do. coupon, 112⅛@112¾; do. 1868, registered, 112¼; do. coupon, 115¾; do. ten-forties registered, 112⅛@112⅜; do. coupon, 112⅛@112¾; do. five per cents 1881, registered, 110⅞@111⅛; do. coupon, 110⅞@111⅛; do. 4½ per cents, 1891, registered, 107⅜@107⅝; do. coupon, 107⅜@107⅝; Central Pacific Gold bonds, 110⅛@110¾.

The amount of U. S. bonds held by the Treasurer of the United States, as security for the National Bank circulation, is $339,870,600, and $18,866,600 as security for public deposits.

State and Railway bonds have been selling less freely, yet the more substantial loans have been quoted quite firm as a rule. And in the line of Railway and Miscellaneous share property business has been moderately active with prices, however, fluctuating frequently, closing more steadily.

San Francisco advices report the total shipments of treasure thence for the past five months aggregate $20,579,100, of which $8,206,900 went to China and Japan. In the first five months of 1876 the total treasure exports were less than $19,000,000.

More inquiry has been noted for the leading kinds of domestic produce, chiefly Breadstuffs, Provisions, Cotton and Petroleum, but prices have been depressed and irregular. Naval Stores have been moderately sought after at somewhat firmer prices. Foreign merchandise has been in fair request and without important changes as to values. Groceries easier,

Hardware, Boots and Shoes and Dry Goods, show less animation and prices have been quoted essentially as before.

Metals have been in generally limited request and prices quoted barely steady. Eglinton Pig Iron quoted at $25 50; Glengarnock $27 50; Coltness $28 50 @$29; No. 1 American Pig at $18 @$19; No. 2 do. at $17@$18; Forge $16@$17; American Rails at works $33@$37; Old Rails $18 @$19. Wrought Scrap $24@$25. Steel Rails, on the basis of $46@$50 at the mills. Ingot Copper quoted 19⅛@19¼ for early delivery.

Ocean freights have been less active, the main business having been in the line of Grain and Petroleum shipments, at much lower rates on berth, and at easier figures also on charter contracts. Liverpool steamer rates at the close for Grain, 4d. per standard bushel, Provisions, 30s. @55s.; Tallow, 30s.; Leather, 50s.@60s. Measurement Goods at 20s. per ton; Cotton, ⅛d. per lb., Liverpool, by sail. Cotton, $\frac{7}{32}$d. Grain, 4d. Oil Cake and Slate, 10s.@15s.; Measurement Goods, 10s.@12s. 6d. Tobacco 30s. Grain rates on charter hence for Cork and orders left off at 5s.@5s. 3d.; for the Continent, at 5s. 6d. and from Baltimore for Cork and orders, 5s, and from Phila. at 5s. per quarter. Refined Petroleum hence for Cork and orders, 4s.@4s. 3d.; for the Continent, 3s. 6d.@4s. per bbl. And for Liverpool by steam, from Chicago, of through freight, Provisions, at 60c. via Boston and 55c. via Montreal per 100lb.

The following quotations of sales of Railway and other securities are in addition to those given elsewhere in our columns:—

U. S. Government Bonds bought and sold in amounts to suit investors: also, Gold, Silver and foreign coins: Deposits received in Currency or Gold, and interest allowed on Balances: Special attention paid to Investment Orders for Miscellaneous Stocks and Bonds.

### Western Union Telegraph.

The report of the Western Union Telegraph Co., for the quarter ending June 30, 1877, is as follows:

| | | |
|---|---|---|
| The net profits for the current quarter, ending June 30th inst., based upon official returns for April, nearly complete returns for May, and estimating the business for June, will be about | | $650,317 52 |
| Add surplus April 1 | | 128,577 10 |
| Total | | $778,894 62 |
| From which appropriating— | | |
| One quarter's interest on bonded debt | $118,000 00 | |
| One quarter's proportion of sinking fund | 20,000 00 | |
| | | 138,000 00 |
| Leaves a balance of | | $645,894 62 |
| A dividend of 1½ per cent on the capital stock outstanding requires | | 507,218 00 |
| Deducting which leaves a surplus of | | $138,681 62 |

In view of the preceding the committee recommend the adoption by the Board of the following:

Resolved, That a dividend of one and one-half per cent from the net earnings of the three months ending June 30 be and is hereby declared payable on the 14th day of July next, to stockholders of record at the close of business on the 20th day of June inst.

☞ The gross earnings of the Chicago, Rock Island and Pacific Railroad Co. for the fiscal year ending March 31, 1877, were $6,902,250, the operating expenses, including taxes, $4,533,194, and the net earnings $2,369,056; from which deduct interest on bonds, rent, dividends, etc., leaving a surplus of $456,076.

### Redemption of Five-twenty Bonds.

The Secretary of the Treasury on the 11th inst. issued the forty-ninth call for the redemption of five-twenty bonds of 1865—known as five-twenty bonds of the act of March 3, 1865, (consols of 1865.) The call is for $15,000,000, of which $10,000,000 are coupons and $5,000,000 registered bonds. The principal and accrued interest will be paid at the Treasury of the United States in the city of Washington on and after the 11th of September, 1877, and interest will cease on that day. The bonds designated are as follows:

Coupon bonds—Dated July 1, 1865, namely: 50, No. 6,001 to No. 11,000, both inclusive; $100, No. 8,001 to No. 18,000, both inclusive; $500, No. 10,001, to No. 18,000 both inclusive; $1,000, No. 22,001, to No. 41,000 both inclusive. Total coupon, $10,000,000.

Registered bonds—Redeemable at the pleasure of the United States, after the 1st day of July, 1870, as follows: $50, No. 1 to No. 500, both inclusive; $100, No. 1,901 to No. 4,900, both inclusive; $500, No. 1,901 to No. 4,350, both inclusive; $1,000, No. 7,601 to No. 13,600, both inclusive; $5,000, No. 2,601 to No. 4,350, both inclusive; $10,000, No. 2,201 to No. 3,700, both inclusive. Total registered, $5,000,000.

The amount outstanding included in the numbers above is $15,000,000. All United States bonds forwarded for redemption should be addressed to the "Loan Division, Secretary's Office," and all registered bonds should be assigned to "The Secretary of the Treasury for redemption." Where parties desire checks in payment for registered bonds drawn to order of any one but the payee, they should assign them to the Secretary of the Treasury for redemption on account of the owner or owners.

☞ The earnings of the Central Pacific Railroad Company for the month of May, 1877, were $1,575,000, against $1,757,414 in May, 1876, and $1,798,468 in May, 1875. For the five months ending May 31, 1877, the earnings were $6,309,000, against $6,880,674 for the first five months in 1876, and $6,171,813 for the first five months in 1875.

☞ At the annual meeting of the stockholders of the Canada Southern Railway Co., held at St. Thomas on the 6th inst., the following directors were elected: W. H. Vanderbilt, W. K. Vanderbilt, E. D. Worcester, Augustus Schell, Samuel F. Barger, W. L. Scott, Sidney Dillon, R. A. Wickes, and Hon Adam Crooks. W. H. Vanderbilt was elected President.

☞ The directors of the Nashua and Lowell Railroad Co., elected at the annual meeting of the stockholders held at Nashua, N. H., on the 30th ult., are: Daniel S. Richardson, President, Wm. W. Bailey, Frank A. McKean, Francis A. Brooks, Wm. A. Tower, J. G. Graves, J. W. White. Geo. A. Ramsdell was chosen Treasurer, and E. P. Emerson Clerk.

☞ Ground was broken on the Waynesville, Port William and Jeffersonville Narrow Gauge railroad at Allentown, Ohio, on the 7th inst.

☞ The Evansville, Owensboro' and Nashville Railroad was sold to the bondholders on the 5th inst. for $60,000.

### Railways of Canada.

A statement, prepared by Mr. C. J. Brydges, General Superintendent Government Railways, has recently been issued, entitled "Railway Statistics of Canada, and capital, traffic and working expenditures of the Railways of the Dominion," for the fiscal year ending June 30, 1876. From this we learn that the mileage of new railways opened during the year was as follows:

| | Miles. |
|---|---|
| Brantford, Norfolk and Port Burwell | 33 |
| Brockville and Ottawa Extension | 29 |
| Chatham Branch | 9 |
| Great Western | 69 |
| Intercolonial | 185 |
| Kingston and Pembroke | 47½ |
| Montreal and Vermont Junction | 23 |
| New Brunswick | 33 |
| Port Dover and Lake Huron | 63 |
| South Eastern | 21 |
| Whitby and Port Perry | 11¼ |
| | 524 |

From the total mileage (5,157¼) has to be deducted the mileage of railways in the United States owned by Canadian companies. This makes the total mileage in Canada 4,929¼ miles, all single track, excepting 79 miles of double track on the Great Western Railway. The gauge of the total mileage is divided as follows:

| | |
|---|---|
| 5 feet 6 inches | 618¼ miles |
| 4 feet 8½ inches | 3,938½ miles |
| 3 feet 6 inches | 600½ miles |
| Total, as above | 5,157¼ miles |

The returns show that the total capital raised to 30th June, 1876, for the railways in operation, was as follows:

| | | |
|---|---|---|
| Ordinary share capital paid up | | $111,208,479 |
| Preference share capital paid up | | 69,747,178 |
| Bonded debt paid up | | 76,079,581 |
| Amounts paid and loaned by— | | |
| Dominion Government | $51,948,529 | |
| Ontario Government | 1,884 719 | |
| Quebec Government | 228,522 | |
| New Brunswick Government | 2,090,000 | |
| Nova Scotia Government | | |
| Municipalities Gov | 5,426,505 | |
| Total | $61,578,275 | |
| Less included in paid up securities as above | 817,995 | |
| | | 60,760,280 |
| Total | | $317,795,468 |

The increase in the different items for the year are as follows:

| | |
|---|---|
| Ordinary share capital | $2,155,560 |
| Preference share capital | 1,305,000 |
| Bonded debt | 4,004,139 |
| Government and municipal loans and bonuses | 11,828,914 |
| Total | $19,293,613 |

The paid up capital of the railways under construction was as follows:

| | | |
|---|---|---|
| Ordinary share capital | | $3,023,188 |
| Bonded debt | | 827,323 |
| Government loans or bonuses | | 11,258,294 |
| Municipal loans or bonuses | $1,043,764 | |
| Less included in paid up securities | 62,000 | |
| | | 981,764 |
| Total | | $16,090,579 |

—against $20,095,386 in the previous year. This decrease arises from some of the railways which were under construction during the year ended 30th June, 1875, having been opened for traffic and included in the statement of railways in operation. The total capital paid up to 30th June, 1876, on railways in operation and actually under construction amounted to $333,886,047.

Of the mileage of railways open, 2,373¾ miles are laid with steel rails, 2,758 miles with iron rails, and 25½ miles with wooden rails. This, as compared with 1875, shows an increase of 319 miles steel rails, and 11¾ miles of iron rails. The number of miles of sidings is given at 637, against 655½ for the previous year. There was an increase during the year of 20 engines, 37 passenger and baggage cars, and 488 box, cattle and platform cars. The number of level road crossings not guarded by watchmen has increased from 4,655 to 5,041. The number of points where railways cross each other on the level has increased from 58 to 81; the number of junctions between railways, from 95 to 118, and the junctions with branch lines, from 52 to 60.

The total train mileage of the year is given at 18,103,628, an increase of 423,450, as compared with the previous year. The number of passengers carried was 5,544,814, an increase of 354,398. The number of tons of freight carried was 6,331,757, an increase of 660,920‡. The railways which carried the largest number of passengers and tons of freight were as follows:

| | Number of Passengers. | Tons of Freight. |
|---|---|---|
| Grand Trunk | 1,972,535 | 2,113,852 |
| Great Western | 1,133,667 | 1,579,090 |
| Intercolonial | 574,930 | 342,196 |
| Canada Southern | 144,938 | 544,959 |
| Northern | 252,700 | 246,443 |
| Midland | 108 827 | 131,574 |
| Toronto, Grey & Bruce | 127,815 | 142,801 |
| Toronto and Nipissing | 95,980 | 95,670 |

The total earnings of the railway were as follows:

| | |
|---|---|
| Passenger traffic | $6,254,866 |
| Freight traffic | 12,211,159 |
| Mails and express freight | 703,994 |
| Other sources | 188,065 |
| Total | $19,358,084 |

This is a total decrease, as compared with the previous year, of $122 455.

The cost of operating all the railways amounted to $15,802,722, divided as follows:

| | |
|---|---|
| Maintenance | $3,813,668 |
| Working and repairs of engines | 4,825,675 |
| Working and repairs of cars | 1,588,299 |
| General operating charges | 5,575,080 |
| Total | $15,802,722 |

The above figures show an increase of $27,188 as compared with the previous year.

| | |
|---|---|
| The gross receipts on the railways were | $19,358,084 |
| And the gross expenses | 15,802,722 |
| Leaving a net profit of | $3,555,362 |

The expenses averaged 81.63 per cent of the receipts. For the previous year the percentage was 81 per cent.

The total bonded debt of the different companies is stated at $76,079,580, so that the profit of $3,555,362 is about sufficient to pay 4 67 per cent upon the bonded debt. The gross earnings of the mileage opened have averaged $3,753 per mile, as against $4,000 the previous year. The operating expenses have averaged $3,064 against $3,270 for the previous year.

The total amount expended to the 30th of June, 1876, by the Dominion Government, including the Intercolonial, Prince Edward Island and Pacific railways, and expended or become liable for by the local governments of the different Provinces, is as follows:

| | |
|---|---|
| Dominion Government | $60,288,026 |
| Ontario Government | 2,731,184 |
| Quebec Government | 6,944,600 |
| New Brunswick Government | 2,328,000 |
| Nova Scotia Government | 871,000 |
| | $73,157,810 |

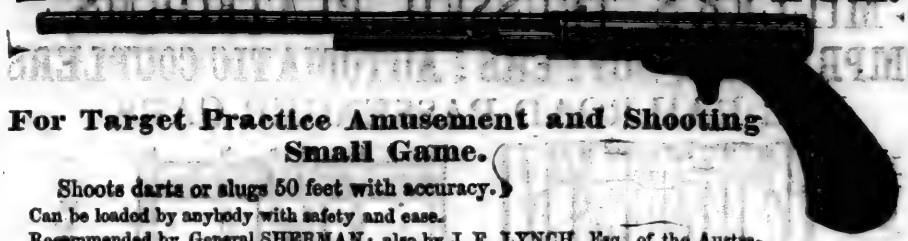
And by the municipalities as follows:

| | |
|---|---|
| In Ontario | $6,702,853 |
| Quebec | 3,521,000 |
| New Brunswick | 251,500 |
| Nova Scotia | 220,200 |
| | $10,695,553 |

The total, therefore, which the Dominion and local governments and municipalities have actually expended and become liable for on opened lines, and those now actually under construction, amounted, on 30th June, 1876, to a gross sum of $83,853,364, being an increase in the year of the sum of $5,734,035.

### The Coal Trade.

The total tonnage for the week ending on the 2d instant, as reported by the several carrying companies, amounted to 471,668 tons, against 406,969 tons in corresponding week last year, an increase of 64,699 tons. The total amount of anthracite mined for the coal year is 7,890,176 tons, against 6,461 064 for same period last year, an increase of 1,429,112 tons. The quantity of bituminous coal sent to market for the week was 94,564 tons, against 79,408 tons for corresponding week last year, an increase of 15,156 tons. The whole bituminous tonnage from the beginning of the coal year is 1,277,536 tons, against 1,408,251 tons in corresponding time last year, a decrease of 130-715 tons. The total tonnage of all kinds of coal for the week is 560,232 tons, against 486,377 to corresponding date last year, an increase of 79,855 tons, and the total tonnage for the coal year is 9,167,712 tons, against 7,869,315 tons, to same date last year, an increase of 1,298,397 tons. The receipts of coal at Port Richmond for the week ending on Saturday, the 9d instant, were 70,000 tons, and the shipments for the same time 52,500 tons. The receipts at Perth Amboy for the week ending on the 2d instant were 22,086 tons, the shipments 26,240 tons, leaving a stock on hand of 183,315 tons. The quantity of coal and coke carried over the Pennsylvania Railroad for the fourth week in May was 90,447 tons, of which 72,621 tons were coal, and 17,826 tons coke. The total carried for the year is 2,928,802 tons, of which 1,562,474 tons were coal and 375,146 tons coke. These figures embrace all the coal carried over the road, east and west.—*Phila. Ledger, June* 11.



☞ Judge Miller, of the United States Supreme Court, in the suit at St. Louis of the Union Trust Company of New York and Baring Bros. & Co., of London, for the appointment of a receiver for the St. Louis, Iron Mountain and Southern Railroad, denies the application, the evidence not being sufficient in the judgment of the court to justify such appointment, or any interference with the present management of the road.

☞ H. J. Jewett, Receiver of the Erie Railway, announces that he has signed the agreement of the trunk lines to "pool" the westward-bound traffic, to go into effect on July 1. He states that the following is the scale of division of the earnings on such freight: New York Central, 33 per cent; Erie, 33 per cent; Pennsylvania, 25 per cent; Baltimore and Ohio, 9 per cent.

☞ At Columbus, Ohio, on the 12th inst., the Supreme Court granted leave to file a petition in error to reverse the order and judgment of the Court of Common Pleas of Sandusky County, in the case of the Cincinnati, Sandusky and Cleveland Railroad Company against Rush R. Sloane. This decision, it is said, effectually removes the road from the control of the Sloane party.

☞ The Memphis and Charleston Railroad has been leased to the East Tennessee, Virginia and Georgia Railroad for twenty years.

# THE CHAMPION AIR PISTOL.

**For Target Practice Amusement and Shooting Small Game.**

Shoots darts or slugs 50 feet with accuracy.

Can be loaded by anybody with safety and ease.

Recommended by General SHERMAN; also by J. F. LYNCH, Esq., of the Australian Rifle Team.

PRICES.

Black.....$5 00. Nickel Plated.....$6 00.
Nickel Plated Rosewood Handle..... ... 7 00.

Each pistol is put up in a neat box with a skeleton gun stock, 6 Darts, 100 Slugs, 6 Targets, a Ram-rod, Claw and Wrench.

Sent by Express C. O. D., or by mail at the risk of parties ordering, on receipt of price, and 40 cents additional for postage.

POPE MANUFACTURING CO.,
45 High St., Boston, Mass.

## FINANCIAL.
ALEX. FROTHINGHAM & CO., BANKERS AND Brokers, No. 13 Wall st., make for customers desirable investments of large or small amounts in stocks of a legitimate character, which frequently pay from five to twenty times the amount invested every thirty days.
Reliable stock privileges negotiated at favorable rates. Stocks bought and carried as long as desired on deposit of three to five per cent. Circulars and weekly reports sent 1y23*

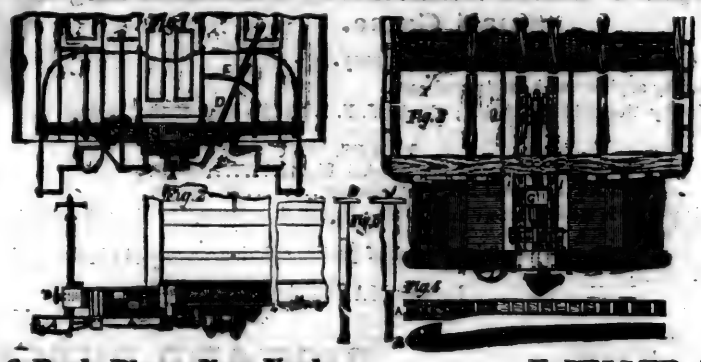
☞ At the annual meeting of the stockholders of the Boston and New York Air Line Railroad Co., held in Middletown, Conn., on the 5th inst., the following gentlemen were elected directors: Samuel S. Sands, D. B. Hatch, H. B. Hammond, Ripley Ropes, E. E. Anderson, T. L. Watson, A. G. Lewis, Isaac Anderson, J. N. Camp, G. S. Moulton, and W. H. Hayward. E. E. Anderson was chosen President, T. L. Watson, Secretary, D. B. Hatch, Treasurer, and H. B. Hammond, General Manager. The net profits of the year, after deducting the interest on the bonds and floating debt and the discount on the bonds, was reported at $14,259 83. The number of passengers carried was 14,175, and of tons of through freight 17,286.

☞ At the annual meeting of the stockholders of the Chicago, Milwaukee and St. Paul Railway Co., held in Milwaukee on the 8th inst., the following gentlemen were elected directors for the ensuing year: Alexander Mitchell, Julius Wadsworth, Selah Chamberlain, John M. Burke, Walter S. Gurnee, Peter Geddis, David Dows, Jeremiah Milbank, George W. Weld, Abraham R. Van Nest, John Plankinton, S. S. Merrill, Jonathan Bowman. The Directors immediately re-elected the old officers, as follows: President, Alexander Mitchell; Vice President, Julius Wadsworth; General Manager, S. S. Merrill; Assistant General Manager, John C. Gault; Secretary and Treasurer, R. D. Jennings.

☞ The following gentleman were elected directors of the Nashua and Rochester Railroad Co., at the annual meeting of the stockholders held at Nashua, N. H., on the 31st ult.: Francis H. Kennecutt, Charles H. Waters, N. V. Whitehouse, J. C. Eastman, Francis H. Dewey, Charles E. Whitin, E. B. Stoddard, Chas. W. Smith, Chas. S. Turner, A. W. Sawyer, A. H. Dunlap, Chas. Williams, Geo. P. Wescott, J. C. Burley, Edwin Wallace.

☞ The directors of the Chicago, Rock Island and Pacific Railroad Company, elected on the 6th inst., are: W. L. Scott, J. Gould, Sidney Dillon, R. R. Cable, H. H. Porter, Charles K. Marvin, A. G. Dulman, F. H. Tows, David Dows, Hugh Riddle, R. P. Fowler, F. L. Ames and Benjamin Brewster. President, Hugh Riddle; Vice President, David Dows; Secretary and Treasurer, F. H. Tows.

☞ The directors of the Troy and Greenfield Railroad Co., elected on the 30th ult., are: Otis Clapp, Edward Appleton, D. W. Gooch, Henry B. Rice, F. H. Forbes of Boston; A. P. Morse, F. L. Chapman of Cambridge; Herman Haupt of Philadelphia; Henry L. Sabine of Williamstown. At a subsequent meeting Edward Appleton was chosen President and Frederick L Chapman Secretary and Treasurer.



☞ The American Mining Exchange have chosen the following officers for the ensuing year: President, Thomas K. Egbert, Vice Presidents—First, N. R. French; Second, N. D. Hare; Third, Lloyd I. Seamen; Fourth, H. McBride. Treasurer, John A. Willett.

**Knox & Shain,**

### The Eminent Bankers and Financiers of the Country.

The exclusion of the eminent Banker, JOSEPH SELIGMAN, from the Grand Union Hotel, at Saratoga, on the ground that he is a Jew, has created wide-spread and deep public interest. The point raised is not alone one of individual taste or prejudice against an illustrious race of people. Were it so no one could question the right of any hotel proprietor to take steps for the exclusion of any individual or class of individuals whose patronage he would consider damaging to his hotel. The particular case in point, however, raises a much wider question, and involves more than is apparent on the surface. Why should even the shadow of social ostracism rest on a whole race of people whose heroic sufferings, and triumphs over the bitter prejudices of ignorant heathens, and no less persecuting bigoted Christians, are a glory to them and a shame to their enemies? If we look at the present day all over the world, wherever the human race is associated in communities for the purposes of trade and manufacture, to what race or nationality do the most orderly, wealthy, patient and law-abiding belong? In the vast majority of instances to the Hebrew race. In the Slavonic provinces, the real or nominal independence of which has lit up the beacon of war in the East, nearly all the wealthy citizens are Jews. They are the bone and sinew of those dumb-driven people, and have often stood between the oppressed peasantry and the grasping Turkish tax farmer. But it is in the great field of finance we find that the Jewish race pre-eminently distinguishes itself. The people have always had a *penchant* and a natural aptitude for grappling with great financial problems. Perhaps the most illustrious family of financiers in all countries and of all ages has been the great Hebrew family of the Rothschilds. Although collateral members of that house have wedded into Christian families, the business affairs have been kept scrupulously in the hands of members of the same race and nationality. Their agents in nearly every part of the world, and more particularly in the great European capitals, are almost invariably men of high social and political standing, and in almost all cases Hebrews. The heads of the illustrious banking house, which lends millions of dollars to prop up nationalities on the brink of financial ruin do not however exclusively confine their agencies to members of their own race. Take, for example, the case of America. In this country the great financial schemes of the Rothschilds are entrusted to Mr. Belmont, a Christian by conviction.

If it were possible, however, to obtain an inspection of this celebrated banker's books, it would doubtless be found that a very large portion of his most solid and trustworthy customers are Hebrews. The money which these gentlemen circulate and the financial and commercial interests which they control is in this country simply enormous, and utterly beyond calculation. Again, if we look at the list of solid brokers and steady and reliable operators in the money market how often do we come across genuine Jewish names. It is true that there are "on the street," not a few unprincipled bulls and bears, who care little for the Decalogue, but these are the black sheep of an illustrious race, who consort not with the better class of Hebrews. Like the socially expatriated "Christians" who turn Wall street and the Stock Exchange into a gambling hell, and would turn the Temple of the Lord into a change house, if they could do it profitably, they have no standing in society and are never to be confounded with their race as a race. Such men as Joseph Seligman have no affinity socially, morally or sympathetically with such men. While they are typical of the low-bred residuum of the chosen people, Joseph Seligman may be taken as typical of the refinement, the culture, integrity, and masterly talents of the *Aristos* of the Hebrew race. He is not a man whom his brethern alone delighteth to honor, and put faith in. He is the trusted financial friend and adviser of hundreds of Christians, and he has received at their hands many proofs of their faith in his integrity and confidence in his singular financial abilities.

As Vice President of the Government Syndicate for "floating" the new 4 per cent loan, Mr. Seligman holds what may justly be considered the second highest position a banker can look for in any country. It is not only a proof of his ability, but a patent of nobility of worth. But Mr. Seligman has filled many other important positions of trust and honor. He has been an Educational Commissioner, is President of the Rapid Transit Co., Vice President of the Union League Club, a member of the Chamber of Commerce, and an active member of several Jewish charitable institutions. It is in short to such men we must look for renewed confidence in trade and a revival of

commercial prosperity. The influence of the Jewish element of the Syndicate in placing the $25,000,000 of what is known as the popular loan at 4 per cent must at this juncture be very great indeed; and New York City, to say nothing of this great country, cannot afford, even if it were possible, to cast any social slur on so influential and illustrious a people.

**New York Central and Hudson River R. R.**

The Board of Directors of the New York Central and Hudson River Railroad Company which was chosen by the stockholders at their annual meeting on the 6th inst. met in this city on the 19th, and adopted a new code of by-laws and organization for the transaction of the business of the company. It provides for two Vice-Presidents, a General Counsel, a General Traffic Manager, a General Auditor, and two General Superintendents, these being the principal changes from the former organization. The officers chosen were as follows:

William H. Vanderbilt, President; he is also President of the Lake Shore and Michigan Southern Railway Co., and the New York and Harlem Railroad Company—the latter leased by the New York Central and Hudson River Railroad company.

Cornelius Vanderbilt, eldest son of the above, First Vice President, with a general supervision of the finances of the company; he has for many years been the Secretary and Treasurer of the New York and Harlem Railroad Company.

William K. Vanderbilt, second son of the President, was chosen Second Vice President, with a general supervision of the operating or transportation business; for a number of years he has been connected with the executive department as assistant to his father.

Charles C. Clarke was chosen Treasurer; Mr. Clarke held the same position in the Hudson River Railroad for many years, and has been Treasurer of the New York Central and Hudson River Railroad Company since the consolidation of the Hudson River and the New York Central Railroads.

Edwin D. Worcester was chosen Secretary; he was for a number of years the Treasurer of the New York Central Railroad, and was made Secretary upon its consolidation with the Hudson River Railroad; he is also the Secretary and Treasurer of the Lake Shore and Michigan Southern Railway, President of the Dunkirk, Allegheny Valley and Pittsburg Railroad, and a Director in the Canada Southern Railway.

Hon. Chauncey M. Depew was elected General Counsel; he has been attorney for the Harlem Railroad for a number of years, and for two years past an attorney for the New York Central also; he is a Director in the company, also in the Harlem company, a Regent of the State University, and was Secretary of State during Gov. Fenton's administration. His immediate assistant in the law department will be Mr. Frank Loomis, who has been the attorney of the Hudson River Division.

James H. Rutter, General Traffic Manager, in charge of the passenger and freight traffic; Mr. Rutter was elected a Director of the road at the stockholders' meeting on the 6th inst.; he has heretofore held the position of General Freight Agent, and now takes charge of both passengers and freight; he will be assisted by Mr. E. Clark, Jr., General Freight Agent, and who has been the Western Freight Agent at Buffalo, and Mr. C. B. Meeker, General Passenger Agent.

Isaac P. Chambers, General Auditor; Mr. Chambers was Auditor of the Hudson River Railroad previous to its consolidation with the Central, and was then made private secretary to Mr. Vanderbilt; he still retains that position, and in addition thereto becomes General Auditor of the New York Central and Hudson River Railroad with the direct charge of all matters pertaining to the passenger, freight, and disbursement accounts of the company. The three separate departments under his general supervision will be under the immediate charge of the following heads:

Mr. D. W. Tuthill, Auditor of Disbursements; Mr. Tuthill was Auditor of the New York Central previous to the consolidation, and has since been Auditor of the New York Central and Hudson River Railroad.

Charles H. Hendrick, Auditor of Passenger Accounts; he was the General Ticket and Passenger Agent of the Hudson River Road, and has held the same position on the New York Central and Hudson River since the consolidation.

John F. Desmaxes, Auditor of Freight Accounts; Mr. Desmaxes, was the General Freight Accountant of the Hudson River Railroad, and has held the same position on the New York Central and Hudson River Railroad.

John M. Toucey, General Superintendent of the Harlem and Hudson River Divisions; he has been Superintendent of the Hudson River Division for a number of years. The divisions under his charge extend from New York to Albany and Troy, on the Hudson River, and the New York and Harlem Railroad.

Charles M. Bissell, who has been Superintendent of the Harlem Division, will continue as such.

James Tillinghast, General Superintendent of the Eastern and Western Divisions, between Albany, Troy, and Buffalo and Suspension Bridge.

Zenas C. Priest will be Superintendent of the Eastern Division, and George H. Burrows, Superintendent of the Western Division; they have heretofore held the same positions.

Charles H. Fisher, Chief Engineer, with C. B. Girard and F. S. Curtis, on the Hudson River Division and Harlem Division respectively.

Cornelius V. Deforest, Purchasing Agent; he has filled this position for some years.

William Buchanan, Superintendent of Motive Power of the Hudson River Division; G. B. Van Vorst, of the Eastern Division; Hiram Watkeys, of the Western Division, and William M. Strong, of the Harlem Division.

Leander Garey, Superintendent of Car Department, embracing the entire line.

The jurisdiction of all the general officers extends to the New York and Harlem Railroad Company, which is leased to the New York Central and Hudson River Railroad Company.

☞ Judge Neilson, of the Brooklyn City Court, before whom argument was heard two or three weeks ago, on an application made by George Goerz, a property holder, for an injunction to restrain the Long Island Railroad Company and the Atlantic Avenue Railroad Company from using steam on the latter thoroughfare, rendered his decision on the 18th inst. His Honor denies the application for an injunction. Work on the new road will now be pushed forward rapidly to completion.

**Concord Railroad.**

The receipts from operations of this road for the years ending March 31, 1876 and 1877, have been as follows:

| | 1876. | 1877. |
|---|---|---|
| From passengers | $359,047 51 | $320 829 82 |
| " freight | 561,382 17 | 519,367 92 |
| " rents | 8,902 19 | 8,778 64 |
| " express | 13,550 04 | 13,550 04 |
| " mails | 12,476 54 | 14,001 66 |
| | $950,358 45 | $871,528 08 |
| Expenses, viz: | | |
| Repairs of road | $149,554 02 | $108,758 49 |
| " structures | 41,745 63 | 41,356 95 |
| " locomotives | 19,818 52 | 16.447 02 |
| " cars, etc | 54,797 75 | 28,485 87 |
| Oil and waste | 12,943 30 | 10,929 88 |
| Fuel | 128 879 05 | 117,003 65 |
| Passenger expense | 63,660 26 | 58 171 56 |
| Freight expense | 72 827 40 | 68,577 52 |
| Damages | 3,317 07 | 3,650 93 |
| General running exp | 15,090 75 | 14 894 15 |
| Insurance and taxes | 7,373 70 | 8,416 98 |
| New rails | 59,124 59 | 69,749 88 |
| New locomotives | 34,757 40 | 7,443 02 |
| Westinghouse Air Brake | | 11,853 71 |
| All other expenses | 11,671 13 | 11,077 19 |
| | $675,059 97 | $576,766 75 |
| Leaving a balance of | $275,298 48 | $294,761 33 |
| From which has been paid— | | |
| Taxes on capital stock | $33,428 29 | |
| Manchester and Lawrence Railroad | 67,590 18 | |
| Rent of Concord and Portsmouth Railroad | 25,000 00 | |
| Rent of Suncook Valley Railroad | 8,094 00 | |
| On account N., A. & B. rolling stock | 10,000 00 | |
| | | 144,107 42 |
| Receipts over expenses | | $150,653 91 |
| From this has been paid— | | |
| Two dividends of 5 per cent each | | 150,000 00 |
| Balance carried to contingent fund | | $653 91 |

As will be seen above, ten thousand dollars have been charged to income, on account of rolling stock purchased of the Nashua, Acton and Boston Railroad Company, for which notes were given last spring, and referred to in the report of last year. The interest on the notes has been charged to current expenses.

The financial condition of the corporation is shown by the foregoing statement of receipts and expenditures, and the trial balance of the treasurer, which is annexed to this report.

The aggregate value of stock on hand for the use of the road is $8,339 62 less than at the close of last year—the difference being occasioned, to some extent, by a lower valuation of the property.

One new first-class passenger locomotive has been built in the shop, and the necessary repairs of other locomotives and cars have been made. The following is a list of the present rolling stock of the corporation, viz: 38 locomotives, 44 passenger cars, 16 baggage and mail cars, 4 milk cars, 215 long box cars, 4 short box cars, 10 freight saloons, 473 long platform cars, 59 short platform cars, 157 large dump coal cars, 28 small dump gravel cars, 1 construction train car, which is generally in a good state of repair, and has been sufficient for the business of the road during the year. Twelve locomotives and forty-two cars of the passenger equipment have been furnished with the "Westinghouse Automatic Brake," at an expense of $11,853 71.

Repairs and improvements in the road bed and superstructure have been made, as stated below,

viz: 1287 tons of new iron rails, and 501 tons of new steel rails, have been placed in the track, and 1079 tons of iron rails have been taken up, repaired, and relaid during the year; 66,256 new sleepers have been laid in the track, and 8½ miles of track on the Concord and Portsmouth road ballasted, one foot or more in depth, with gravel; 10,780 feet of additional side track have been laid; and all necessary repairs and renewals of bridges, culverts, and fences have been made. The road-bed and tracks are in as good, and, in some respects, better, condition than at the close of the last year. The ballasting of the Concord and Portsmouth track is a material improvement, and should be completed as soon as the financial condition of the road will admit.

The depots and other buildings of the corporation have been kept in a good state of repair, and some renewals and improvements have been made. Those mentioned in last year's report as needed at Manchester have been nearly completed. The engine-house has been enlarged and improved, and conveniences for sawing and handling wood and taking water have been provided in immediate connection with it. This, when fully completed, will obviate the necessity of running all engines across Granite street for wood and water. In addition to the above, a new rail-shop, wood-shed, and coal-shed have been built, and additions made to the side-track accommodations. A new stationery engine house and boiler room have been built at Concord, and a new stationery engine, for operating the machinery in the repair shop, purchased and placed therein. Extensive repairs have made on the passenger depot at Portsmouth; and a small station house built at Robinson's Ferry, to replace the one destroyed by fire.

NASHUA, ACTON AND BOSTON ROAD.

The lease of the Nashua, Acton and Boston Railroad having been confirmed by the stockholders at the last annual meeting, that road has been operated by this company; and, thus far, has proved of as much advantage as was anticipated. The interest on the money advanced to that road is, in accordance with the terms of the lease, paid from the rent, as it becomes due.

There has been expended, during the last four years, the amount of nearly $479,000, or about $120,000 per year, for improvements in the road, stations, etc., and increasing the rolling stock. About one half of the above sum has been paid for new engines and cars, about one quarter for steel rails, and most of the balance for land and improvements for depot accommodations in the city of Manchester.

Owing to the large reduction in freight rates made by the new tariff, which has just gone into effect, and to the increased claims made by the lower roads for haulage, the future earnings of the road will be much diminished, and, probably, they will be insufficient to continue the present rate of dividends to the stockholders, unless there shall be an increase of business to compensate for that loss.

The total tonnage of the road for the year has been 612,756, equal to 19,111,714 tons transported one mile. Total number of passengers carried, 529,335; total carried one mile, 12,067,832. Number of miles run by trains, 670,286. Value of materials on hand at the close of the year, $197,263 20, against $205,602 82 at the close of the previous year—a decrease of $8,339 62.

BALANCE SHEET, March 31, 1877.

| | |
|---|---|
| Construction | $1,500,000 00 |

*Superintendent.*—H. E. CHAMBERLIN.

## Canton Company.

At the annual meeting of the Canton Company, held in Baltimore on the 13th inst., the following gentlemen were elected directors for the ensuing year: Abraham B. Bayliss, William Mertens, James B. Colgate, and George F. Stone, of New York, and Charles J. Baker, George S. Brown, William G. Harrison, Charles Weber, and Walter S. Brooks, of Baltimore. The report of the President and directors, which was presented, states that the company is now in better condition than it has been in ten years. The Canton Company was organized in 1828. Its real estate comprises say 2,400 acres of land within the eastern limits of Baltimore city and adjacent thereto in the county, with a water front of 17,243 feet, partly improved. The property is estimated to value $3,500,000, in addition to which the company owns the Union railroad, costing $2,526,021 66; ground rents, $544,103 34; warehouses, dwellings, &c., $200,000; elevator, &c., $128,540; bills receivable, cash in bank, &c., making a grand total of $6,922,756 16. Against which there is a bonded debt of Canton Company, $1,591,000; of Union railroad, $1,500,000; total, $3,001,000; less amount of sinking funds, $535,550 66—leaving indebtedness of $2,465,449 85. It is stated as an important fact that there has been no decline in the value of the real estate owned by the company.

The leases made during the past year, including those not yet executed, are larger than during the two previous years, reaching the annual rental of $8,526 16, which at 6 per cent, make a valuation of $140,772 34, and the sales of real estate $21,655 38, giving a total of property disposed of $162,427 72. The most important lease is that of the Consumers' gas-works. The land sales include one of $20,000 to the Philadelphia, Wilmington and Baltimore Railroad Company.

The report of Wm. W. Janney, treasurer, shows total receipts from all sources for the year ending May 31, 1877, of $239,185 38; expenditures $216,085 67. The sinking fund shows a gain over last year of $30,102 69. The improvement of the water front of the company east of the Lazaretto is recommended, and the sale of some ground rents advised, the proceeds to be used for cancellation of mortgage bonds.

The report of J. N. Gardner, of the Union elevator, shows 2,915,180 bushels grain were transferred, and more storage capacity is asked.

A communication has been received from the Hanover Junction and Gettysburg Railroad Company in regard to a connection with their road and the Western Maryland at Reisterstown, whereby a continuous line will be had at Harrisburg with the Reading Railroad to Canton.

The reports of Wm. G. Harrison, president, and J. C. Wrenshall, general manager of the Union railroad, show gross income from passengers and freight the past year $108,283 92; working expenses $31,884 13; net revenue, $76,899 79, a gain of $46,485 29; number of cars of freight carried, 28,476, against 18,568 in 1876. The report says the same proportion of increase next year will give a revenue more than sufficient to pay all expenses of the road and the interest on its bonds.

## Illinois Central Railroad Company.

REPORT OF THE DELEGATES.

The Delegates selected by the Committee appointed at the meeting of the Shareholders of the Illinois Central Railroad, held in London on the 26th of January last, for the purpose of examining into the affairs of the company and reporting thereon, have the honor to state that they have thoroughly inspected the entire line, and have also examined the Iowa leased lines to Sioux City, and have looked into the condition and circumstances of the line from Cairo to New Orleans; besides passing over the lateral lines connecting the Illinois Central Railroad with St. Louis, and the lines which form connections between the main line of the company and the branch to Chicago, and others—they have thus looked over the entire system of the Illinois Central Railroad and its connections. In making this examination, it is superfluous to say that there has been no desire on the part of the Board to conceal anything whatever. The Directors and Officers of the company have shown themselves eager to furnish full information upon all subjects, and the committee has in its possession full abstracts of the accounts of the company, of its engagements and of its expenditures, in great detail.

The delegates beg to submit to the committee the conclusions at which they have arrived, and to refer the committee, for their reasons in detail, to the summarized reports of the information they have collected, arranged under the several heads of inquiry remitted to them.

First.—The policy of the board, for several years, was to pay off the entire debt of the company, so as to have its property represented solely by share capital. The debt, which was at one time $22,394,542 24, was reduced to $5,000,000 during a period of very prosperous years. While this reduction of debt was being accomplished, large dividends were paid to the shareholders, and some additional stock was created, to correspond with the reduction in the funded debt. Of the present share capital of $29,000,000, only $28,236,700 was paid up by the shareholders in cash. The dividends which have been paid in cash to the shareholders within fifteen years have amounted to $31,935,346 86. The board divided to the shareholders the receipts from land and from traffic, as fast as the receipts were realized.

With the exception of the lease of the Iowa lines, in 1867 (undertaken with the object of giving a value to the northern section, in consequence of the change in the circumstances of the river traffic to Dunleith), the company pursued a conservative policy, and avoided permanent engagements with connecting lines until 1872. Up to that period the company had had a control and monopoly of the products of central Illinois, which were sent to Chicago, and thence by water, through the lakes and Erie Canal, to New York; but the extension of the Pennsylvania Central and other trunk lines into Illinois, seems to have disturbed the traffic, which from that period has been steadily declining, until the loss, as compared with the highest net traffic obtained by the company in former years, amounted to nearly 25 per cent. The directors determined then to extend their system to the south, and approached the subject with great hesitation, avoiding, in the first place, going beyond a working contract, and a recommendation of the bonds issued by the

Southern companies for the purpose of building a connecting line from Jackson, Tennessee, to Cairo, and of strengthening and improving the southern portion of the line into the city of New Orleans. Finding this insufficient, the directors made an engagement to purchase two hundred bonds per annum of the southern companies' bonds; and in the end, the company sold a portion of these bonds in London, with their purchasing engagement attached. At a later date, their confidence in the southern property being increased, the company sold $4,842,000 of its own 5 per cent sterling bonds, and purchased the same number of the southern bonds.

This outlay of $4,842,000 in bonds, which is to-day nearly one-half of the funded debt of the company, is the particular item of the company's accounts to which the attention of your delegates was especially directed, and later in this report they will give in full detail their views of this step, and of the future value of this investment. Outside of this investment, the funded debt of the Illinois Central Company stands to-day at $6,064,-000, and the share capital at $29,000,000. There is no floating debt.

The Illinois Central Railroad is substantially constructed. One-half of the 706 miles in Illinois is laid with steel rails, and the balance with fish-jointed iron rails, with the exception of a short distance upon the main line which is laid with the original English rail.

The original passenger depot, including the company's offices, at Chicago, which was the only extensive station building which the company possessed, was burnt in the great fire at Chicago, and has not been replaced.

The machine shops and subsidiary buildings at Chicago are substantial structures. There are similar shops on a smaller scale at Amboy and Centralia—all of brick or stone—besides repairing shops at Wapella, Champaign, Dunleith, and Cairo. Nearly all the bridges, culverts, and other structures are of stone or iron. The most important parts of the line, namely, those subjected to the largest traffic, are ballasted with stone, and the condition of the track is generally satisfactory The supply of locomotives and cars is beyond the present requirements of the traffic.

The most important property held by the company, exclusive of the granted lands and of the railway itself, is the very extensive depot property at Chicago, reclaimed from the lake. This property lies at the junction of the Chicago River with the lake. The company has, moreover, upwards of twenty-five acres within the city limits for its car works and machine shops. It has, besides, several important pieces of land within twelve miles of Chicago, as well as at other stations, which were purchased at low prices in former years, in anticipation of possible wants. Provision was made at the outset for the right of way, station and depot property at all points; so that, in fact, for some time past no payment whatever seems to have been made for additional real estate.

There is a considerable length of lake frontage at Chicago, which has a value as affording a right of way independent of street crossings, but though accretions are going on at some points, at others the maintenance from encroachments of the lake entails outlay.

The granted lands at present are about 292,000 acres in extent. Their value does not probably exceed $1,100,000, and about $600,000 remain to be collected on sales already made.

Second.—While in the present altered condition of railway interests in America, it would undoubtedly have been wiser not to have increased the share capital, and to have paid for the improvements of the line, for the replacement of wooden structures by iron and stone, for the ballasting and for other outlays, from the current income of the company—and thus to-day have a smaller share capital upon which to pay dividends—your delegates will deal with facts as they now exist, viz: that $37,595,285 93 have been charged to permanent expenditures, and that this amount of absolute property is represented by $29,000,-000 of share capital, by $6,064,000 of debt, and by $4,598,000 of 5 per cent Sterling bonds outstanding, against which the company holds $4,842,000 of the bonds of the southern companies. The accounts of the company show a surplus of assets of $4,646,608 58. The committee recommend that the surplus account be diminished by a sum to be written off from permanent expenditures, so that the permanent expenditures will correspond to the share capital of $29,000,000, together with $6,064,-000 of debt.

Third.—In the year 1867, the Illinois Central Company leased the Dubuque and Sioux City line, which was then constructed to Fort Dodge, and subsequently included in the lease, and upon similar terms the extension to Sioux City, the terms being briefly to pay 35 per cent of the gross traffic for ten years and 36 per cent for a second ten years, when the lease terminates, unless the Illinois Central Company elects to renew the lease in perpetuity. They also included in the lease the Cedar Falls and Minnesota Railroad, which had been previously leased to the Dubuque and Sioux City Railroad Company for $113,470 a year. For several years the workings of these lines was a source of profit to the Illinois Central Company, but latterly the repairs and necessary improvements to this Iowa property have made the working of the Iowa line less profitable. There is, moreover, an uncertain and indefinite clause in the contract that the Illinois Central Railroad Company was to be paid for improvements, substituting heavier rails, ballasting the track, and constructing station buildings; at the present time these charges amount to above $1,000,000. The Iowa companies contend not only that much of this expenditure is not properly chargeable to them under the terms of the lease, but that the entire settlement of these charges must, by the terms of the contract, be deferred until the expiration of the 20 years of the original lease. The Illinois Central directors contend that, taking in view the restrictive legislation of the State of Iowa, which has compelled a large reduction of the tariff, the original circumstances have been so much altered, that a revision of this contract is alike for the interest of both parties; this should be consented to by the Iowa board in its own interest, as well as in that of the Illinois Central Company, which at the present time is not making any profit from the Iowa lease; indeed it is improbable that it will do so for the remainder of the term of the lease, unless some modification of the contract is arranged. Your delegates trust that sensible views may obtain in this matter, and that before the close of this year the two boards will determine upon an amicable adjustment which will make it possible for the Illinois line to go on working these leased lines in Iowa, and derive from them the advantage which, as lessees, they are entitled to for the management and outlays upon 400 miles of railway.

Fourth.—The delegates will remark that in their opinion the Illinois directors have been somewhat too conservative in the policy they have pursued of abstaining from forming lateral connections; and that they have failed to secure the lateral connections of the line within the State of Illinois which were originally feeders to the Illinois line, in which capacity they might have been retained; but which have now become connected with the east and west trunk lines; and as antagonists, have drawn off the freight traffic to such an extent that the Illinois Company has found it more profitable of late years to take freights from local stations to the junctions of these railways than to attempt to carry the freight from the junctions to Chicago.

These various competing lines have in fact changed the entire working of the Illinois Central, and reduced it, in the State of Illinois, to a local business, terminating at many points upon its own line. The net revenue from the traffic does not arise from any one large branch of business, but is derived from a great variety of miscellaneous traffic from one station to another rather than from traffic tending, as it formerly did, to a central point at the city of Chicago. The managers have only just begun to adjust their ideas to this new state of things, and have been looking back constantly to the period when the great freight traffic of central Illinois was a grain traffic centering at the lake port, and was taken by the lake marine to the east.

Fifth.—Having shown that the property is charged only with a small debt; that the requirements for permanent works are very slight; that the line is in good condition, the capital account should be closed unless more capital is required for extensions, or for the acquisition of new property. The delegates have recommended to the board, and the board have adopted their conclusions, to discontinue the Engineer's department and close the capital account except for absolutely new outlays. Thus in the future all questions of account will be placed before the shareholders, at the expiration of each year, in a form easy to be understood.

Sixth.—The Illinois Central is the largest holder of the consolidated bonds upon the New Orleans, Jackson and Great Northern Railway and of the Mississippi Central Railway, which are the two lines forming the connection from Cairo to New Orleans. The coupons on the bonds being in default, the Illinois Central Company commenced foreclosure proceedings, and made application for a receiver, which was granted by the United States Court on the 10th of March of last year. A portion of the Mississippi Central line was in the possession of the State of Tennessee, the road being indebted to the State; and the State placed its own receiver on that part of the line, and he has used the income partially in repairs on the line, and has paid to the State $110,-000 on account of the arrears of interest due the State. The awkward circumstances of there being two receiverships, and of one being an independent State receiver, occupying a portion of the line intermediate between the two portions which were in the hands of the other receiver, interrupted the traffic and was detrimental to the working of the line last year; but on the 1st January last an arrangement was made by which the receiver of the State of Tennessee was appointed receiver for the whole of the Mississippi Central line. The Illinois Company then obtained his assent to the appointment of their Second Vice-President, Mr. James C. Clarke, to be general manager of his line. At the same time the trustees of the mortgages upon the Jackson line appointed Mr. Clarke the manager of that line. Thus since the 1st January the whole line has been worked in harmony, and is rapidly being improved. The entire distance from New Orleans to Fillmore, opposite Cairo, is 546 miles, being 340 miles belonging to the Mississippi Central Railroad, and 206 miles of the New Orleans, Jackson and Great Northern Railroad; exclusive of the Kosciusko branch.

The New Orleans, Jackson and Great Northern Railroad, with a branch of 19 miles to Kosciusko, was purchased on account of the Consolidated Bondholders upon the 17th March, and is now worked by Mr. Clarke as agent of the purchasing committee. A decree of sale of the Mississippi Central Railroad has been ordered by the court. The property is now in the hands of Gen. E. P. Neely, as Receiver. It will be sold in a few months. Both of the lines had been allowed to deteriorate very seriously before they were taken possession of in the interests of the bondholders. The tracks were neglected, accidents were numerous, and the passenger traffic had decreased notably. The rolling stock was in so defective a condition that freight had to be refused, and therefore the earnings of the company from freight traffic were gradually dwindling away when the line came into the hands of the receivers in 1876. The income has been applied to improve the condition of the road and to pay certain debts incurred within 90 days of the date of the receivership for wages and supplies; the receiver's certificates issued in the first month in order to provide necessary rails have since been paid out of the earnings; and upon the 11th of March, 1877, a statement of the outlays made upon the road and for the debts named above was made up by Mr.

Clarke; this statement shows that, including the balance of cash in hand, the net income derived from the line in twelve months was $990,000 in spite of the difficulties of the year, of the working of the line with two independent receivers, of a very great loss of traffic in consequence of the failure of the incline at Fillmore (by which the transit of freight to and from Cairo was interrupted for several months), and of other disadvantages which it is not worth while to enumerate. These figures were carefully examined by your delegates, and they entertain no doubt of their correctness.

During the year the engines and cars have been repaired, and it is expected that they will be put in thoroughly good order before the autumn traffic begins. Several bridges have been rebuilt, and Mr. Clarke has in hand, paid for from income, a supply of timber for the thorough repair of the bridges upon the line. He is now laying 8,000 tons of steel rails, and expects to be able from his net income this summer to lay 8,000 tons more. On the 1st of April, there were 156 miles of track which required relaying, in order to remove the old chair rail and complete the line with fished joints throughout; of this 66 miles will be laid by the 1st October, thus leaving about 90 miles, only one sixth of the entire line, to be laid, and the line will then be in fair condition for working the winter traffic. There are no bills unpaid for current expenses, and positive orders have been given to incur no debts, but to repair the line from its income. This will, it is hoped, be accomplished by the 1st October. The advance made by the Illinois Central Company upon the Jackson line, to the present time is $339,072 54 for coupons upon the first and second Mortgage Bonds, which were purchased for Illinois Central account. This outlay on account of coupons on the Jackson line will probably be carried up to $500,000. Thus far the outlays upon the Mississippi Central line, also for purchased coupons upon the 1st mortgage bonds, are less than $100,000. If this line is purchased and it comes into the absolute possession of the Illinois Central, it will be necessary to expend about $300,000 for the following purposes: first, for an extension of the line two and a half miles in length from Fillmore up the Ohio river to a more convenient point opposite the freight station of the Illinois Central at Cairo; secondly, for buildings at Jackson, Tennessee, estimated at $18,000; and thirdly, for rails, estimated at $102,000. The motive for postponing the sale of the Mississippi Central Railroad, has been to effect an arrangement with holders of the past due coupons upon the second mortgage bonds of the Mississippi Central, to fund their coupons, and to procure some necessary legislation for the consolidation of the two companies. The Illinois Central Company will probably advance in all to the extent of $1,500,000, upon the entire property from New Orleans to Fillmore, and secure itself for this money by a new mortgage upon the entire line, which will also provide for taking up the prior liens at their maturity—these bonds to take precedence of its present lien. The new bonds will be sold to repay the cash advanced by the Illinois Company. The interest upon the new mortgage, including all the priorities, will not exceed for the present $800,000 per annum, and there cannot well be any loss accruing to the Illinois Central from this transaction in view of the fact that the line has earned, under the very disadvantageous circumstances attending the last year's working, more than 20 per cent. beyond the interest upon the lien proposed to be created.

Your delegates are gratified to disprove the prevalent idea that the Illinois Central Company had already incurred a large debt on account of these southern lines, and that the requirements for construction in the future will call for further expensive additions. The line is favorably situated. There are no expensive structures to be maintained, the gradients are moderate, and trains of thirty to thirty-five ten-ton cars are taken into New Orleans daily with facility. The expenses of operating these roads in the southern States are moderate as compared with working railways in the frosts and cold of the northern States. Fuel is cheap, and wages are comparatively low; and it is reasonable to suppose that a much better result will be obtained from this property than was obtained last year under the conditions named. Mr. Clarke does not expect that the interest upon the bonds held by the Illinois Company will be long postponed, and your delegates share with him in the belief that the net income will provide for the coupons on these bonds as soon as the line is re-established in good working condition.

Your delegates are satisfied, from their observations on the spot, that a considerable development of the ordinary traffic will take place. They found an extensive mill for spinning, weaving and dyeing cotton at work at Weston, employing six hundred hands, which has been considerably enlarged recently, and was, they were told, about to be again extended; at numerous stations sawmills were erected; and a considerable traffic in timber is springing up, as the prices at which it is sold in the south afford a full profit at Chicago; the country stations, moreover, afforded general indications of increasing cultivation of the land and other improvements. But there are probabilities of a greater development of traffic than these indications afford.

It is evident that the success of the railroad in question must in a great measure depend upon the commercial importance of its seaboard terminus; and New Orleans, therefore, demands special attention.

The city is situated about one hundred miles from the Gulf of Mexico, on a bend of the left shore of the Mississippi River, presenting a convex water front of nearly four miles in length with sufficient depth of water for the largest vessels, constituting one of the best and most sheltered ports in the world. The erroneous impression which seems to prevail in the northern States and in Europe, that New Orleans is destined to remain a port of secondary commercial importance, hardly appears to be warranted by its past history, or by the present facts. To be convinced of this it is only necessary to examine the geographical position of New Orleans, and its former commercial importance, the causes of its decline, its present commerce, and the probabilities of a much greater development in the future. The situation of New Orleans at the mouth of the Mississippi, and its proximity to the Gulf of Mexico, constitute it the natural market both for the surplus produce of the Mississippi Valley, a region of 1,200,000 square miles, drained by 7,000 miles of navigable rivers, and for the tropical and colonial produce consumed in that vast section of country. Comparing the distance of New Orleans from distributing centres and the grain and provision market of the West, with those to the Eastern seaports, we find the distance from Chicago to New Orleans 913 miles against 961 miles to New York,

From Decatur, Illinois, to—

New Orleans 758 miles,
Boston, 1,122 miles,
New York, { 1,144 } according to the { 1,659 } route,
Philadelphia, 904 miles,
Baltimore, 971 miles,

From St. Louis to—

New Orleans, 698 miles,
New York, { 1,144 } according to the { 1,170 } route,
Boston, { 1,201 } according to the { 1,233 } route.
Philadelphia, 974 miles,
Baltimore, { 914 } according to the { 951 } route.

These figures are evidently in favor of New Orleans, even without the greater expense attending the working of some of the eastern railroads, such, for instance, as the Baltimore lines with their heavy grades. As to the foreign ports on the Gulf of Mexico and in Cuba, a glance at the map will show how greatly the advantage of distance is in favor of New Orleans as compared with eastern ports. Consequently for many years New Orleans possessed a large commerce in breadstuffs, and provisions as well as in sugar, cotton, and coffee, being at one time one of the principal markets in the United States for Rio coffee.

For the ten years ending 1850, New Orleans received on an average, 7,071,867 bushels of grain; the receipts at Buffalo, then the centre of the grain producing districts, averaging 10,291,032 bushels. In the decade ending 1856, the average receipts of New Orleans were 10,202,017 bushels, while the shipments of western produce to the eastern ports, Cuba, Great Britain, and other foreign ports, amounted in the years 1856-1857, to the following figures: 904,810 bbls. flour, 145,174 bbls. pork, 88,447 bbls. bacon, 648,886 kegs lard, 18,726 bbls. beef, 60,058 bbls. whiskey, and 2,100,000 bushels corn.

These figures offer a conclusive answer to the assertion that breadstuffs and provisions cannot, with safety, be shipped by way of New Orleans.

The bulk of the western tobacco crop found its way to New Orleans, and for ten years preceding the war the average receipts were 68,582 hhds., and the shipments 66,366 hhds.; and in 1859-60, the former amounted to 80,955 hhds. and the latter to 82,689 hhds. At the same time New Orleans was the principal market for cotton in the United States, and had, moreover, a large trade with the interior, supplying all the articles consumed there.

(To be continued.)

**Cincinnati, Sandusky and Cleveland R. R.**

The United States Court for the Northern District of Ohio, at Cleveland, on the 14th inst., Judge Welker presiding, granted to John S. Farlow a writ of assistance, and instructed United States Marshall Prentice to serve the proper papers on Receiver Lea and take possession of the property. The decision was rendered at half-past two o'clock, p. m., and shortly after five o'clock p. m. of the same day Mr. Farlow was put in possession as Receiver of the road and all its property. The business of the road will now be transacted under the personal supervision of Mr. Farlow, as Receiver, he acting as the agent of the United States Court. In that respect he sustains the same relation to the road that Mr. Lea did.

The Sloane party held possession of the road just seventy-six days. They took it on the morning of March 31, and surrendered it on the evening of June 14.

☞ The Philadelphia Ledger notices the sailing from the Delaware river for Rio Janeiro of the bark Matthew Baird, loaded at Wilmington, Delaware, with cars for a railroad in Brazil, which were manufactured at the Harlan & Hollingsworth Company's Works at that city. Although she is a vessel of probably 600 tons capacity, yet we are told she was unable to carry the whole of the consignment, and that another vessel will also be loaded with them. It is not very long ago that Brazil got all of her railroad supplies in England. Then she began buying locomotives in this country, and recently a Pennsylvania firm carried off the successful bid for railroad iron for a Brazilian railroad. Now she is buying our cars. It is quite probable that Brazil will thus be soon running a completely American railroad.

☞ The Amherst Gazette says that the Spring Hill and Parrsboro' Railway is being pushed steadily forward to completion. A new engine and first class car, also postal and baggage car, passed over the railway last week. About ten miles are ballasted, and the road will be open for business about the first of July. It is estimated that five million feet of deals and scantling will be carried over the line this year for shipment at Parrsboro.'

### Ontario Silver Mining Co.

The property of this company is situated in Uintah Mining District, Summit Co., Utah, about 30 miles from Salt Lake City, and consists of 1,500 feet on the Ontario Lode, covered by a U. S. patent, and 1,500 feet on the Switzerland Lode, an extension of the Ontario. The company owns a 40 stamp mill, with roasting furnace, completed February 1, 1877, at a cost of $230,000. The mill has a capacity of eighty tons per day, and is pronounced by competent judges to be the best built and best arranged mill on the Pacific side of the Continent, and it is believed to be the best and most complete silver mill in the world.

| | |
|---|---|
| Expended for development, construction, mining and all other purposes, from 1872 to January 1, 1877 | $930,733 |
| Less cost of mill, and property on hand at cost | 302,320 |
| Leaving as cost of development, mining, etc. | $628,413 |
| Production of 20 stamp mill, 18 months under lease—gold value | $906,459 |
| Ore sold for currency | 42,116 |

Present capacity of mine, 100 tons per day.
Present capacity of mill, 80 tons per day.
Lowest estimate of ore now in sight, 30,000 tons.
Lowest estimate of value, $100 per ton.
The company has no bonded or other debt or incumbrance of any kind or nature.

| | |
|---|---|
| Receipts for February, March and April, 1877—in coin | $372,996 |
| Quicksilver on hand | 20,768 |
| Total receipts | $393,764 |
| Disbursements: | |
| February, March and April, 1877 | $101,888 |
| 700 flasks of quicksilver | 25,482 |
| Dividends ($50,000 in gold, per month) | 150,000 |
| | 277,370 |
| Balance May 10, 1877 | $116,394 |

Dividends are payable on the 10th of each month, at the office of the transfer agents, Wells, Fargo & Co., 65 Broadway, N. Y. The stock is registered by the Union Trust Co., N. Y. New York office, 31 Broad street. Officers: President and Treasurer, J. B. Haggin; Vice-President, R P. Lounsberry; Secretary, B. B. Minor.

### Delta and Baltimore Railroad.

A meeting of persons interested in the construction of the narrow gauge railroad from Delta, in Pennsylvania, to Baltimore city, was held at Towsontown, Md., on the 13th inst. The meeting was called to order by the appointment of Edward F. Jenkins as Chairman and Charles E. Fendall Secretary.

Addresses were made by Hon. Stevenson Archer, Z. K. Louis, Nathan Grafton and S. G. Boyd, the latter having been canvassing Harford and Baltimore counties for subscriptions. He stated that on the route which was proposed through Belair about $4,000 per mile had been secured, and for the more northerly route something over $3,000 per mile; that on the line of the route in Baltimore county, from the Harford county line to Cromwell's bridge, over the Great Gunpowder falls, a distance of a little less than seven miles, $22,000 were subscribed.

A committee was appointed to solicit subscriptions and ascertain what amount could be obtained along the proposed route through Limekiln Bottom, and a committee to solicit subscriptions along the proposed route through Dulany's valley.

John Laing, a civil engineer of Baltimore city, was present, and exhibited a map showing the several surveys which he and others had made, and he stated that the line from Delta to Towsontown and Baltimore would cost from $9,500 to $10,000 per mile.

### Railways of the British Empire.

December 31, 1875.

| | Miles. |
|---|---|
| United Kingdom | 16 658 |
| Canada | 4,445 |
| Jamaica | 25½ |
| British Guiana | 21 |
| | 4,489½ |
| Australia: | |
| New South Wales | 437 |
| Queensland | 263 |
| South Australia | 258 |
| Victoria | 618 |
| | 1,576 |
| British India | 6,461 |
| Ceylon | 91½ |
| Mauritius | 66 |
| New Zealand | 542 |
| Tasmania | 167 |
| Natal | 5½ |
| Cape of Good Hope | 149 |
| Total | 30,205½ |

### Trade Statistics.

The official reports of the Bureau of Statistics for the month of April, 1877, as compared with the corresponding month of 1876, show the exports of the two periods to be as follows:

| | 1877. | 1876. |
|---|---|---|
| Domestic produce | $43,357,787 | $37,648,451 |
| Foreign goods | 1,042,461 | 1,271,426 |
| Total goods | $44,400,248 | $38,919,877 |
| Specie | 3 798,862 | 5,423,019 |
| Total exports | $48,199,110 | $44,342,896 |

The imports for the same periods were as follows:

| | 1877. | 1876. |
|---|---|---|
| Merchandise | $42,662,696 | $36,156,526 |
| Specie | 1,582,244 | 725,085 |
| Total | $44,244,940 | $36,881,611 |

The exports for the ten months of the fiscal years 1876–7 and 1875–6 ending with April were as follows:

| | 1876–7. | 1875–6. |
|---|---|---|
| Domestic produce | $503,719,043 | $439,915,269 |
| Foreign goods | 10,964,819 | 12,118,135 |
| Total goods | $514,683,862 | $452,033,404 |
| Specie | 35,285,212 | 41,682,512 |
| Total exports | $549,969,074 | $493,115,916 |

And the imports for the same period were:

| | 1876–7. | 1875–6. |
|---|---|---|
| Merchandise | $357,584,817 | $389,069,848 |
| Specie | 38,331,534 | 13,977,501 |
| Total imports | $395,916,351 | $403,047,349 |

The above shows an increase of goods exported amounting to $62,650,458 in the latest period (1876–7) as compared with the former and a falling off in merchandise imports of $31,485,031.

When, however, the exports and imports of the ten months ending with April are compared with the eight months ending with February, it will be found that the excess of exports over imports has declined from $154,052,723 at the close of February, to $153,156,492 at the end of April—a falling off of $896,231 in two months. This shows that while there has not been much change in our export of goods, there has been an increase of both merchandise and specie imports, indicating an increased demand in this country for foreign goods.

### Finances of New Hampshire.

From the Annual Report of Hon. S. A. Carter, Treasurer of the State, we learn that the total receipts into the Treasury during the year ending May 31, 1877, (including $37,541 15 on hand at its commencement) was $937,722 18, and the disbursements $911,884 42—leaving a balance of cash on hand June 1, 1877, $25,837 76.

The liabilities and assets June 1, 1876 and 18.7, were as follows:

| | 1876. | 1877. |
|---|---|---|
| Liabilities | $3,677,792 72 | $3,613,183 70 |
| Assets | 48,254 23 | 36 792 83 |
| Net indebtedness | $3,629,538 49 | $3,576,390 87 |

—a decrease of debt during the year of $53,147 62.

The revenue and expenses for the years ending May 31, 1876 and 1877, were as follows:

| Revenue: | 1876. | 1877. |
|---|---|---|
| State tax | $400,000 00 | $400,000 00 |
| Railroad tax | 83,595 98 | 69,338 28 |
| Insurance tax | 11,756 68 | 10,175 41 |
| Interest | 2,192 26 | 1,289 56 |
| Miscellaneous, including special road tax 1876-7 | 783 27 | 1,382 85 |
| Totals | $503,328 19 | $482,136 10 |
| Expenses: | | |
| Ordinary expenses | $139,461 87 | $158,820 06 |
| Extraordinary exp | 29,395 05 | 51,503 91 |
| Interest | 222,679 31 | 218,664 51 |
| Totals | $391,536 23 | $428,988 48 |
| Excess of revenue over expenses | $111,791 96 | $53,147 62 |

Ordinary expenses include salaries and expenses whose payment is authorized by the General Statutes or General Laws, and which are of annual occurrence. Extraordinary expenses are those which are authorized by special acts of the Legislature.

The bonds now outstanding and dates of their maturity are as follows:

| | | |
|---|---|---|
| July 1, 1869 | | $3,000 00 |
| July 1, 1877 | | 100,000 00 |
| July 1, 1878 | | 110,000 00 |
| Sept. 1, 1884 | | 450,000 00 |
| Sept. 1, 1889 | | 150,000 00 |
| Total old debt | | $813,000 00 |
| Bonds of 1873 due July 1, 1879 | $250,000 | |
| Bonds of 1873 due July 1, 1880 | 250,000 | |
| | | 500,000 00 |
| Municipal war loan bonds due from Jan. 1, 1892, to January, 1905 | | 2,206,100 00 |
| Total funded debt | | $3,519,100 00 |

The state of the treasury June 1, 1877, was as follows:

| | |
|---|---|
| Floating debt | $33,100 00 |
| Trust funds | 60,983 70 |
| Funded debt | 3,519,100 00 |
| Total liabilities | $3,613,183 70 |

☞ The Western Union Telegraph Company has opened its office at Fire Island, 35 miles east of Sandy Hook, connecting with Babylon, L. I., by submarine cable across the Great South Bay. Captains of vessels are requested to display their signals when off Fire Island.

# American Railroad Journal.

**Saturday, June 23, 1877.**

### Financial and Commercial Affairs.

A comparatively limited demand has been noted from all responsible sources for accommodation in the loan and discount line, though, in view of the extremely liberal offerings of capital, rates have been ruling very low, in most instances, in a temporary form, quoted at almost nominal figures. Call loans have been quoted here at 1@2½, with most of the important negotiations reported on the basis of 1½@2 per cent; and very choice to prime mercantile credits are rated at 3 @4½, mainly 3@3½ per cent per annum. The City banks, last week, reported an increase in their legal tender and a reduction in their specie reserves, with a contraction of their circulation. The loan and discount item was cut down, and the deposit average also diminished. The loan and discount average shows a falling off of $985,500. The item of circulation was reduced $191,000, and of deposits $1,072,700. The legal tender reserve was enlarged $1,285,500; and the specie average diminished $1,089,600.

The City banks reported their average of gold last week at $18,352,100, as against $15,818,200 same date last year; and their greenback average at $56,363,600, as against $54,360,200 on June 17, 1876. Their deposits stood at $222,665,800, against $208,602,000 same time in 1876. The loan item was $250,687,500 against $246,862,100 a year ago.

The City bank net reserve of specie and legal tender notes now shows an excess over the legal requirement of reserve to liabilities of $18,352,100, as against $18,585,175 the preceding week, $9,089,775 the week ending 14th April (the lowest

footing of this item thus far in the current year,) and $24,781,800 on January 27 (which latter was the highest aggregate reached this year.) The City bank exchanges in currency reached $389,281,258, or a daily average of $64,880,209.

The U. S. Sub-Treasury in this city closed the week ending on Wednesday with a currency balance of $48,331 381, against $48,582,548 the preceding week; and a coin board of $79,887,471, against $81,331,457 on the return of a week earlier. The Customs revenue of the port during the past week was $1,530,000.

The aggregate of the outstanding U. S. currency of all denominations, June 1st, was $381,-684,573. The outstanding amount of legal tender notes is $360,412,580. The National bank circulation is now $316,861,061 of currency notes and $1,480,625 of national gold bank notes.

National Bank notes received at the Treasury Department last week for redemption were to the amount of $6,575,000.

The income of the Government from internal revenues last week was about 2½ millions, and since July 1, 1876, about 117½ millions; and from Customs last week about two millions, and since July 1, 1876, about 123½ millions.

On Wednesday of this week the cash balances of the Treasury Department at Washington were: of Currency, $5,868,779; special deposit of legal tenders for the redemption of certificates of deposit, $53,705,000; Coin, $104,719,939, including of Coin certificates, $42,625,500.

A somewhat livelier movement has been reported in the Gold line, on a rather stronger basis as to price, with the speculative inquiry quickened in part by the various financial reports and rumors from Washington. The extremes of the price during the week have been 104⅞@105⅜, closing at 105⅜, as against 105⅛ on Wednesday of the preceding week. The lowest point yet touched was 104¼, on Friday, March 2d. The specie outflow last week was light, having been only $575,820, (of which $135,600 to London, $250,000 to Southampton, $25,000 to Paris, $10,-000 to Hamburgh, $12,500 to Porto Cabello, $5,-700 to Panama, and $136,520 to Havana,) making the total exports of specie hence since January 1, $17,191,729, against $26,826,481 the same time in the preceding year. The imports of specie at this port last week were $286,594, (of which $225,-883 from Vera Cruz, $27,751 from Aspinwall, $18,700 from Havana,) and since January 1st $7,-205,397 as against $1,914,785 same time last year. The Customs demand for gold last week averaged $255,000 per day. Foreign Exchange has been quoted firm, though comparatively tame, most of the week. Bankers' sixty day bills on London closed on Wednesday at $4 87@$4 87½; sight bills on London at $4 89@$4 89½ to the £ sterling. The week's imports of Dry Goods and general merchandise were to the specie value of $8,-297,910 as against $5,733,733 the corresponding week of 1876. The week's import entries of Foreign Merchandise at New York included $777,492 of Dry Goods and $7,520,418 of General Merchandise. The week's exports of Domestic Produce and Miscellaneous Goods from this port were $4,-820,173, against $6,233,968 same week in 1876.

A moderately active inquiry has been noted for Government securities which have been quoted somewhat stronger in price, influenced in part by the higher range of Gold. At the close the market was quoted firm, leaving off on Wednesday as follows:

United States currency sixes, 122⅝@122¾; do. 6s, 1881, registered, 110¾@110⅞; do. coupon, 114¾@115; do. 1865, new, registered, 106⅜@106½; do. coupon, 109½@109⅝; do. 1867, registered, 109⅜@109½; do. coupon, 112⅝@112¾; do. 1868, registered, 112; do. coupon, 115½@116; do. ten-forties registered, 112¼@112⅛; do. coupon, 112¾@112⅞; do. five per cents 1881, registered, 111⅛@111¼; do. coupon, 11⅛@111¼; do. 4½ per cents, 1891, registered, 107⅜@108; do. coupon, 107⅞@108; Central Pacific Gold bonds, 110@110⅜.

The amount of U. S. bonds held by the Treasurer of the United States, as security for the National Bank circulation, is $338,979,100, and $18,-866,000 as security for public deposits.

State and Railway bonds have been more active and the more substantial loans have shown more firmness. And in the line of Railway and Miscellaneous share property business has been on a less extensive scale, yet indicative of more steadiness as to prices, closing firmly.

General business has been without notable animation in any prominent department. Rather more call has been noted for Breadstuffs, Provisions and Naval Stores, but at variable prices. Cotton and Petroleum have been in comparatively slack demand and quoted irregular. Foreign merchandise has been quite moderately sought after with values showing, in instances, weakness and depression. Sugars were cheaper.

A limited movement has been reported in Hardware, Boots and Shoes and most kinds of Dry Goods, prices of which, however, have been without marked alteration.

In the line of Metals, business has been quite slow, and prices quoted rather weak throughout. Eglinton Pig Iron quoted at $25 50; Glengarnock $27 50; Coltness $28 50 @$29; No. 1 American Pig at $18 @$19; No. 2 do. at $17@$18; Forge $16@$17; American Rails at works $33@$37; Old Rails $18 @$19. Wrought Scrap $22@$25. Steel Rails, on the basis of $46@$50 at the mills. Ingot Copper quoted 19¼ for early delivery.

A further increase of weakness and irregularity has been noted in the way of Ocean freights which have been devoid of animation. The business has been mostly in the line of Petroleum, Grain, Provisions, and Cotton shipments, at lower rates on berth. Liverpool steamer rates at the close for Grain, 4d. per standard bushel. Provisions, 20s. @45s.; Tallow, 25s.; Leather, 50s. Measurement Goods at 15s.@20s. per ton; Cotton, 17/32d. @⅛d. per lb., Liverpool, by sail. Cotton, 3/16d. Grain, 4d. Oil Cake and Slate, 10s.@12s. 6d.; Measurement Goods 10s.; Tobacco 25s. Grain rates on charter hence for Cork and orders left off at 4s. 6d.; for the Continent, at 5s.@5s. 3d. and from Baltimore for Cork and orders, 4s. 3d.@4s. 6d. and from Phila. at 4s. 3d.@4s. 6d. per quarter. Refined Petroleum hence for Cork and orders, 4s. @4s. 3d.; for the Continent, 3s. 6d.@4s. per bbl. And for Liverpool by steam, from Chicago, of through freight, Provisions, at 58c. via Boston and Philadelphia, per 100lb.

The following quotations of sales of Railway and other securities are in addition to those given elsewhere in our columns:—

# FISK & HATCH,

## Bankers,

No. 5 NASSAU ST., NEW YORK.

U. S. GOVERNMENT BONDS bought and sold in amounts to suit investors: also, Gold, Silver and foreign coins: Deposits received in Currency or Gold, and interest allowed on Balances: Special attention paid to Investment Orders for Miscellaneous Stocks and Bonds.

### Denver and Rio Grande Railroad.

A party of excursionists left Manitou, Col., on the 16th inst. and made a trip over the extension of the Denver and Rio Grande Railroad in the direction of the San Juan mining region. This road is now completed to the highest point of the Veta pass of the Sangredechriste range, and the excursion train was the first passenger train to the summit. The altitude at that point is 9340 feet above the level of the sea, or over 1000 feet above the highest point on the Union Pacific Railroad, and higher than any other point reached by any railroad in the world. It is a magnificent triumph of engineering skill and railroad energy. The scenery is wild and grand beyond description. Many of the curves far exceed the famous horse shoe bend on the Pennsylvania road, sweeping around the sharp points of mountains in graceful curves, one above another, at dizzy heights. From Laveta to the summit the distance is 14 miles, and the ascent 2,400 feet. The ascent for a single mile is 211, and the average grade for the whole distance is 165 feet. The road will be completed to Fort Garland by July next, and opened for business. It will be 107 miles from Pueblo to Fort Garland, in San Luis park. The excursionists were accompanied by Gen. Dodge, General Passenger Agent, and J. A. McMutrie, the engineer under whose direction and superintendence the road was built.

☞ The Bridgeton City Council has awarded the contract for building the reservoir for the new water works to Thomas H. Regan, of Philadelphia, for the sum of $7865 60, and for the pump to H. R. Worthington for $10,500. An ordinance was passed directing the issue of water bonds to the amount of $80,000 at six per cent interest, payable in yearly sums of $3,000 after 1887.

☞ The Marietta, Pittsburg and Cleveland Railroad stock and franchises were sold at auction at Cambridge, O., by order of the court on the 13th inst. for $200,000 cash. Cyrus W. Field of New York, for the first mortgage bondholders residing in London, Amsterdam, New York and Ohio was the purchaser.

### Interest on United States Bonds.

There will accrue on the 1st day of July next, on account of semi-annual interest on the public debt, over $25,000,000, which will become payable on that date. Most of this money will be disbursed at New York. The amount to be paid on account of interest on the registered 6 per cents will be nearly $11,000,000, and of this amount nearly $8,000,000 will be paid at the Sub-Treasury in New York; about $2,000,000 at Boston, and about $750,000 at Philadelphia. The $14,000,000 to be paid on account of coupon bonds, will, for the most part, go abroad, as this class of bonds is held largely by foreign holders. It has been the custom of the Treasury Department to anticipate the payment of interest on bonds, and it is probable that the Secretary will issue orders directing the interest to be paid without rebate from and after the 25th of June.

In addition to the above interest, which is payable in gold coin, there will become due on July 1 about $2,000,000 for interest on the Pacific Railroad bonds, which will be paid in currency. The semi annual interest on the Navy pension fund, amounting to $210,000, will also become due on July 1. This sum is also payable in currency.

### Cincinnati and Muskingum Valley Railway.

The annual meeting of the stockholders of the Cincinnati and Muskingum Valley Railway Co. was held at Zanesville, Ohio, on the 12th inst., at which time the report of the directors was presented and read, and an election held for a new board to serve for the ensuing year. This election resulted as follows, viz: Thomas D. Messler, Pittsburgh, Geo. B. Roberts, Philadelphia; Charles Moran, New York; James Buckingham and M. Churchill, Zanesville, O.; Geo. W. Adams, Dresden, O.; and D. S. Gray, Columbus, O. The board subsequently organized by electing Thomas D. Messler, President, and C. C. Waite, Secretary and Treasurer.

☞ The Charleston News says that when the entire fundable debt of South Carolina shall have been converted into consolidation bonds and stocks the State debt will amount to $5,976,917. This result is obtained by the repudiation in 1878 of the $6,000,000 of spurious conversion bonds and by the scaling of the remainder of the debt to fifty cents on the dollar.

☞ At the annual meeting of the Franklin Telegraph Co., held in Boston, on the 6th inst., the following Directors were chosen for the ensuing year: Sidney Dillon, Jay Gould, W. J. Syms, John H. Mortimer, Thomas T. Eckert, Henry M. Tabor, Frederick Ames, Edwin F. Atkins, and James P. Keene. James G. Harris was re-elected Clerk, and Albert B. Chandler, Treasurer.

☞ A bill has been filed in the United States Circuit Court at Richmond, Va., praying for an injunction and the appointment of a receiver for the Washington and Ohio (formerly the Alexandria, Loudoun and Hampshire) Railroad Company.

☞ The capital stock of the College Hill Railroad Co., Columbus, Ohio, has been increased from $100,000, to $300,000.

☞ A project is on foot for connecting the towns of Monson and Dexter, Maine, by a narrow gauge railroad.

### Finances of New Hampshire.

Gov. Prescott, of New Hampshire, was inaugurated on the 7th inst. In his inaugural he says that the net indebtedness of the State on the first day of June, 1877, was $3,574,390 87, a reduction of $53,147 62 during the year. The reduction of the debt during the year just closed has not been equal to the average of the last five years, owing to some extraordinary expenses and the reduction of revenues owing to a depression in nearly all the leading branches of industry. The receipts from the tax on railway corporations the past year were $19,257 70 less than from the same source the previous year and a reduction of $46,122 74 over 1872, with the prospect of a still further reduction the present year. He finds that $710,000 of the State funded debt matures on or before July 1, 1880, as follows: $100,000 July 1, 1877; $110,000, July 1, 1878; $250,000, July 1, 1879; and $250,000 July 1, 1880. If the revenues remain substantially the same the $110,000 which mature July 1, 1878, can be paid without any extra legislation at this session. Provision, however, should be made for the $250,000 which matures July 1, 1879, if it shall be decided not to hold a session of the Legislature in June, 1878 The debt cannot be paid faster than it matures, the State having reserved no option whereby it could refund it before maturity. The Governor congratulates the State upon the fact that the debt is being surely paid, and that its financial condition is sound. He recommends that a State tax of $400,000 be raised to meet the obligations of the State in 1878.

### American Iron and Steel.

The Report of the American Iron and Steel Association for the year 1876, recently issued, contains statistics of the American iron trade to January 1, 1877, and a review of the present condition of the iron industry in foreign countries. A general analysis in net tons of 2,000 pounds is thus given of the total iron and steel production in the United States during the past two years:

| | 1875. | 1876. |
|---|---|---|
| Pig iron | 2,266,581 | 2,093,236 |
| All rolled iron, including nails and rails | 1,890,379 | 1,921,730 |
| All rolled iron, including nails and excluding rails | 1,097,867 | 1,042,101 |
| Bessemer steel rails | 290,863 | 412,461 |
| Iron and all other rails | 501,649 | 467,168 |
| Street rail included in iron rails | 16,240 | 13,086 |
| Rails of all kinds | 792,512 | 879,629 |
| Kegs of cut nails and spikes included in all rolled iron | 4,726,881 | 4,157,814 |
| Crucible cast steel | 39,401 | 39,382 |
| Open hearth steel | 9,050 | 21,490 |
| All other steel except Bessemer | 12,607 | 10,306 |
| Bessemer steel ingots | 375,517 | 525,996 |
| Blooms from ore and pig iron | 49,243 | 44,628 |

The whole number of completed furnaces in the country at the close of 1876, which were either active or capable of being transferred to the active lists on short notice was 714, against a similar total of 713 at the close of 1875. Ten new furnaces were completed in 1876, and nine old furnaces were abandoned.

☞ The city council of Manchester, N. H., has passed a bill authorizing the expenditure of $100,000 on the railroad to Peterboro' and $50,000 on the railroad to Henniker.

### The Coal Trade.

The total tonnage for the week ending on the 9th instant, as reported by the several carrying companies, amounted to 489,128 tons, against 159,574 tons in corresponding week last year, an increase of 329,554 tons. The total amount of anthracite mined for the coal year is 8,379,404 tons, against 6,625,618 for same period last year, an increase of 1,753,786 tons. The quantity of bituminous coal sent to market for the week was 76,786 tons, against 82,235 tons for corresponding week last year, a decrease of 5,449 tons. The whole bituminous tonnage from the beginning of the coal year is 1,354,454 tons, against 1,490,486 tons in corresponding time last year, a decrease of 136,032 tons. The total tonnage of all kinds of coal for the week is 565,914 tons, against 241,809 to corresponding date last year, an increase of 324,105 tons, and the total tonnage for the coal year is 9,733,858 tons, against 8,116,104 tons, to same date last year, an increase of 1,617,754 tons. The receipts at Perth Amboy for the week ending on the 9th instant were 18,196 tons, the shipments 29,318 tons, leaving a stock on hand of 121,894 tons. The quantity of coal and coke carried over the Pennsylvania Railroad for the last three days in May was 47,607 tons, of which 38,909 tons were coal, and 8 698 tons coke. The total carried for the year is 2,975,909 tons, of which 1,602,383 tons were coal and 383,844 tons coke. These figures embrace all the coal carried over the road, east and west.—*Phila. Ledger, June* 18.

☞ The Arizona Chief Gold and Silver Mining Company has been organized under the laws of New York State, with a capital of $1,000,000, in 100,000 shares, fully paid up, and unassessable, par value being $10 each. The property, 1 500 feet in length, is located in the well known "Moss Lode" of the San Francisco mining district, Mohare county, Arizona. The mine is about nine miles from the town of Hardyville, on the navigable waters of the Colorado River, about eleven and a half miles from Camp Mohare. The Southern Pacific Railroad is completed to Fort Yuma, on the Colorado, and river steamers are in constant communication between there and Camp Mohare and Hardyville.

☞ The Cincinnati Board of Transportation appears to work quite satisfactorily both to the merchants and the railway companies. From January 1, 1877, to June 1, the amount of freight for which rates were obtained was 6,250,990 pounds, being 171,767 pounds more during the five months of the year than the amount handled during the entire seven months in which the board existed last year.

☞ Chief Justice Pierrepont has called a special term of the full bench of the Supreme Court, to meet at St. Albans, Vt., on the fourth Tuesday in July, to hear an appeal from the Chancellor's *pro forma* order dismissing the petition of the Central Vermont Railroad Company as receivers for an order of sale of the Verment Central and Vermont and Canada Railroads to pay the trust debts.

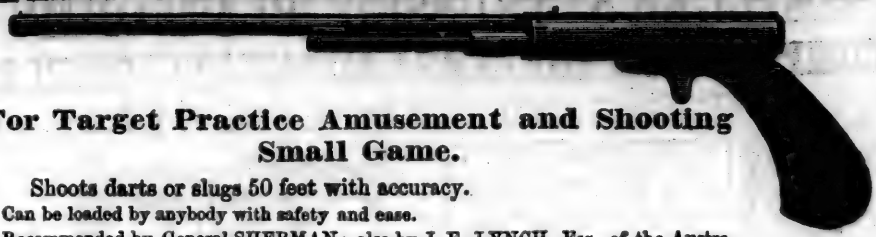
☞ The great railway bridge over the Maas, at Rotterdam, by which direct railway communication between Antwerp and Rotterdam has been established, was formally opened on the 28th of last month. It cost nearly a million of dollars.

☞ The annual meeting of the Central Pacific Railroad Company will be held in San Francisco on the 10th of July, and that of the Sacramento and Placerville Railroad Company on the 11th.

### Charleston and Cincinnati.

The Charleston (S. C.) Courier says that "Charleston may well feel that the dream of half a century is about to be fulfilled when, on one and the same day, the president of the Spartanburg and Asheville Railroad is able to announce that, with slight help, he will a year hence, bring the freight and passenger business of Cincinnati directly across the Blue Ridge to Charleston; and the president of the South Carolina and Greenville and Columbia Railroads announces that the former company has acquired the Blue Ridge Railroad, with all its original property and franchises, and that it is not extravagant to hope that at no distant day the city will realize, in the accomplishment of its connection with the Cincinnati Southern Railroad, full recompense for the labor and treasure expended upon it. This is cheering tidings; for, as sure as the blue sky is above us, the establishment of direct independent communication with the west will make Charleston rich beyond the expectation of those who have most confidence in her fortunes."

### The Alaska Coal Discovery.



SANTA BARBARA, June 8th.—The important Alaska coal discovery mentioned in these dispatches some months ago are now more particularly described by Captain Kimberly, the discoverer, just returned from there. The coal island is not of the Aleutian group, as at first stated, but the island of Unga, one of the Coumagins group, in 55 latitude and 156 longitude, off the southeast coast of Alaska. The mineral is favorably located for the loading of vessels. The mine now being worked is about fifty feet below the level of the sea, and about sixty-five feet from the water front.

☞ The Mayor and Board of Aldermen of Manchester, N. H., passed a resolution on the 18th inst., by a vote of 6 to 2, appropriating $100,000 to aid a competing line of railroad to the tide water and the West via the tunnel. A carefully selected committee will be appointed to determine the route and see that the competing line is secured. Greenfield, Peterboro' and Milford are the objective points to be examined by the committee. A resolution was also passed appropriating $50,000 to relay rails from North Weare to Henniker, which were taken up several years ago by ex-Gov. Gilmore, then Superintendent of the Concord Railroad.

☞ A meeting of persons interested in the building of a railroad from Manchester, N. H., to Fitchburg, Mass., was held at Milford, N. H., on the 17th inst. The proposed route lies through Bedford, Amherst, Milford and Brookline. T. C. Upton, E. P. Loring and other civil engineers and contractors were present. All the other towns along the route were represented. It was decided to make a survey of the proposed route, thinking it will be most feasible, accommodating all parties, and will be the best paying route that can be built from Manchester in any direction to connect with the Tunnel and seaboard.

☞ Of the $150,000 new five per cent loan, recently offered by the city of Wilmington, Delaware, proposals for $66,900 at par were accepted. The balance of the loan, $83.100, will be disposed of by the city's agents at par, or at whatever premium they may command. This is the first five per cent loan ever created by the city of Wilmington, all previous issues commanding six per cent. The present bonded debt of the city is about $1,200,000.

# THE CHAMPION AIR PISTOL.

**For Target Practice Amusement and Shooting Small Game.**

Shoots darts or slugs 50 feet with accuracy.

Can be loaded by anybody with safety and ease.

Recommended by General SHERMAN; also by J. F. LYNCH, Esq., of the Australian Rifle Team.

PRICES.

Black.....$5 00. Nickel Plated.....$6 00.
Nickel Plated Rosewood Handle..... ... ... 7 00.

Each pistol is put up in a neat box with a skeleton gun stock, 6 Darts, 100 Slugs, 6 Targets, a Ram-rod, Claw and Wrench.

Sent by Express C. O. D., or by mail at the risk of parties ordering, on receipt of price, and 40 cents additional for postage.

## FINANCIAL.

ALEX. FROTHINGHAM & CO., BANKERS AND Brokers, No. 12 Wall st., make for customers desirable investments of large or small amounts in stocks of a legitimate character, which frequently pay from five to twenty times the amount invested every thirty days.

Reliable stock privileges negotiated at favorable rates. Stocks bought and carried as long as desired on deposit of three to five per cent. Circulars and weekly reports sent 1y33

☞ The Treasury Department having issued nearly $33,000,000 in subsidiary silver coins, and $13,000,000 in fractional currency, being the ascertained amount now outstanding, but little more than $4,000,000 in silver remain to be issued to complete the $50,000,000 authorized by Congress as the maximum amount of silver coins and fractional currency to be outstanding at one time. After the remaining $4,000,000 have been issued, silver coins only will be issued in exchange for fractional currency presented for redemption.

☞ The gross earnings of the Lehigh Valley Railroad in May, 1877, were $586,000, the expenses $286,000, and the net earnings $300,000. In May, 1876, the earnings were $515,754, the expenses $360,742, and the net earnings $155,012. The tonnage in May, 1877, was 360,537 against 204,226 in May, 1876. These figures show two important points—increased business and a rigid economy in all departments of the company's management.

☞ At Richmond, Va., on the 14th inst., on motion, in chambers, by Mr. Barton, of counsel for Col. McComb et als., in the case of the Washington and Ohio Railroad, wherein a receiver is asked to be appointed for the road, the hearing has been postponed till the 11th of July, or such day about that time as may best suit the convenience of the U. S. District Court before which the case will come. The place of hearing was also changed from Richmond to Alexandria.

☞ Col. A. S. Johnson, the Land Commissioner of the Atchison, Topeka and Santa Fe Railroad, reports that a much larger amount of acreage than ever before is sown this year to wheat; that the crops of all kinds look very promising and that there is no trouble at all from grasshoppers; that there is a steady flow of emigrants to the State, and it is made up of a class who will make good citizens.

☞ The earnings of the Erie Railway for the six months ending March 31, 1877, were $7,464,892, the expenses $5,554,305, and the profits $1,910,587; for the six months ending March 31, 1876, the earnings were $8,152,922, the expenses $6,662,189, and the profits $1,490,733—showing a decrease in earnings of $688,030, with a decrease in expenses of $1,107,884, making the increase in net earnings $419,854.

☞ It may interest the stock and bondholders of the Ohio and Mississippi Railroad Company to know that the payment of the second dividend of 25 per cent. on the indebtedness of the road contracted six months before the receivers were appointed has been completed. This makes 50 per cent. that has been paid on the debts of the road.

☞ In converting one hundred pound Parrott guns into breech loaders, the Ordance Bureau has adopted the slotted screw, or French system, which has also been adopted in several foreign countries. A number of Parrott guns are now being converted into breech-loaders at the Parrott foundry, Cold Spring, on the Hudson River.

New York, Saturday, June 30, 1877.

### Wheat Farming in California.

A statement comes over the wires from San Francisco that the wheat crop of California is estimated this year at thirteen million centals; or say twenty million bushels. If this be correct, the product is only about half that of last year, which was a very prosperous season. It should be understood, however, that wheat culture in California differs from that of the Eastern States in several respects, but specially in the fact that large tracts are sowed in wheat speculatively; that is to say, the land, the capital and the machinery are hired by persons who are not farmers. If the season proves good and there is a sufficient rainfall, the profits are enormous—sometimes sufficient to pay for land and working machinery, and all expenses besides; if, however, the season is a dry one, as the last Spring was, the adventurer loses his venture, and too frequently exhausts his credit. The San Joaquin Valley, a broad fertile level expanse 250 miles long by an average of 50 wide has been the chief theatre of this kind of irregular farming. It is traversed by numerous streams coming from the mountains, and the whole of it is not only susceptible of, but well adapted to, irrigation; all that is necessary being to dig canals in the gently sloping alluvial bottom. This can be done at less cost, and in less time, than it takes to "clear off" the timber from the wheat lands of Michigan and Wisconsin; but the Californians are too impatient for that. In this sense, the present year of drouth may prove to be a blessing in disguise. Even if it were to be followed by two or three such seasons, it would still be a benefit; because it would turn the producers from the present hap-hazard style of farming to that which is certain, controllable and exhaustless. What is needed there is more industry and less gambling.

### Michigan Central Railroad.

At the annual meeting of the Michigan Central Railroad Company, held in Detroit on the 25th inst., the following named gentlemen were elected directors for the ensuing year: Moses Taylor, Samuel Sloan, John J. Astor, George F. Talman, Isaac Bell, and Rosewell M. Rolston, of New York; Nathaniel Thayer and Edward Austin, of Boston, and John N. Barron of Concord, N. H. The only changes from the old board are the substitution of Messrs. Austin and Barron for August Belmont, of New York, and Frederick Billings, of Stockbridge.

On motion of Mr. James F. Joy, the fiscal year of the company was changed from May 31st to December 31st. Mr. Joy said that this would be a desirable change, as it would enable the shareholders to compare simultaneously the doings of the Michigan Central with the Lake Shore and Michigan Southern Railroad.

Secretary Rolston then read a condensed statement of the affairs of the company for the past year which ended on May 31. The funded debt shows a decrease of $151,000 due to the retirement of the Jackson, Lansing, and Saginaw bonds, and the Michigan Central Sinking Fund bonds. The total earnings from traffic were $6,483,000, operating expenses $4,439,000, taxes $267,000; thus showing a decrease in the gross earnings of $367,960, and in the operating expenses of $197,225. The floating debt has been reduced to $250,000, of which about $150,000 has been paid since the close of the fiscal year.

The tonnage of the road has largely increased, the number of tons moved one mile showing an increase of 78,872,000 tons. With the rates of the year ending June 1, 1876, and the tonnage of the last year, the net earnings would show an increase $1,160 000, or sufficient to have paid a dividend of six per cent. on the capital stock.

Eighty-three miles of steel rail have been laid on the main and air lines, leaving but five miles of iron on the main line and 30 on the air line to be replaced.

### Kent County Railroad.

A correspondent of the Baltimore Sun, writing from Chestertown, Kent Co., Md., under date June 17, 1877, says that a project is on foot in connection with the Kent County railroad and a line of steamers across the Chesapeake bay to give the whole Eastern Shore trade the option of Baltimore by a nearer route than via Wilmington, and then adds:

The Kent County Railroad from Belair in that county to Clayton in Delaware, 40 miles, connects with all the peninsula railroads of Delaware and Maryland. The Bombay Hock railroad connects Clayton with the Bombay Hook beach. These two railroads run directly across the peninsula of Delaware and Maryland from the ocean to within a few miles of the Chesapeake bay shore, intercepting travel from the South.

It is now proposed to complete the line in the interest of Baltimore by building eight miles of railroad from Belair to Rock Hall, which is directly on the Chesapeake, with a fine harbor at all seasons. This it is claimed would give the whole lower Eastern Shore of Maryland, Delaware and Virginia a short line to Baltimore, via steamer from Rock Hall. The distance, including twenty-five miles by water, from Clayton to Baltimore by the Kent County railroad is about sixty-five or seventy miles, and the time will be about three and a half hours, and a saving of forty miles of rail travelling via Wilmington to Baltimore. The steamer Sarah K. Taggert, a new steamer in these waters, owned by Philadelphians, is already running between Tolchester Beach, on

the Kent shore, Buck Neck and Baltimore, and it is the project of the future to connect with the railroad route. A number of Philadelphians are interested in the charter to connect Rock Hall harbor with the Kent railroad.

The Kent road, as well as the Bombay Hook road, are both owned by Jay Gould, who, it is said, has put nearly a million of dollars into the lines. The Kent road has cost the State of Maryland $108,000, Kent county, $100,000 and the individual stockholders $100,000. At Tolchester beach a wharf has been built, and a hotel has been erected near Gresham Hall, one of the best known fishing shores on the Chesapeake, to which the Taggart makes excursions from Baltimore, &c. There is a gap filled already between this place and Baltimore by this steamer, and it only remains to fill the gap of eight miles by railroad from Rock Hall to Belair, and the short and direct connection with the whole peninsula section is effected.

### Pennsylvania Railroad.

A special meeting of proprietors was held at Cannon-street Hotel, to hear a statement from Mr. Edmund Smith, vice-president of the company. Sir Edward Watkin, Mr. Powell, Mr. Henry Crossfield and others accompanied Mr. Smith on the platform. There was a very large attendance. Mr. Branch was voted to the chair. A long explanatory address from Mr. E. Smith was heard and received by the meeting with much satisfaction, in which he asserted that the condition of the railroad was of the most substantial character, and that everything appertaining to its management was equal to any line in England. He then gave statistics of the financial position of the company, and of the weekly and annual earnings of the various branches. He denied in the most positive manner that he was in London for the purpose of borrowing any money, as the directors would be able to provide for all liabilities out of the resources of the company without putting any shares on the market until 1880, when bonds for $5,000,000 fell due. The chairman called upon Mr. Crossfield, auditor of the London and North Western Railway Company, who addressed the meeting, and concluded by moving the following resolution:

"That in order to ensure to the Pennsylvania Railroad Company the confidence of the public it is absolutely needful that its annual statement of accounts should be published in a form which shall fully and clearly exhibit the true financial position of the whole of the undertaking. That the directors be therefore respectfully requested to arrange that the results of the entire operations, whether conducted by one or more organizations, shall be published simultaneously and together. That these accounts be drawn up in one uniform plan, which shall be adhered to as closely as possible from year to year. That they fully set forth, accompanied by all details needful to enable the shareholders fully to comprehend the figures, the existing financial position of the concern, and the whole of its transactions for each year. This meeting also submits to the directors that the accounts should contain more fully than is given in the last report the results of the operating of all the lines, giving also a parallel column showing the corresponding figures of the previous year; the amount in detail of the income arising from all securities of every kind held by the company; a statement showing also in detail the amount chargeable against the concern on account of its engagements under the head of losses or rental of other lines. That the balance sheet should show the variation, if any, in the mortgages, bonds, or other indebtedness of the company during the year; also the amounts charged on the other side to construction, equipment, or other permanent expenditure, accompanied by sufficient details; and, further, the changes made in the larger amounts locked up in the bonds and stocks of other undertakings, that the proprietors might be enabled to ascertain the progress made in improving the financial position in this respect. And this meeting authorizes and requests Messrs. H. Crossfield, Powell, Fowler and Taylor to put themselves in communication on its behalf with the board of directors of the Pennsylvania Railroad Company with the view of inducing them to adopt the foregoing arrangements."

Mr. W. Fowler seconded the resolution, and after some observations from Mr. Heilner and Mr. Powell, the resolution was put to the meeting and unanimously adopted, and a cordial vote of thanks to Mr. Smith concluded the proceedings.—*Herald, June 18.*

### Connecticut River Railroad.

The earnings of this road for the years ending September 30, 1875 and 1876, were as follows:

| | 1875. | 1876. |
|---|---|---|
| From passengers | $320,743 84 | $289 093 40 |
| " freight | 292,033 92 | 256,411 50 |
| " mails | 11,419 51 | 11,030 96 |
| " express | 13,019 79 | 13,015 40 |
| " rents, etc | 12,032 20 | 19,985 60 |
| | $649,249 26 | $589,536 86 |
| Expenses, viz: | | |
| Repairs of road | $68,100 41 | $78,578 31 |
| " bridges | 4,994 61 | 2,125 08 |
| " buildings | 17,738 80 | 8,736 84 |
| " locomotives | 12,192 47 | 10,697 19 |
| " cars | 29,091 90 | 22,860 77 |
| " tools, etc | 1,004 94 | 997 23 |
| Running trains | 128,498 80 | 107,290 47 |
| Station expenses | 49,605 17 | 49,188 94 |
| General expenses | 18 606 38 | 17,322 37 |
| Stationery, etc | 5,717 32 | 5,186 74 |
| Gratuities and damages | 6,659 04 | 2,818 99 |
| Removing ice and snow | 8,688 59 | 1,074 80 |
| Water works | 1,766 36 | 1,528 89 |
| Miscellaneous | 24,117 19 | 33,638 53 |
| | $371,779 48 | $341,545 15 |
| Net earnings | $277,469 78 | $247,991 71 |
| Accretion to the sinking fund | | 10,513 46 |
| Total income for the year | | $258,505 17 |
| Against which are charged— | | |
| Interest paid | $32,411 77 | |
| Taxes | 38,398 12 | |
| Insurance | 2,326 17 | |
| Losses to sinking fund in sale and exchange of Eastern Railroad bonds, and for premiums paid on securities purchased, and for salaries paid | 15,221 05 | |
| Dividend of January, 1876 | 84,000 00 | |
| Dividend of July, 1876 | 84,000 00 | |
| | | 256,357 11 |
| Surplus for the year | | $2,148 06 |
| Surplus per last annual report | | 224,307 13 |
| To which we now add two other items, as follows, which the railroad commissioners require to be included in the statement of total surplus, as reported in the annual returns to the State: | | |
| Sinking fund | | 183,458 87 |
| Premium on capital stock | | 138,785 62 |
| Total surplus | | $548,699 68 |

Compared with the previous year the gross earnings show a decrease of $59,712 40, with a decrease in expenses of $30,284 88, making an increase in net earnings of $29,478 07. The report says:

The road is enjoying the benefits of former liberal expenditures for steel rails, of which there are now some 47 miles in a total of 71 miles of track. About 450 tons of steel rail have been added during the year and cross ties to the number of 26,000 have been renewed, placing our track in such order as to compare favorably with the tracks of other roads.

The equipment of the road has not been allowed to deteriorate, although there has been somewhat less than the usual expenditure for renewals of cars and engines.

The station grounds at Northampton have been enlarged and improved by the purchase of adjoining lands to the amount of some $30,000, which was carried to the construction account.

The directors have to report a serious loss to the sinking fund established for the redemption of our mortgage bonds by the failure of the Eastern Railroad Company. The investment in the notes of that company was $25,000, and the total loss has amounted to $18,130, assuming the new securities issued by the company to be worth the present market price.

The present value of the sinking fund is reported by the commissioners at $186,751 28. The bonds, amounting to $250,000, become due Sept. 1, 1878.

The company have 18 locomotives; 38 passenger, mail and baggage cars, and 359 freight and other cars. Miles run with passenger trains, 201,870; with freight, etc., trains, 127,269—total, 329,139. Number of passengers carried, 921,895; do. carried one mile, 19,259,021. Tons of freight carried, 278,508; do. carried one mile, 6,454,027. Earnings per mile of road, $10,555 70. Earnings per mile run, $1 79; operating expenses per mile run, $1 04; net earnings per mile run, $0 75. Percentage of expenses to earnings, 58.

The office of the company is at Springfield, Mass. The officers are:

*President.*—DANIEL L. HARRIS.

*Directors.*—Daniel L. Harris, L. M. Spelman, Edward A. Dana, Charles S. Sargent, Chester W. Chapin, Oscar Edwards, W. B. Washburn, Roland Mather, S. M. Waite.

*Clerk and Treasurer.*—SETH HUNT.

*Auditor.*—JOHN WHITTLESEY.

*Superintendent.*—JOHN MULLIGAN.

☞ An agreement between the Lehigh Coal and Navigation Company and the Central Railroad Company of New Jersey was ratified in Philadelphia on the 23d inst., and it is understood that the receivers of the Lehigh and Wilkesbarre Coal Company can now reorganize without foreclosure. The agreement requires the immediate payment of $400,000 by the Central railroad, who will continue to operate the railroad and canal, and will pay the railroad rental, amounting to $80,000 per

month, payment to be made on the 20th of each month. The rentals for the use of the canals as the sums due on collaterals taken from the Lehigh and Wilkesbarre Coal Company are to be credited to the Navigation Company upon construction account.

### Ashtabula, Youngstown and Pittsburgh Railroad.

The following extracts from the annual report of the directors of the Ashtabula, Youngstown and Pittsburgh Railroad, are very suggestive at the present time, showing, as they do, several important phases of the railway transportation service, in the field connecting Pittsburgh with the lakes.

OFFICE OF THE PRESIDENT,
PITTSBURGH, June 1, 1877.

*To the Stockholders of the A., Y. & P. R. R. Co.:*

GENTLEMEN:—The Board of Directors submit their annual report upon the condition of your property and finances to April 1st, 1877, and the business of the road during the year ending that date, as follows:

GENERAL ACCOUNT.

| | | |
|---|---|---|
| Cost of the road and harbor improvements, as shown by the books, to April 1st, 1877 | | $3,753,205 77 |
| Cash in hands Treasurer | | 49 28 |
| Balance to Dr. of profit and loss account, being deficit in earnings of amount of interest on bonds | | 229,796 32 |
| | | $3,983,051 32 |
| Common stock, 29,922 shares | | $1,496,100 00 |
| Preferred stock | | 321,000 00 |
| Instalments on stock | | 580 00 |
| | | $1,817,680 00 |
| First mortgage bonds 7 per cent. | $1,500,000 00 | |
| Second mortgage income bonds | 400,000 00 | |
| | | 1,900,000 00 |
| Purchase money mortgages on real estate | | 9,969 40 |
| Due Pa. Co. on construction account | $65,928 98 | |
| Due Pa. Co. on coupon account | 156,088 82 | |
| Accounts due other parties | 33,389 12 | |
| | | 255,401 42 |
| | | $3,983,051 32 |

The increase of cost of road since the last annual report amounts to $6,289 43—nearly the whole of which has been expended in payment for right of way and fencing.

The amount due the Pennsylvania Company on coupon account is $33,042 55 in excess of the amount due them at the date of our last report, which amount represents the deficit in the earnings of the amount necessary to pay the interest on the first mortgage bonds during the past year.

The earnings show an increase over the previous year of $14,009 92, or about 5¼ per cent., while the total expenses, including rent of equipment, shows an increase in net earnings $3,211 42, making the increase in net earnings $10,198 48, or about 14¼ per cent.

The earnings showed a much greater and more satisfactory result during the months of lake navigation last year, but since January, 1877, the earnings have decreased, as compared with the same months of the previous year, so that the increase for the year is much less than was anticipated.

The present condition of the iron and ore industries in the valley traversed by your road does not warrant any expectation of increased earnings during the current year.

Of the floating debt amounting as before stated to $33,389 12 there is due Wm. McCreery, Esq., late President of this Company, on a judgment obtained by him for the balance of his claim for services as President, the sum of $13,826 20, being the balance, with interest, of his claim for four years' service, originally amounting to $20,000 which was allowed by the Board rather than contest the matter at law, and which judgment the Company is now wholly without funds to pay.

Mr. McCreery sought to make his judgment by a levy on the dredge and telegraph line of the Company, but the Court decided that these properties were subject to the mortgages, and could not, therefore, be sold for execution.

The earnings of your road will undoubtedly be materially increased upon the revival of business, particularly in the coal and iron interests, but your Board is unable to see any indications warranting an assurance on their part of immediate or early benefit from this source.

WM. P. SHINN, President.

The Directors of last year were re-elected as follows: H. Hubbard, H. L. Morrison, A. C. Fisk, Ashtabula; F. Harrington, Rock Creek; Warren Packard, Warren; C. B. Wick, Youngstown; R. F. Smith, Cleveland; Wm. Thaw, Wm. Harbaugh, T. D. Messler, W. H. Barnes, D. McCandless, W. P. Shinn, Pittsburgh.

### Important Decision to Bankers.

The Philadelphia Times prints the text of a decision just given in the Supreme Court of Pennsylvania, by Justice Sharswood, that largely affects banking and other business interests in the State. In many portions of the interior, and even more generally in the western counties, it has become quite common for bankers and others to take notes containing a special obligation to pay 5 per cent. for costs of collection in case of suit for the recovery of the money. Such paper has been treated as negotiable notes, and has been indorsed by the mere signature of the indorser, instead of a formal guarantee such as is necessary on any evidence of indebtedness not negotiable, to bind the indorser. By the decision referred to notes containing the 5 per cent. collection fee clause, are held by the State Supreme Court as not negotiable for want of certainty, and indorsers of such paper by mere signature on the back of the instrument are not liable for payment in default of the maker. It is estimated that quite $5,000,000 of such paper is held by bankers and business men in the interior and western counties of Pennsylvania. The case came up on writ of error from Judge Dean, of Huntingdon, who had decided such paper to be negotiable, but which has been reversed by the Supreme Court.

### Illinois Central Railroad Company.

REPORT OF THE DELEGATES.

(Continued from page 781.)

The first check given to the commerce of New Orleans dates from the year 1848, when larger vessels began to be constructed which could carry grain to better advantage. (The average tonnage of American vessels built from 1840 to 1847, was 316 tons; from 1848 to 1852, their tonnage increased to 543 tons, and from 1858 to 1856 their size reached an average of 706 tons.)

The bar at the mouth of the Mississippi closed the port of New Orleans to such large vessels, and this caused the west to seek outlets for her surplus produce at the eastern ports, where lower freights were offered.

This stimulated the construction of railroads from the Atlantic ports to Chicago and Buffalo, and from that time dates the importance of these cities as grain markets, which constantly increased, and soon surpassed that of New Orleans.

This movement continued until 1860, when the secession war cut off New Orleans from all communication with the west, and for several years closed her port completely. Immediately after that period the west, not only increased its railway connections with the east, but it also extended its lines into the southern countries, until a great portion of the inland trade formerly centered in New Orleans, was transferred to St. Louis and other western cities.

At the close of the war the wealth of Louisiana was destroyed. The Confederate bonds and currency were worthless; the emancipation of the slaves left the planters without the means to cultivate their plantations, which, consequently, became unproductive, and, for the time being, without value; and New Orleans found itself nearly ruined and its commerce almost destroyed.

In addition to these misfortunes, it was one of the results of the war that unprincipled and rapacious men obtained control of the government of the State and city. They ruled only for their own profit, loaded the State and city with enormous debts, with exorbitant taxes, contributed to increase the general distress, and frightened foreign capital away from New Orleans. At the same time, the neglected state of the levees caused inundations, damaging the plantations which had begun to be cultivated, while poor crops, and the commercial crisis in the country, tended to retard recovery and discourage the people.

But notwithstanding all these adverse circumstances, New Orleans succeeded in recovering, and in establishing, unaided, a considerable commerce. Turning to the yearly report of 1875–1876, we find that with a banking capital reduced from $20,000,000 to $4,000,000 the Clearing House Association reports the clearances of the year as $426,267,105. The receipts of produce from the interior represent a value of $155,888,802. The foreign importations amount to $11,499,777, besides a considerable importation from northern and coastwise ports, of which the value is not stated.

As a cotton market New Orleans maintains its leading position, the receipts amounting to 1,304,441 bales, being 35¼ per cent of the whole crop raised in the country. The tobacco trade is also reviving, the receipts being 26,671 hhds., while the average annual receipts from 1822 to 1860 were 49,675 hhds., or 80 per cent of the average crops for the twenty-five years ending with 1860. The cost of labor being reduced 50 per cent during the last three years, the sugar culture has become profitable, and in extent may soon equal and surpass that of the past. The rice culture has already attained a development unknown before the war. The last crop was 170,894 bbls., the largest on record, with one exception. The rice lands are not subject to malaria, and the crop being more certain than that of cotton and sugar, a constantly increasing production may be expected. The clearances and entrances at the port are reported for the year ending June 30, 1876, as follows:

| | | |
|---|---|---|
| Entered steam | 420 vessels | 459,987 tons. |
| " sail | 826 " | 444,245 " |
| | | 904,232 tons. |
| Cleared steam | 407 vessels | 459,775 tons. |
| " sail | 845 " | 439,980 " |
| | | 899,755 tons. |

It must be admitted that the above shows that the commerce of New Orleans is already of considerable importance, and the indications of a greater and rapid development in the future are not wanting. In the first place, the political difficulties in the State of Louisiana and in New Orleans are approaching a satisfactory solution. The obstructions at the mouth of the Mississippi are being removed. Captain Eads' jetties have proved a success. A depth of 20 feet 10 inches at low water, has been attained; and your delegates, from a personal examination, entertain no doubt that this depth will soon be increased to 25 feet. When New Orleans has thus become accessible to the larger class of vessels it may confidently expect a revival of its grain export trade.

Besides a floating elevator, the port possesses an elevator situated on the levee, and constructed some years ago by a former resident of Milwaukee who appreciated the importance of New Orleans as a shipping point for western grain. Last year the receipts amounted to 3,739,642 bushels Indian corn, of which 2,691,399 bushels were shipped, for the greater part, to Europe. The merchants of St. Louis stated to your delegates that even with 5d. per bushel higher freight from New Orleans to Liverpool, than from eastern ports to Liverpool, they could ship Indian corn to Liverpool by way of New Orleans as cheaply as by way of the eastern ports, and that they were prepared to send down one and a half millions bushels a month when New Orleans can offer the required shiproom, for which negotiations are now being made with Liverpool.

Measures are also taken to develop the trade with South America. Your delegates were informed that a steamship company is organized to run steamers to Rio de Janeiro, calling at the principal intermediate ports on the north and east coast, and prepared to give through bills of lading to and from western cities and the above ports. The trade of the United States with those South American markets, as reported in 1874, amounted to $27,519,920, of which $17,231,224 represented flour, provisions and other articles produced in the Mississippi Valley, and which can, therefore, be shipped to better advantage from New Orleans than from the eastern ports.

There are many other evidences of an enterprising spirit in New Orleans which are remarkable under the existing circumstances. The organization of a Cotton Exchange, the erection of a cotton press larger than any hitherto in the city, the increasing manufacture of cotton seed oil, which is becoming an article of export, are all facts proving that the people have not lost courage, but are determined to strive with energy for renewed prosperity, as soon as the National Government at Washington shall cease to interfere with State and city government.

It is evident that several years must pass before New Orleans can reap the full benefit of its exceptional position. In the end, however, the great advantage of being the only American port on the Gulf of Mexico accessible to large vessels, and of its location midway between the provision and grain producing west, and the tropical countries of Central and South America, which require those articles in exchange for their special products, must have its effect. And here a word may be said in regard to the theory that trade flows more naturally from west to east, than from north to south. In the instance of the Mississippi Valley, it does not seem true. The natural direction in which the products of that region should seek a market is plainly indicated by the navigable rivers which drain that country, and run from north to south. (See annexed map of products of the Mississippi valley.) Your delegates have shown that trade formerly did take that direction, until the obstruction at the mouth of the Mississippi turned it away from the natural course to the artificial routes running east. When these obstructions are removed, we may confidently expect that a great portion of the western trade will return in its natural course towards the south, if it finds in that direction facilities as great as those offered by the eastern lines.

The New Orleans, St. Louis and Chicago Railroad, running in almost a straight line from Chicago in the north, to New Orleans in the south, offers this facility. The river with its cheaper freights may retain a large portion of the grain trade, during certain seasons of the year, especially from Cairo down, but the current that way will still benefit that portion of the railway lying north of that place. Flour, provisions and other western articles already take the railroad, while the more valuable commodities required by the west in exchange for its produce, can afford to pay a higher freight in return for rapid transportation, and will, therefore, naturally come to the railroad. New Orleans being the nearest port to the countries producing the articles most required by the west, it may be expected that this trade will take that route in preference to the roundabout way of the Atlantic ports and eastern railways. Already the freight carried north from New Orleans by the New Orleans, St. Louis and Chicago Railroad, amounts to 42 per cent of the down freight.

On these several grounds, therefore, your delegates are of opinion that the traffic which will be derived from these lines when united under an efficient management, will not only suffice to pay the Illinois Central Railroad interest on the money it has advanced to them, but will add to the earnings on the Illinois Central Railroad itself, in a direction comparatively new.

The development of the traffic on, and the economical management of these lines requires close and undivided attention. Mr. Osborn proposes to devote his time to this object, with assistance of Mr. J. C. Clarke as General Manager.

Your delegates, therefore, are of opinion, that whilst it is desirable that the line from New Orleans to Filmore, should be worked in close connection with the Illinois Central Railroad, yet, at all events, until its organization is complete, and until its traffic is fully developed, it had better remain as a separate company. The interest which the Illinois Central Railroad holds will give it a controlling power in the management.

### CONCLUSION.

The general conclusion to which the examination of the Illinois Central Railroad and the Southern lines has led your Delegates, may be summed up as follows:

1st. The continuous decline of traffic has been due—

(a.) To the large amount of railroad communication opened in late years in a newly settled country, and to the lines being in the hands of a number of separate companies.

(b.) To the consequent competition between the companies for local traffic.

(c.) To the competition between the east and the west trunk lines, and between these lines and transportation by lake and river.

(d.) This competition has lowered the competitive rates to a point at which they barely cover cost of transportation, and it has moreover affected the rates of all stations in the vicinity of competitive points, and thus the margin of profit has been seriously impaired.

(e.) This state of things was aggravated last year by a failure of crops.

2d. The permanence of the causes depends upon various considerations. So long as numerous separate railroad organizations exist, each of limited extent, they will seek sooner or later to enlarge the area over which they work. If a new source of traffic arises, it is within the reach of so many that each will seek to share it. Moreover, so long as these numerous separate organizations continue they will have a tendency in this increasing country to create new branch lines when the money market is favorable. The best prospect of maintaining remunerative rates, at present, lies in making agreements between the railroad companies for the maintenance of rates, and for division of earnings at competitive points. The absorption of the smaller lines into the systems of the larger companies is what must be looked to as the final settlement of the question of competition between the railroads.

The competition between the east and west railroads and water transportation is not finally settled. The railroads lost money by the low transportation rates which prevailed last summer. And although the vessels formerly on the lakes failed to compete successfully, the conditions have been altered by the system which has been gradually developed of loading the grain into larger barges, each holding from 40,000 to 45,000 bushels; a tug-boat tows an aggregate of from 240,000 to 300,000 bushels, equivalent to over 30 train loads. This requires comparatively a small capital as compared with the large capital which forms a charge against railroad transportation. The State of New York has reduced its charges on the Erie Canal. It would seem impossible that the east and west lines can compete successfully against lake transportation thus carried on during the summer months.

3d. Your delegates are of opinion that the absorption of the Gilman, Clinton and Springfield, and of the eastern section of the Toledo, Peoria and Warsaw Railroads, will be advantageous to the Illinois Central Railroad Company. If favorable terms could be obtained they would advise that the Illinois Central Co. should acquire the Chicago, Danville and Vincennes Railroad: and they think that it would be prudent to acquire the Mineral Point Railroad, if it can be done on favorable terms, to prevent that important feeder from falling into the hands of rival companies.

4th. Although Illinois, with its large agricultural and mineral wealth, must always be the most important portion of the Illinois Central Railroad system, your delegates believe that great advantages are to be expected from the connection with the line to New Orleans. It is certain that the southern States, through which these lines pass, and the port of New Orleans will largely develop their trade and resources, now that the political difficulties are approaching a solution, and that the impediments to navigation at the mouth of the Mississippi are in course of removal. Your delegates would therefore advise that, as soon as all the necessary arrangements can be made, the Illinois Central Railroad and the Southern lines should be operated as a continuous line. But for the present, and until the traffic is developed, the organizations should be kept distinct.

5th. To meet the reductions in revenue resulting from competition, the most persistent economy should be enforced in all branches of the service, without impairing efficiency. Your delegates have every reason to believe that this is being done at the present time.

6th. Under the present conditions of the property in Illinois if the railroad is to have a permanent value it is necessary that the capital expenditure of the company should not be increased, except for matters which produce an actual increase of traffic, such for instance, as new branch lines. It will be highly imprudent to continue the system of charging to capital a portion of the expenditures for works which are merely improvements on an existing state of things. It is, moreover, essential that every effort should be made to reduce the burdens of the company. Therefore the system of placing the receipts from the land department to revenue should be abandoned, and the whole receipts applied to cancelling the redemption mortgage bonds.

Inasmuch as the results of the working of the line for each half year cannot well be determined until a month subsequent to its expiration, your delegates further recommend that the dividends be made payable two months after the expiration of each fiscal half year, and that the dividends be declared at the earliest date consistent with an accurate knowledge of the results of the preceding half year; the fiscal year of the company being understood to terminate, as at present, on the 31st December.

7th. The Illinois Central Railroad is a very valuable property, owing to the conservative policy its directors have pursued, and to the careful and honorable manner in which they have conducted its affairs. For this they deserve the best thanks of the shareholders. But in the altered circumstances of Illinois, it appears desirable that some modification of this policy should be made, and your delegates would suggest that as favorable opportunities occur a greater control should be obtained over the local lines of traffic of the district.

8th. Since the resignation of Mr. Douglas last summer the company has been without a President. Mr. Osborn has acted as Managing Director, and has visited the line at intervals. Mr. Ackerman, first Vice-President of the company, has had immediate charge of the line.

The Illinois Central Railroad has been especially indebted to Mr. Osborn for the able manner in which he conducted its affairs during his Presidency, and also since he resigned that office in

1866, for the invaluable assistance he has continued to render it for many years. Your delegates would have been well satisfied if Mr. Osborn had consented to resume the presidency, but he has informed them that not only can he not do so, but that he intends to give up his seat at the Board in May. He will, however, take charge of the southern lines.

Your delegates have learned that there are other directors who propose to retire. A convenient opportunity is therefore afforded for considering what will be the best arrangements in the interests of the shareholders for filling the vacancies and for strengthening the management of the line.

It appears necessary on many grounds that the seat of the board should be in New York. After a careful consideration of the difficulties to which the company is exposed at the present time from competition and from the changes of local conditions to which that competition is daily exposed, your delegates feel that it is of the greatest importance that some members of the board should be personally interested in the district through which the railroad passes, and conversant with its wants. They are therefore of opinion that eventually at least three members of the board should consist of persons resident in the west, and that two board meetings in the year should take place in Chicago. From enquiries your delegates have made, they have reason to believe that one or more very eligible residents of Chicago, in addition to officers of the company, could be found at once to serve in this capacity. Your delegates would, however, propose that Mr. Ayer, the legal adviser of the company in Chicago, and Mr. J. C. Clarke, formerly General Manager, and now Second Vice President of the line, be elected members of the board. The members of the board resident in the west should form an Executive Committee, to have charge of the operation of the line and be responsible to the board for their proceedings. The additional vacancies in the board should be filled by members resident in New York, who would be willing to devote a portion of their time every year to visiting the railroad, and who would be expected to attend the board meetings in Chicago. Your delegates would suggest that if the services of persons qualified for these duties can only be secured by payment of a small salary, it will be for the interest of the company to pay a salary, or give adequate remuneration in some suitable form.

Your delegates have devoted much consideration to the question of the appointment of a President. It is not always easy to find energy and capacity united with a conservative policy, such as have proved the safeguard in past years of the Illinois Central Railroad, a policy which your delegates think should be still pursued, carefully modified in the way they have pointed out. There is yet another consideration. The officers of the company are now fully alive to the policy which should be pursued to meet the competition to which the line is exposed. The battle has to be fought on details. Success depends upon selecting and pursuing the best course at each separate competitive point, and upon enforcing economy in details of management.

It is, moreover, advisable that the development of the southern lines should be pursued in complete harmony with the management of the Illinois Central.

Upon these several grounds, therefore, even if they had been able to find some new man possessing the necessary qualifications, they would have hesitated to recommend at the present time a change which would place the management of the railway in new hands.

They recommend that the question of the selection of a President should stand over till the southern lines are thoroughly organized; and they believe that for the present, the interests of the company will be best served by retaining Mr. Ackerman as Vice President in the charge of the railroad at Chicago. He would be assisted and the management strengthened by the Executive Committee they have proposed, and by the following further arrangements; the removal of Mr. J. C. Clarke from the post of General Manager of the I. C. R. R. to take charge as General Manager of the Southern lines (although he will retain a general supervision of the I. C. R. R., as a member of the Board and Second Vice President), renders it necessary that the vacancy should be filled without delay. The General Superintendent, Mr. Joseph F. Tucker, was appointed temporarily to succeed Mr. Clarke as General Manager, but he has not taken up the appointment. Mr. Tucker possesses remarkable capacity for, and knowledge of all questions relating to freight traffic and competitive rates. His removal from the department relating to these questions would, we believe, be a serious evil at the present time when the branch requires to be strengthened. Your delegates, propose therefore, that Mr. Joseph F. Tucker be appointed, under the title of Master of Transportation to the sole charge of matters pertaining to the freight traffic.

A responsible General Manager should also be at once appointed to assist Mr. Ackerman.

Your delegates would further recommend that for the present a Chairman of the Board of Directors be appointed to exercise a general supervision over the property of the company and to visit the line at intervals.

In conclusion, while it is clear that the large amount of competition to which the I. C. R. R. is subjected renders it certain that for the time a lower dividend than those paid in recent years should be expected, your delegates have no doubt that by means of a watchful and economical administration, regular dividends will accrue to the shareholders.

The reduction of expenses in the first four months of this year will, in spite of reduced traffic, give a net result of about $600,000 during that period, which is equivalent to the interest on the bonds, and leaves the earnings of the remaining eight months applicable to dividends.

NEW YORK, April 27, 1877.

DOUGLAS GALTON,
HENRY J. DE MARES OYENS.

RECEIPTS AND DISBURSEMENTS SINCE ITS ORGANIZATION TO THE 31ST DECEMBER, 1876.

☞ A new company, called the Thurston County Railroad Company, has been organized in California to complete the Olympia and Tenino Railroad. At a recent meeting of the directors it was resolved as soon as possible after the completion of their railroad from Olympia to Tenino, to extend the same to the nearest navigable point on the Chehalis river.

☞ The suits brought by some of the holders of the first mortgage bonds of the Wabash Railway Company, have, it is announced, been amicably adjusted, and accordingly the suits have been withdrawn, and the coupons of the dissenting bonds are to be funded.

### Profits Used in Construction.

RECOVERY BACK OF INCOME TAX ON RAILROAD PROFITS OR EARNINGS USED IN BUILDING A NEW BRIDGE.

The following decision has been rendered by the Supreme Court of the United States:

No. 86.—Henry A. Grant, Collector, &c., vs. The Hartford and New Haven Railroad Company.—In error to the Circuit Court of the United States for the District of Connecticut. This action was brought by the Hartford and New Haven Railroad Company against Henry A. Grant, the Internal Revenue Collector of the First District of Connecticut, to recover back the sum of $2,785 65 income tax, and $139 28 penalty paid to him under protest in January, 1868.

The controversy arose upon the question of the company's income for two fiscal years, ending Aug. 31, 1867. During that period they expended from their earnings $55,712 60 in constructing over the Farmington River, at Windsor, a new stone bridge, to be used in place of a wooden bridge which was deemed insecure, and charged the amount to current expenses. The Assessor of Internal Revenue for the district, insisted that this sum should have been charged to account of construction, and was fairly to be regarded as "profits used in construction," within the meaning of the one hundred and twenty second section of the act of June 30, 1864; and, therefore, he made a special assessment of the amount. The company having appealed to the Commissioner of Internal Revenue without effect, this action was brought. A jury being waived, the cause was tried by the court, which found specially an agreed statement of facts.

From this it appears that the amount charged to current expenses during each of the two years in question (including together the said sum of $55,712 60) was not greater than the proper ordinary current expenses and depreciation of the entire property; and that the company returned the entire balance of their gross earnings over and above said expenses in the shape of dividends and surplus, and paid the regular tax thereon. We do not see why this was not a full compliance with the law.

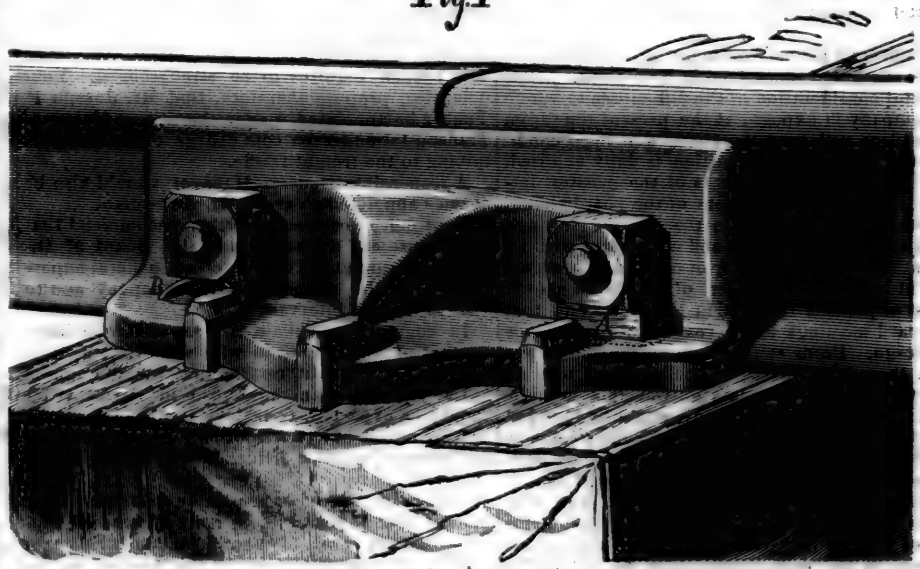
The object of the law was to impose a tax on net income, or profits only, and that cannot be regarded as net income, or profits, which is required and expended to keep the property up in its usual condition proper for operation. Such expenditure is properly classed with repairs, which are a part of the current expenses.

If a railroad company should make a second track when they had but a single track before, this would be a betterment or permanent improvement, and, if paid out of the earnings, would be fairly characterized as "profits used in construction." The works of the company would have an additional value to what they had before, with an increased capacity for producing future profits. This kind of expenditure is what Congress meant to reach when, in the one hundred and twenty second section referred to, it imposed a tax not only on the dividends of every railroad, canal, and turnpike company, but also on "all profits of such company carried to the account of any fund or used for construction."

The counsel for the Government insists that this bridge was a betterment, because it was much more valuable than the old wooden bridge. But the Assessor did not include the excess merely; he assessed the whole expenditure bestowed upon the new bridge without making any allowance for the old one. His idea seems to have been that all the earnings used in new constructions are made taxable by the act without reference to betterments, or to their being substituted for other constructions. Indeed, his assessment is not for "profits used in construction," but for "earnings used in constructing new Windsor Bridge—$55,712 60." In this view he was decidedly wrong.

Earnings expended on a new structure may or may not be profits. Whether they are or not depends on other things to be taken into account besides the mere fact of such expenditure.

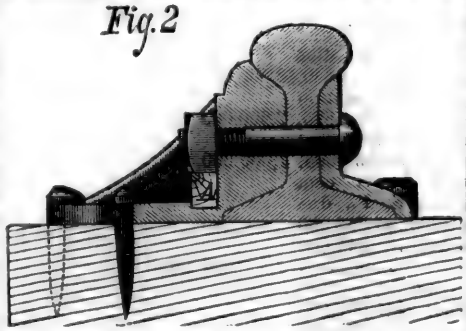
Had the assessment been merely for the increased value of the new bridge over the old one when in good repair, the case might have admitted of a very different construction. Affirmed.



Mr. Justice Bradley delivered the opinion.

### Nicholl's Railroad Joint and Nut Lock.

We illustrate herewith a novel railroad joint and nut lock. The object of the device is to support the ends of the rail, keeping them from spreading or turning over, and at the same time furnishing abundant material opposite the joint to compensate for separation of the rails. As the appliance is made to fit closely, two bolts are done away with. The inventor states that the joint would be safe without any bolts on the same section of rail. The nut lock provided is cheap and simple, and may be either a wooden or iron key, or a spring, placed as described further on.



The shape of the device is clearly shown in Fig. 1. As the sectional view, Fig. 2, indicates, it is

*Fig. 1*

especially well adapted to the old pear-head rail, a form which has gone almost entirely out of use from the fact of its being too low to admit of fish plates and bolts, as commonly employed. The inventor considers that there is no better shaped rail than this, both for durability and strength; and he claims that, in connection with the joint here described, the pear-head rail will be as smooth to ride over as any of the fished rails. The engraving shows that the pear head rail, being nearly an inch lower than the ordinary T rail, the leverage will be much less. The inventor further adds that a mile and a half of track, provided with his joint, has been laid, and that the riding thereon is exceptionally smooth. It is not deemed necessary to minutely describe the form of the invention, as it is plainly apparent from the engravings. It is moulded and matched to the rail. It requires no spikes in the flange of the rail, which, with the ordinary fish joint, are very necessary to keep the rail from creeping. In this way the full strength of the flange is retained. The nuts are locked by driving under them a wooden or iron key, as shown at A, Fig. 1, the same fitting down into a channel in the brace, or by adapting a steel bent spring, at shown at B. This device is applicable to ordinary fish joints by having a small protection rolled on the outside plate to hold wooden plugs or keys.

*Fig. 2*

Patents for both brace and nut lock pending through the Scientific American Patent Agency. For further particulars, address the inventor, Mr. T. J. Nicholl, Chief Engineer Gilman, Clinton and Springfield Railroad, Springfield, Ill.

### Scandinavian Railways.

From an official statistical table, published in Sweden, it appears that in 1875 the length of the Scandinavian railroads opened for traffic was 5,255 kilometres (3,285 miles.) of which 3,540 kilometres lay in Sweden; and the capital sunk in them was 544,440,000f. (£21,778,000,) of which 352,410,000f. (£14,096,000) was in Sweden. The receipts of the year may be thus tabulated:

| | Sweden. | Norway. | Denmark. |
|---|---|---|---|
| Passengers | £482,000 | £80,000 | £818,000 |
| Goods, cattle, etc... | 905,000 | 123,000 | 229,000 |
| Other sources | 29,000 | 8,000 | 23,000 |
| Total | £1,416,000 | £211,000 | £565,000 |
| Expenses | 890,000 | 163,000 | 339,000 |
| Net | £526,000 | £48,000 | £226,000 |

☞ At a special meeting of the Middlesex Horse Railroad Co., held in Boston on the 25th inst., it was unanimously voted to authorize the Directors to issue $200,000 six per cent. coupon Bonds, having twenty years to run, interest payable July and January, for the purpose of funding all the floating indebtedness of the Company. It was stated at the meeting that the business of the Company was never so large as at the present time, nor were its net receipts ever so large as at the present time.

### Financial and Commercial Affairs.

Money is without important change, the supply available here to responsible borrowers running, as for a long time past, largely ahead of the requirements of business, whether at the Stock Exchange or in other lines. The demand from all sources is on a moderate scale, and is promptly met by lenders at the low quotations which recently have been the rule in the open market. Call loans have been quoted here at 1@2½, with most of the important negotiations reported on the basis of 1½@2 per cent; and very choice to prime mercantile credits are rated at 3 @4½, mainly 3@3½ per cent per annum. The City banks, last week, reported a further increase in their legal tender and another reduction in their specie reserves, with a moderate contraction of their circulation. The loan and discount item was again cut down slightly, and the deposit average enlarged moderately. The loan and discount average shows a falling off of $271,000. The item of circulation was reduced $205,000, and of deposits augmented $650,800. The legal tender reserve was enlarged $1,892,000; and the specie average diminished $2,143,100.

The City banks reported their average of gold last week at $16,209,000, as against $14,900,400 same date last year; and their greenback average at $58,255,600, as against $54,204,100 on June 24, 1876. Their deposits stood at $223,316,100, against $208,751,800 same time in 1876. The loan item was $250,416,500 against $248,397,400 a year ago.

The City bank net reserve of specie and legal tender notes now shows an excess over the legal

requirement of reserve to liabilities of $18,635,574, as against $18,352,100 the preceding week, $9,039,775 the week ending 14th April (the lowest footing of this item thus far in the current year,) and $24,781,800 on January 27 (which latter was the highest aggregate reached this year.) The City bank exchanges in currency reached $365,825,913, or a daily average of $60,970,985.

The U. S. Sub-Treasury in this city closed the week ending on Wednesday with a currency balance of $49,026,196, against $48,331,381 the preceding week; and a coin hoard of $86,154,027, against $79,887,471 on the return of a week earlier. The Customs revenue of the port during the past week was $1,256,000.

The aggregate of the outstanding U. S. currency of all denominations, June 1st, was $381,684,573. The outstanding amount of legal tender notes is $360,412,580. The National bank circulation is now $316,550,415 of currency notes and $1,423,625 of national gold bank notes.

National Bank notes received at the Treasury Department last week for redemption were to the amount of $6,851,000.

The income of the Government from internal revenues last week was about 2¼ millions, and since July 1, 1876, about 119¾ millions; and from Customs last week about 2⅛ millions, and since July 1, 1876, about 126 millions.

On Wednesday of this week the cash balances of the Treasury Department at Washington were: of Currency, $6,403,238; special deposit of legal tenders for the redemption of certificates of deposit, $55,790,000; Coin, $106,889,040, including of Coin certificates, $43,627,600.

The Gold speculation opened stronger, partly under the war news from Europe, but subsequently weakened, and left off heavily. The dealings were on a more liberal scale, early in the week. The export movement has been moderate, and the Customs drain light. The extremes of the price during the week have been 105⅛@105¾, closing at 105⅛, as against 105⅜ on Wednesday of the preceding week. The lowest point yet touched was 104¼, on Friday, March 2d. The specie outflow last week was $1,268,000, (of which $210,000 to London, $510,000 to Liverpool, $250,000 to Southampton, $166,600 to Havre and $27,000 to Hamburgh,) making the total exports of specie hence since January 1, $18,456,829, against $28,580,481 the same time in the preceding year. The imports of specie at this port last week were $57,192, (of which were $52,000 from Havana,) and since January 1st $7,262,589 as against $2,167,959 same time last year. The Customs demand for gold last week averaged only $209,333 per day. Foreign Exchange has been rather more sought after, especially toward the close, leaving off more firmly. Bankers' sixty day bills on London closed on Wednesday at $4 87⅛@$4 87¼; sight bills on London at $4 89⅛@$4 90 to the £ sterling. The week's imports of Dry Goods and general merchandise were to the specie value of $6,184,258 as against $4,492,551 the corresponding week of 1876. The week's import entries of Foreign Merchandise at New York included $926,628 of Dry Goods and $5,257,630 of General Merchandise. The week's exports of Domestic Produce and Miscellaneous Goods from this port were $5,711,029, against $6,674,504 same week in 1876.

Government securities have been fairly active, but quoted variable as to price, influenced in part by the fluctuations in Gold. At the close the market was quoted firm, leaving off on Wednesday as follows:

United States currency sixes, 122¾@123¼; do. 6s, 1881, registered, 110⅝@110⅞; do. coupon, 114⅝@114¾; do. 1865, new, registered, 106⅜@106⅝; do. coupon, 109½@109⅝; do. 1867, registered, 109@109¼; do. coupon, 112⅜@112⅝; do. 1868, registered, 111½@111¾; do. coupon, 115@115½; do. ten-forties registered, 112@112¼; do. coupon, 112½@112¾; do. five per cents 1881, registered, 110¾; do. coupon, 110⅞; do. 4½ per cents, 1891, registered, 108¼@108½; do. coupon, 108¼@108½; Central Pacific Gold bonds, 109¾@110¼.

The amount of U. S. bonds held by the Treasurer of the United States, as security for the National Bank circulation, is $339,160,600, and $18,866,000 as security for public deposits.

State and Railway bonds have been generally quiet since our last, but the more substantial loans have been quoted firm. And in the line of Railway and Miscellaneous share property business has been fairly active, fluctuating considerably in price from day to day, but closing firmly.

A somewhat freer movement has been reported in general business mainly in Breadstuffs, Provisions, Naval Stores and Petroleum, but prices have been unsettled, closing as a rule with more steadiness for domestic produce. Foreign merchandise has been comparatively tame, with values, however, showing no marked alteration.

Hardware and Boots and Shoes have been in quite moderate request; while Dry Goods have been attracting more attention. Prices have been unsettled.

In the line of Metals, recent movements have been light with prices quoted weak and irregular. Eglinton Pig Iron quoted at $25 50; Glengarnock $27 50; Coltness $28 50 @$29; No. 1 American Pig at $18 @$19; No. 2 do. at $17@$18; Forge $16@$17; American Rails at works $33@$37; Old Rails $18 @$19. Wrought Scrap $22@$25. Steel Rails, on the basis of $46@$50 at the mills. Ingot Copper quoted 19⅛@19¼ for early delivery.

The Ocean freight market has been more active, and rates have shown more steadiness. The business has been mainly in the line of Petroleum, Grain, Provisions, Naval Stores, and Cotton shipments. Liverpool steamer rates at the close for Grain, 5d. per standard bushel. Provisions, 25s. @50s.; Tallow, 25s.@30s.; Leather, 50s. Measurement Goods at 20s.@25s. per ton; Cotton, 1-64d. per lb., Liverpool, by sail. Cotton, 5/32d. Grain, 4½@5d. Oil Cake and Slate, 12s. 6d.@15s.; Measurement Goods 10s.@12s. 6d.; Tobacco 25s. Grain rates on charter hence for Cork and orders left off at 4s. 6d.; for the Continent, at 5s. 3d. and from Baltimore for Cork and orders, 4s. 6d.@4s. 7½d. and from Philadelphia at 4s. 6d. per quarter. Refined Petroleum hence for Cork and orders, 4s. @4s. 3d.; for the Continent, 3s. 6d.@4s. per bbl. And for Liverpool by steam, from Chicago, of through freight, Provisions, at 58c. via Boston and Philadelphia, per 100lbs.

At the Auction sale of Scranton Coal, on Wednesday of this week, prices were generally lower—ranging from $2@$2.57½ per ton, deliverable at Hoboken, in July.

The following quotations of sales of Railway and other securities are in addition to those given elsewhere in our columns:—

*New York.*—Nashville, Chattanooga and St. Louis 1st mort., 84⅝; Cleveland and Toledo 7s, new, 108¼; Winona and St. Peter 2d mort., 65; Chicago, Burlington and Quincy 5s, S. F., 90½; Missouri, Kansas and Texas consol, S. F., bonds, assented, 55; Wabash R. R. Purchasing Committee Receipts, 1¼; Rensselaer and Saratoga R. R., 90; Ontario Silver Mining, 21¼; Maryland Coal, 10; Pennsylvania Coal, 125; Louisiana 7s, consol., 82½; Missouri 6s, long bonds, 109; do. 6s, Fund., 1894-'95, 110; North Carolina 6s, old, Jan. and July, 19½; Georgia 7s, new, 109; Missouri 6s, H. and St. J. issue, 1886, 108½; Ohio, 6s, 1886, 112; Tennessee 6s, old, 44; do. new, 43½. The latest quotations are: Adams Exp., 94@95½; American Exp., 44@45; Atlantic and Pacific Telegraph, 19¾@20⅛; Central Railroad of New Jersey, 6¼@6⅞; Chicago, Burlington and Quincy, 97½@—; Chicago and Alton, 79@—; do. pref., 100@—; Chicago and Northwestern, 19¾@19⅞; do. pref., 44⅛@44⅝; Chicago, Milwaukee and St. Paul, 18½@18¾; do. pref., 49¼@49½; Chicago, Rock Island and Pacific, 92@92⅛; Cleveland, Columbus, Cincinnati and Indianapolis, 22¾@—; Cleveland and Pittsburg, 74@74⅛; Columbus, Chicago and Indiana Central, 1⅝@1⅞; Consol. # FISK & HATCH,

## Bankers,

No. 5 Nassau St., New York.

U. S. Government Bonds bought and sold in amounts to suit investors : also, Gold, Silver and foreign coins : Deposits received in Currency or Gold, and interest allowed on Balances : Special attention paid to Investment Orders for Miscellaneous Stocks and Bonds.

Office of the Central Pacific Railroad Co., No. 9 Nassau St., New York, June 29, 1877.

THE COUPONS OF THE FIRST MORTGAGE Bonds of the Central Pacific Railroad Company, the Western Pacific Railroad Company and the California and Oregon Railroad Company, due July 1, 1877, will be paid in gold at the office of FISK & HATCH, No. 5 Nassau street. Holders presenting ten or more coupons will leave them for examination, in which case a receipt will be given and payment made on the following day.

C. P. HUNTINGTON,
Vice-President.

**Ohio Falls, Terre Haute and St. Louis R. R.**

Articles of association of the Ohio Falls, Terre Haute and St. Louis Narrow-gauge Railroad Company were filed at Indianapolis on the 11th inst. The capital stock is $1,000,000, in shares of $50 each. The privilege of increasing said sum, from time to time, to a sum equal to the cost of constructing the railroad is reserved. The directors are D. F. Whitcomb, J. H. Gardner, W. H. Irwin, E. B. Whitcomb, W. H. Ongley, E. Camp, F. Miller, and Samuel Cover. The line commences near the falls of the Ohio, county of Clark, thence through the counties of Floyd, Scott, Washington, Jackson, Lawrence, Green, Owen, and Clay, and terminating at Terre Haute, a distance of 150 miles, with a branch road commencing at some point of the main line, county of Washington, running through the counties of Washington, Orange, Martin, Daviess, and Knox, in the State of Indiana, to East St. Louis, a distance of 250 miles, with another branch road leading from some point on the main line in the county of Jackson, running to Brownstown, a distance of 15 miles, said railroad to have a total length of 415 miles.

☞ The earnings of the Philadelphia and Erie Railroad for the month of May, 1877, were $260,590 73, the expenses $189,432 20, and the net earnings $71,158 53.

☞ The Central Railroad of Iowa is to be sold under a decree of foreclosure obtained by the Farmers Loan and Trust Company, at Marshalltown, on the 18th of July next.

**Steam Cars on Third Avenue.**

The following resolution was passed by the Board of Aldermen on the 26th inst. relative to the permission asked for by the Third Avenue Railroad Company :

Resolved, That permission be and is hereby given to the Third Avenue Railroad Company and to the Fordham and Harlem Bridge Railroad Company to employ steam as a motive power for the traction of their cars, not to exceed five each in number, as an experiment, which shall be tried under the direction and supervision of a special committee of five of the Board, who shall designate the times and places when such experiments shall be tried ; and the said committee are hereby required to report to this Board as soon as practicable the results of the experiments so to be made, together with such suggestions or recommendations as they may find necessary to enable the Common Council to arrive at a conclusion as to the practicability of a permanent use of steam on said railroads, or that they may deem of interest to the public ; and be it further

Resolved, That all cars so used experimentally on said railroad shall contain a certain number of seats, separated one from the other, and when all are occupied the said cars shall not stop or take up any passengers until one or more of said seats shall have been vacated. When all the seats are so occupied a placard shall be placed in a conspicuous position on the outside of every such car, inscribed with the word "full." When vacancies occur it shall be taken down by the conductor. This permission to continue only during the pleasure of the Common Council.

**Eastern (N. H.) Railroad.**

The Supreme Court for Rockingham county, N. H., has appointed George A. Ramsdell of Nashua referee in what is known as the Eastern Railroad controversy. There is pending an information and bill in equity. The former was brought by the State in the nature of a *quo warranto*, and the latter by several stockholders of the Eastern Railroad in New Hampshire, asking the Court to declare the lease of this branch to the Eastern Railroad Company void. The annual meeting of the Eastern Railroad is to be holden in Portsmouth on the 10th of July. The stockholders will vote upon the question to amend article 8 of the by-laws of the corporation, relative to the number of votes to which the stockholders are entitled, so that it may be in accordance with the existing laws of the State on that subject. The Portsmouth, Great Falls and Conway Railroad will also hold their annual meeting in Portsmouth on the same date.

☞ The Western Railroad of Minnesota having succeeded to all the rights, titles and franchises of the St. Paul and Pacific Railroad Company, on the 29th ultimo commenced work at Brainerd, which is to be pushed right along until completed at the time specified in the contract, September 15. This road will give Minnesota direct communication with the great Valleys of the Red River of the North and the Missouri, and shorten by about 109 miles the route to the Black Hills via St. Paul and Bismarck.

☞ The partly graded road bed and the property of the Plymouth, Kankakee and Pacific Railroad company were sold by a master in chancery at Momence, Ill., on the 12th of June, and purchased by Mr. John C. Cushman, in behalf of certain bondholders, for $4,000. The engineer of the road has a claim of several thousand dollars for building it and notified the mortgagees that they had no claim.

**Chicago, Burlington and Quincy Railroad.**

THE POWER OF THE LEGISLATURE OF THE STATE TO REGULATE THE CHARGES UNDER ITS CHARTER AFFIRMED.

The following decision has been rendered in the Supreme Court of the United States:

No. 324.—The Chicago, Burlington and Quincy Railroad Company, appellant, vs. M. E. Cutts, Attorney General, etc., et al.—Appeal from the Circuit Court of the United States for the District of Iowa.

Railroad companies are carriers for hire. They are incorporated as such and given extraordinary powers in order that they may the better serve the public in that capacity. They are, therefore, engaged in a public employment affecting the public interest, and, under the decision in Munn & Scott vs. The People, just announced, subject to legislative control as to their rates of fare and freight, unless protected by their charters.

The Burlington and Missouri River Railroad Company, the benefit of whose charter the Chicago, Burlington and Quincy Railroad Company now claims, was organized under the general corporation law of Iowa, with power to contract in reference to its business, the same as private individuals, and to establish by-laws and make all rules and regulations deemed expedient in relation to its affairs, but being subject, nevertheless, at all times to such rules and regulations as the General Assembly of Iowa might from time to time enact and provide. This is in substance its charter, and to that extent it is protected as by a contract, for it is now too late to contend that the charter of a corporation is not a contract within the meaning of that clause in the Constitution of the United States which prohibits a State from passing any law impairing the obligation of a contract. Whatever is granted is secured subject only to the limitations and reservations in the charter or in the laws or constitutions which govern it. This company, in the transaction of its business, has the same rights and is subject to the same control as private individuals under the same circumstances. It must carry when called upon to do so, and can charge only a reasonable sum for the carriage. In the absence of any legislative regulation upon the subject the courts must decide for it, as they do for private persons when controversies arise, what is reasonable; but when the Legislature steps in and prescribes a maximum of charge it operates upon this corporation the same as it does upon individuals engaged in a similar business. It was within the power of the company to call upon the Legislature to fix permanently this limit and make it a part of the charter, and if it was refused, to abstain from building the road and establishing the contemplated business. If that had been done the charter might have presented a contract against future legislative interference. But it was not, and the company invested its capital, relying upon the good faith of the people and the wisdom and impartiality of legislators for protection against wrong under the form of legislative regulation. It is a matter of no importance that the power of regulation now under consideration was not exercised for more than twenty years after this company was organized. A power of government which actually exists is not lost by non-user. A good government never puts forth its extraordinary powers except under circumstances which require it. That government is the best which, while performing all its duties, interferes the least with the lawful pursuits of its people.

In 1691, during the third year of the reign of William and Mary, Parliament provided for the regulation of the rates of charges by common carriers. This statute remained in force, with some amendment, until 1827, when it was repealed, and it has never been re-enacted. No one supposes that the power to restore its provisions has been lost. A change of circumstances seemed to render such a regulation no longer necessary, and it was abandoned for the time. The power was not surrendered; that remains for future exercise when required. So here, the power of regulation existed from the beginning, but it was not exercised until in the judgment of the body politic the condition of things was such as to render it necessary for the common good.

It is held that it does not affect the case, that before the power was exercised the road had been leased and its income pledged to the payment of its debts, and that as the road was wholly within the State the latter had full power in the absence of legislation by Congress. It is also held that the statute is not in conflict with the constitution of the State concerning the privileges of citizens. Affirmed.

The Chief Justice delivered the opinion.

**Arkansas Coal.**

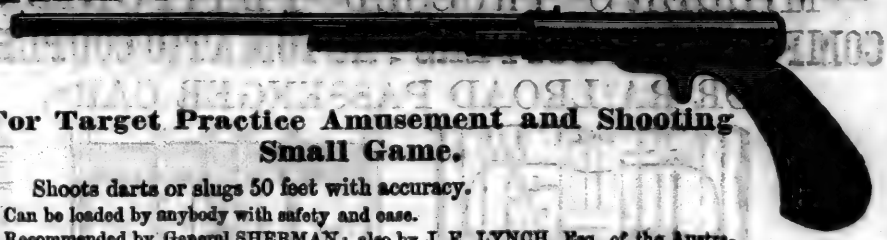
The recently published report of the Little Rock and Fort Smith Railway Company contains the following account of the coal along its line, which, as will be seen, is a deposit of great value:

During the past few months a thorough examination of the coal fields adjacent to the road of the company has been made by Walter S. Sheafer, Esq., a well-known mining engineer, of Pottsville, Pennsylvania, whose report both as to the quantity and quality of the coals underlying a portion of the lands of the company, as well as to the cost of mining the same, is so positive and favorable that the directors have decided, with the approval of the bondholders, to take the necessary steps at the earliest practicable day for opening mines under the supervision of Mr. Sheafer at various points upon the lands of the company, and for introducing these coals to the markets of the southwest. The attempts which have heretofore been made by individual operators to open and work mines near the line of the road have failed from a variety of causes, not the least among which may be mentioned the combined want of knowledge, skill and capital on the part of the operators. An accurate analysis of these coals shows that as regards the amount of fixed carbon, ashes and volatile matter contained therein, they differ only from one to three per cent from the celebrated coals of Lykens Valley, Pennsylvania; and when it is borne in mind that no other coals of a similar character have as yet been discovered west of the Alleghanies, and that they are far superior to the ordinary block and bituminous coals of the Western country for generating steam as well as for domestic uses and for smelting and reducing ores, it is believed that a business largely remunerative to the company, both as carriers and miners, will be developed from their own lands as soon as the manufacturers and miners of Missouri and Tennessee, the owners of the numberless boats plying the water of the Mississippi, and the citizens generally of the southwestern States can feel assured that these coals will be supplied to them at all times and seasons, in any quantities desired, and not as hitherto for purposes of experiments.

☞ It is stated that the management of the Philadelphia and Reading Railroad Company have made arrangements to meet all its financial engagements maturing during the month of July according to propositions recently issued. These payments will include over a million of dollars in cash for the payment of interest and rentals on leased lines. It is considered probable that Mr. Franklin B. Gowen, president of the Company, now in Europe, will not return before the latter part of next month. The matter which he has in charge abroad, it is claimed, is progressing as prosperously as can be desired.

**Anacosta (Washington) Railway.**

The Anacosta railway was completed on the 22d inst. to the corner of M and Seventh streets southwest, which it is proposed to make the present terminus of the route. It now runs from near the marine barracks in an almost direct line west to the Potomac river, at the point named. The company is authorized by the charter to extend the road along Water street (the river front) to Eleventh street; thence by B street to Twelfth street, and thence by Twelfth street, D street and Fifteenth street to Pennsylvania avenue, near the treasury gates, where the west terminus of the road will be fixed. The company is also authorized to extend a branch of their line from Twelfth street along Louisiana avenue to the south side of Pennsylvania avenue to a point near Centre market. It is not expected that the latter portion of the route will be completed as yet, but cars will be placed at once on the road from the Ferry wharf to the navy yard, and whence the Anacostia cars now run to Uniontown.



☞ Mr. John Cook, the head of a large locomotive manufactory, does not regard the outlook for that industry as at all promising. He estimates that 15,000 locomotives are used in the United States, and that only 5 per cent. or 780 engines are needed annually to keep this number good, whereas the American shops have a capacity to manufacture 2500 a year. On the other hand it should be remembered that Mr. Cook left out of his estimates the engines exported. Canada, Mexico, South America and Australia now buy American engines, and will buy many more if builders compete for the business.

☞ It is stated on the authority of the President of the Massachusetts Central Railroad Company that contracts have been executed with Mr. Matthews and others for the purchase of all the outstanding bonds of the company. A new contract has also been executed between the company and Mr. Munson for the completion and equipment of the railroad within twelve months from the date of commencing work, and it is expected work will be commenced before the end of the summer months.

☞ The County Court of Hardy county, West Va., has ordered an election to take the sense of the tax payers and voters of Moorefield and South Fork districts on the question of a subscription being made for each of said districts of $15,000 to the capital stock of the South Branch railroad, said election to take place on the 7th day of August. The South Branch railroad is to tap the Baltimore and Ohio railroad near Green Spring.

☞ At the annual meeting of the Camden, Gloucester, and Mt. Ephraim Railroad Company, held at Gloucester, N. J., on the 25th inst., the following gentlemen were elected directors: David S. Brown, George A. Heyl, Samuel Chew, William Sexton, James B. McFarland, Frank F. Michellon, Henry N. Paul, Henry F. West, John R. Grubb, Zophar C. Howell, James E. Hays.

# THE CHAMPION AIR PISTOL.

**For Target Practice Amusement and Shooting Small Game.**

Shoots darts or slugs 50 feet with accuracy.

Can be loaded by anybody with safety and ease.

Recommended by General SHERMAN; also by J. F. LYNCH, Esq., of the Australian Rifle Team.

PRICES.

Black.....$5 00. Nickel Plated.....$6 00.
Nickel Plated Rosewood Handle..... ... ... 7 00.

Each pistol is put up in a neat box with a skeleton gun stock, 6 Darts, 100 Slugs, 6 Targets, a Ramrod, Claw and Wrench.

Sent by Express C. O. D., or by mail at the risk of parties ordering, on receipt of price, and 40 cents additional for postage.

### The Coal Trade.

The total tonnage for the week ending on the 16th instant, as reported by the several carrying companies, amounted to 469,914 tons, against 464,170 tons in corresponding week last year, an increase of 5,744 tons. The total amount of anthracite mined for the coal year is 8,617,084 tons, against 7,039 687 for same period last year, an increase of 1,577,397 tons. The quantity of bituminous coal sent to market for the week was 74,004 tons, against 73,886 tons for corresponding week last year, an increase of 117 tons. The whole bituminous tonnage from the beginning of the coal year is 1,429,350 tons, against 1,464,372 tons in corresponding time last year, a decrease of 35,013 tons. The total tonnage of all kinds of coal for the week is 543,917 tons, against 538,056 to corresponding date last year, an increase of 5,861 tons, and the total tonnage for the coal year is 10,046,443 tons, against 8,504,059 tons, to same date last year, an increase of 2,542,384 tons. The receipts at Perth Amboy for the week ending on the 16th instant were 24,186 tons, the shipments 27,427 tons, leaving a stock on hand of 121,286 tons. The quantity of coal and coke carried over the Pennsylvania Railroad for the first week in June was 86,639 tons, of which 70,269 tons were coal, and 16 870 tons coke. The total carried for the year is 3,062 548 tons, of which 1,672,652 tons were coal and 400,214 tons coke. These figures embrace all the coal carried over the road, east and west.—*Phila. Ledger, June 25.*

### Philadelphia and Reading Railroad.

On and after July 2, 1877, the Philadelphia and Reading Railroad Company will be prepared to issue, at its office, in Philadelphia, coupon certificates of scrip bearing interest at the rate of six per cent. payable semi-annually, for the ten coupons beginning with and including the coupon due July 1, 1877, on the following series of bonds:

PHILADELPHIA AND READING RAILROAD COMPANY.

6 per cent. Debenture Loan, 1868-1893.
7 per cent. Convertible Loan, 1870-1890.
7 per cent. Convertible Loan, 1873-1893.

PHILADELPHIA AND READING COAL AND IRON COMPANY.

7 per cent. Debenture Loan, 1872-1892.

SCHUYLKILL NAVIGATION CO.

6 per cent. Mortgage Loan, 1870-1895.

SUSQUEHANNA CANAL CO.

6 per cent. Mortgage Loan, 1859-1878. (Extended to 1918)
7 per cent. Mortgage Loan, 1872-1902.

The coupons detached from the bonds of the Philadelphia and Reading Coal and Iron, Schuylkill Navigation, and Susquehanna Canal Companies will be held by the Philadelphia and Reading Railroad Company in trust for the holders of the scrip until the scrip is paid.

As the funding system applies to not less than five years interest on each of the above named issues of bonds, scrip cannot be issued for less than the full number of the coupons.

Upon the presentation of the coupon due July 1, 1877, of the GENERAL MORTGAGE BONDS (1874-1908), stamped in accordance with the London arrangement, one-half of the coupon will be paid in cash. As the interest upon the Philadelphia and Reading Coal and Iron Company's debentures matures on the 1st of September, while the interest on the scrip runs from July 1, the scrip coupon maturing January 1, 1878, will be detached and four months' interest in cash will be paid to the holders.

☞ Work on the Spring Hill and Parsboro' Railroad in Nova Scotia has been suspended in consequence of the St. John fire.

## American Railroad Journal.

New York, Saturday, July 7, 1877.

### Marietta and Cincinnati Railroad.

A petition was filed on the 27th ult. in the Court of Common Pleas of Ross County, Ohio, against the Marietta and Cincinnati Railroad Company by the trustees of the fourth mortgage of that company, alleging a default in the payment of the interest on the bonds secured by that mortgage, and asking for the appointment of a receiver, &c. Judges Steel and Minshall, after hearing the application and the proofs in support of the same, appointed John King, Jr., receiver in the case, with power to operate and manage the road and its branches, and to hold and control its property during the pending of the suit under the direction of the court. The court among other things ordered payment in addition to current expenses of back pay rolls, and wages and material and supply bills made within four months last past, and also taxes and the rent due or to become due to the Cincinnati and Baltimore Railway Company for the use of its tracks, and such other rents as were necessary to preserve the rights of the company in its leased property.

The appointment of a receiver was made necessary by the fact that the Baltimore and Ohio Railroad Company had declined to make further loans to the Marietta Company for the purpose of paying interest on its mortgage debts, which it has heretofore done to a large amount. An opinion has prevailed that the Baltimore and Ohio Company was in some way responsible for the Marietta and Cincinnati Company's mortgage debts or interest, but there has not been in fact any obligation of that sort, the only tie between said companies being that of connecting lines. Mr. King had previously resigned his position as director and president of the Marietta and Cincinnati Company, and John Waddle, Esq., of Chillicothe, was elected to fill the vacancy.

### Ogdensburg and Lake Champlain Railroad.

At the annual meeting of the stockholders of the Ogdensburg and Lake Champlain Railroad Company, held at Ogdensburg, N. Y., on the 27th ult., the President, John C. Pratt, Esq., called the meeting to order and made the following remarks:

It is eight years since the stockholders of this company met to elect a Board of Directors to whom should be entrusted the operation of the road. A little more than seven years ago you leased the road and all its property to the Vermont and Canada Railroad Company and to the Trustees and Managers of the Vermont Central Company. The report which is herewith submitted, and which will in a few days be distributed among you, recounts how and under what circumstances that lease has been abrogated and the road returned to us.

It is sufficient here to say that a proper regard for your interest has compelled us to take this step. It is quite certain that had the lessees been able to maintain the stipulations of that lease, or even to have given us reasonable security for the performance of less burdensome stipulations, the road would have remained in their possession.

In October last the road passed into the hands of a Receiver of our own nomination, and in April last, from the hands of the Receiver into our own possession, and during both of these periods has virtually been under our own supervision and management.

The question will naturally be asked, what are our prospects? It is too early too say with certainty what the road is capable of doing.

We find an entirely different state of things now from what existed when we formerly operated the road. Through rates of freight are about half what they then were, and the volume of business is lighter, but we have still a large local traffic, which continues to give us fair and remunerative rates. The expenses of operating a road are very largely reduced, in fact almost, if not quite, the same ratio as has the rates on through business.

We have three outlets at Rouse's Point for our traffic, instead of one as formerly, giving us a very strong position; we have a very small debt, we have no lawsuits on our hands, and have nothing to do but to develop the business of our road, reducing its expenses to the utmost possible point.

Under all these advantageous circumstances it is safe to predict that before a great while, we shall be able to divide something among the holders of our common stock.

The business of the road since we came into possession, renders it as certain as anything in the future, that we can pay the interest on our bonds and dividends on our preferred stock, and whatever gains we make will enure to the benefit of our common stock.

The annual report was submitted, and the following persons elected directors for the ensuing year: John C. Pratt, John S. Farlow, Geo. M. Barnard, Isaac D. Farnsworth, Francis Cox, Theodore A. Neal, Francis Thompson, Henry A. Church, S. M. Felton, Wm. J. Averell, C. T. Hurlburd, Albert Andrus and George Lewis.

### Western Maryland Railroad.

The board of directors of the Western Maryland Railroad Company have decided not to pay the interest due July 1 on the unindorsed bonds of the company. A circular has been addressed to the holders of these bonds stating that in consequence of a large outlay, partly for additions to the equipment, made necessary by the increased business of the road, and for other important purposes, they consider it not advisable to make the usual payments of coupons at this time. The directors deem it a matter of justice to the road and the holders of its securities that opportunity should be allowed for an accumulation of revenue not only sufficient to meet all current liabilities, but also adequate to meet any possible contingencies that might arise. They also state that, once freed from its encumbrances, as it shortly will be, there can be no question as to the company's ability thenceforth to pay the interest upon its unendorsed bonds with promptness. The unendorsed bonds of the company amount to $1,000,000, exclusive of about $200,000 unpaid coupons, in addition to $2,875,000 endorsed by Baltimore city, and $800,000 endorsed by Washington county. Accompanying the circular is a statement of

the earnings of the road showing $198,420 earned in the first eight months of the present fiscal year, against $87,865 in the eight months beginning 1st October, 1869. Upon this basis the earnings of the full year would be about $300 000. Estimating the expenses at 66 per cent (as in the previous year) the net earnings will amount to about $100,000. The entire funded debt of the company is about $4,000,000, the interest upon which for one year is $240,000.

### Chicago, Rock Island and Pacific Railroad.

The income of this company for the years ending March 31, 1876 and 1877, were as follows:

| | 1876. | 1877. |
|---|---|---|
| From passengers | $1,763,900 58 | $1,772,513 46 |
| " freight | 5,121,556 64 | 4,708,146 22 |

| Repairs of telegraph | 6,098 66 | 6,637 48 |
| Car service account | 57,613 35 | 53,017 16 |
| | $3,408,901 77 | $3,296,155 48 |
| Legal expenses | 28,872 49 | 27,291 19 |
| Taxes | 217,287 08 | 209,747 41 |
| | $3,655,161 34 | $3,533,194 08 |
| Net income | $3,711,741 44 | $3,384,462 54 |
| From which deduct— | | |
| Rent of Peoria and Bureau Valley Railroad | $125,000 00 | |
| Interest on bonds | 730,000 00 | |
| Dividends April and October, 1876, 4 per cent each, and February, 1877, 2 per cent | 2,097,980 00 | |
| | | 2,952,980 00 |
| Leaving a balance of | | $431,482 54 |
| Add balance of income account April 1, 1876 | | 7,756,051 48 |
| Total, as in Balance Sheet | | $8,187,534 02 |

Compared with the previous year, the gross income shows a decrease of $449,246 16; with a decrease in expenditures of $121,967 26—making a decrease in the net income of $327,278 90. The balance after payment of rent, interest and dividends is $781,598 28 less than at the close of the previous year. The report says:

The directors, recognizing the fact that the stockholders of this company have changed and largely increased in number during the last few years, deem it proper to sketch, briefly, a history of the formation of the company, and the means by which it obtained control of the various lines of road now owned, leased or operated by it, for the information of those who have more recently become shareholders.

The Chicago and Rock Island Railroad Co, was incorporated by special charter, granted by the legislature of Illinois, in 1851. Its maic line was completed in 1854, from the city of Chicago to the city of Rock Island, on the Mississippi river, a distance of 181½ miles.

In 1852, the Mississippi and Missouri Railroad Co. was incorporated in Iowa, with power to build and operate a railroad from the eastern line of the State at Davenport, by way of Des Moines, to Council Bluffs, on the Missouri river.

In 1853, "The Railroad Bridge Co." was incorporated by the legislature of Illinois, with power to erect, maintain and operate a railroad bridge over that portion of the Mississippi river within the jurisdiction of Illinois at Rock Island. The Mississippi and Missouri Railroad Co. had power under its articles of association and the general laws of the State of Iowa, to erect a bridge from the middle of the main channel of that river to the Iowa Shore. The two companies entered into an agreement for the construction of a bridge extending from the island of Rock Island to the Iowa shore. In 1854, this arrangement was superseded by a tripartite agreement, between the Railroad Bridge Co., the Mississippi and Missouri Railroad Co., and the Chicago and Rock Island Railroad Co., for the construction of the bridge for the use of the railroad companies, with the proceeds of bonds, to the amount of $300,000, to be issued by the bridge company, secured by a mortgage upon its property, and the payment of which was also guaranteed by the railroad companies. A guaranty was indorsed by each company upon the bonds, with an agreement that each should pay one-half of the principal and interest of the bonds; that a failure, by either, to make such payment, and a performance of the entire contract by the other, as to principal or interest thereafter maturing, should entitle the party thus performing to the exclusive control and use of the bridge. This was the first attempt to erect a bridge across the Mississippi river; the expenses of construction were enormous, and were greatly augmented by the determined opposition which the enterprise encountered, in the form of litigation to enforce its removal, actions for damages alleged to have been caused to boats in passing the structure, and attempts to destroy it by burning. It was soon found that the moneys provided would not be sufficient to defray the expenses necessarily incurred, and additional bonds to the amount of $100,000 were issued, under the tripartite agreement, and secured by the mortgage and guaranty above mentioned. The Mississippi and Missouri Railroad Co, soon became embarrassed, and failed to perform its part of the guaranty. Thereafter, the interest and principal of these bonds were paid by the Chicago and Rock Island Co. and its successor.

In 1866, the mortgages executed by the Mississippi and Missouri Railroad Co., to secure the payment of moneys borrowed and expended in construction, were foreclosed, and its property purchased by the Chicago, Rock Island and Pacific Railroad Co. of Iowa, a corporation organized in the interest of the Chicago and Rock Island Railroad Co. On the 20th of August, in that year, a consolidation was effected between the Illinois and Iowa companies, under the name of The Chicago, Rock Island and Pacific Railroad Co., by which the properties, rights and franchises of both corporations were united. At that time, the main line in Iowa extended from the city of Davenport to Kellogg station, forty miles east of the State capital, and distant from Davenport 130 miles. The branch known as the "Oskaloosa Branch," extended from Wilton Junction, by way of Muscatine, to Washington, the county seat of Washington county, in the State of Iowa, and was fifty miles in length. In 1867-8 9, the main line was extended from Kellogg station, by way of Des Moines, to Council Bluffs, on the Missouri river, a further distance of 130 miles, the entire main line being opened for traffic in June, 1869.

In 1868, the Secretary of War was authorized by an Act of Congress to construct a new iron bridge over the Mississippi river at Rock Island, and to grant to this company a right of way over the island and bridge. A contract was entered into between the United States and this company, by which it was substantially agreed that the government should erect a new iron bridge, with draw, and grant to this company such right of way, the company undertaking, on its part, to remove the old bridge from the channel and defray one-half the expense of the construction and repair of the superstructure. This contract has been performed by both parties, and the arrangement has proved very satisfactory. The rights and franchise, thus acquired, constitute an important link in the main line of the company's system of railroads.

In 1872, the Oskaloosa Branch was extended from Washington to Sigourney, the county seat of Keokuk county, a distance of 28½ miles; in 1875, from Sigourney to Oskaloosa, the county seat of Mahaska county, a distance of 25 miles; in 1876, to Knoxville, the county seat of Marion county, a distance of 24½ miles; making the entire length of the "Oskaloosa Branch," from Wilton to Knoxville, 128 miles. This branch, with the Indianola and Winterset lines pass through or into eight of the best counties of Iowa, lying in the third tier north of the State line.

In 1874, a corporation known as the Calumet and Chicago Canal and Dock Co., having graded a road from a point on the line of this company's road to the harbor at the mouth of the Calumet river, 6½ miles, proposed to convey it, with right of way, to this company, provided it would lay the track and complete and operate the road. This proposition was accepted, and the transfer completed. Subsequently an addition of 2½ miles of road, reaching the extensive iron manufactory of Joseph H. Brown & Co., was obtained on similar terms. By this branch, known as the South Chicago Branch, freight can be transferred to all of the Eastern lines of railway leaving Chicago, and to the Illinois Central Railroad, outside the city limits, and also to vessels in the South Chicago harbor—a privilege likely to become very valuable to this company at some future day.

The main line, the South Chicago Branch, and the Oskaloosa Branch, are owned absolutely by this company. They form, however, but a portion of the system of railroads operated by it upon terms as satisfactory as absolute ownership. The lines, the legal title to which is in other corporations, but which are controlled by this, are described in the following pages, in the order in which they intersect the railroads owned by the company commencing at Chicago.

In 1854, the Peoria and Bureau Valley Railroad Co. completed its railroad from Bureau Junction, on the line of the Chicago and Rock Island, to Peoria, a distance of 46¼ miles. A contract was entered into between the two companies, whereby the Rock Island became the lessee of the entire property and franchises of the Peoria and Bureau Valley Railroad, in perpetuity, at an annual rental of $125,000.

In 1869, the Chicago and Southwestern Railway Co., a corporation organized under the laws of Iowa and Missouri, commenced the construction of its road from Washington, on the Oskaloosa Branch, to a point in the State of Missouri, on the east bank of the Missouri river, nearly opposite

the city of Leavenworth. It desired to raise money to be used in the construction of its road, and proposed to this company the option of a perpetual running arrangement, whereby its entire business would be secured to this company's lines, or a lease which should thereafter be agreed upon by the parties, in consideration of the guaranty of its first mortgage bonds to the amount of five millions of dollars.

On the first day of October of that year, a formal contract was executed between the parties, and on the sixth day of the same month, the bonds, and a mortgage by which they were secured, were executed. By the express terms of the mortgage it was provided that if this company should be required, in the performance of its contract of guaranty, to pay either principal or interest of the bonds, it should be subrogated to the rights of the original holders, and should have the right to demand a foreclosure of the mortgage for its benefit. As the railway was constructed it was turned over to this company for operation, on account of the Southwestern Co. The main line was completed late in 1871. Its entire length, from Washington to the Missouri river, opposite Leavenworth, is 269 miles. While it was being built, the Southwestern Co. arranged for the construction of a branch from Edgerton Junction on the main line, to a point on the Missouri river, opposite Atchison, Kansas, and for the purpose of raising money to be used in such construction, issued bonds for $1,000,000, and secured the same by a mortgage, which was declared to be a first lien upon the branch and a second lien upon the main line. These bonds were not guaranteed, either directly or indirectly, by this company. Upon the completion of the main line and branch, the Southwestern Co. ceased to pay interest upon either class of bonds. This company made provision for the payment of the interest coupons upon those secured by the first mortgage, as they matured, and continued to operate the Southwestern roads upon the account of that company. Not being able to make any permanent arrangement which would be satisfactory, this company, in 1874, required the trustees to proceed with a foreclosure of the mortgage of the main line as to the interest it had paid in the performance of its contracts of guaranty. In compliance with this demand, the trustees, in March, 1874, filed a bill in the Circuit Court of the United States for the district of Iowa, praying such foreclosure. A number of the Atchison Branch bondholders intervened and resisted the application, claiming that this company had assumed the payment of the principal and interest of the Atchison Branch bonds. Issues were joined, evidence taken, and the cause was tried in August, 1875, when a decree was entered which fully sustained the position of this company, holding that there was no liability upon its part for either the principal or interest of the Atchison Branch bonds, ordering a foreclosure of the mortgage as to and a sale of the main line, and cutting off all lien thereon under the Atchison Branch mortgage. It also found that the Southwestern Co. was a general debtor to this company on an accounting in which it was debited with all sums paid to that date, for the operation and improvement of its lines, and credited with all sums received for the transportation of persons and property over them. From this decree an appeal was taken to the Supreme Court of the United States by the Atchison Branch bondholders. The case has been submitted to the court on printed arguments. A decision affirming the decree of the Circuit Court is confidently anticipated.*

*Since this report was written, the decision of the Supreme Court has been announced. It affirms the decree of the Circuit Court in every particular. The effect of this decision is to confirm the title of the Iowa Southern and Missouri Northern Railroad Company to the entire Southwestern Main Line, from Washington to the Missouri river, subject only to the outstanding main line bonds, bearing the guaranty of this company.

The western terminus of the main line of the Chicago and Southwestern Railroad is at the east end of the Kansas and Missouri bridge, over the Missouri river, on the Fort Leavenworth Military Reservation. This bridge is the property of a corporation in which this company has no interest. It has right, under contract, to run its trains over the bridge on the payment of toll. From the west end of the bridge to the city of Leavenworth is a distance of 1¼ miles. To complete the connection, a railroad was constructed by the Fort Leavenworth Railroad Co., organized under the laws of Kansas. This road consists of two tracks, one extending to freight grounds and a depot near the north line of the city, the other to a connection with other roads within the corporate limits, over which this company runs its passenger trains to a Union Depot in Leavenworth. The capital stock of this Kansas corporation is now controlled by this company.

In 1871, the Des Moines, Indianola and Missouri Railroad Co. commenced the construction of its railroad, from a point on the main line of this company's road in the city of Des Moines to Indianola, a distance of about 22 miles. For the purpose of raising money to be used in this construction, it issued its bonds for the sum of $300,000, secured by first mortgage upon its entire property. This company became the owner of these bonds, and commenced the operation of the road as completed, upon an agreement to apply net earnings in payment of interest on the bonds. The net earnings of the line were not sufficient to pay in full the interest accruing, and proceedings for foreclosure have been commenced, and are now pending in the Circuit Court of the United States for the district of Iowa.

In 1872, the Des Moines, Winterset and Southwestern Railway Co. constructed a railroad from Summerset, on the line of the railroad last mentioned, to Winterset in Madison county, a distance of about 26 miles. While the construction was in progress it issued its bonds for the sum of $500,000, secured by mortgage upon its entire property. These bonds became the property of this company, and proceedings having been instituted in the Circuit Court of the United States for the district of Iowa, for a foreclosure, a decree has been entered in accordance with the prayer of the petition. A sale of the property under the decree will be made in a few months. The two last named branches have proved quite valuable as feeders to the main line.

In August, 1876, the Iowa Southern and Missouri Northern Railroad Co. was duly incorporated, with full power to purchase the main line of the Chicago and Southwestern, the Des Moines, Indianola and Missouri, and the Des Moines, Winterset and Southwestern railroads. In September it made an arrangement by which it received from the Southwestern Co. a conveyance of its main line, subject to the above mentioned decree, and the rights of the holders of the outstanding bonds. The consideration paid to the Southwestern Co. for the transfer was an entry of satisfaction of the amount of the judgment for the general debt to the Chicago, Rock Island and Pacific Railroad Co. before mentioned, the Iowa Southern and Missouri Northern having completed arrangements with this company for such application of that indebtedness. On the first of November of the same year, a sale was made under the decree of foreclosure of the same property, and the same company became the purchaser. Payment therefor was made, mainly, with the coupons which had been paid by the Chicago, Rock Island and Pacific Railroad Co. in the performance of its contract of guaranty and covered by the decree of foreclosure. The same company has also purchased of the Des Moines, Indianola and Missouri Railroad Co., its railroad, extending from Des Moines to Indianola, using in payment therefor certain assets which had been transferred to it by the Chicago, Rock Island and Pacific Railroad Co. It has also completed arrangements for the purchase of the Des Moines, Winterset and Southwestern Railroad, when the same shall be sold at judicial sale.

The capital stock of the Iowa Southern and Missouri Northern Railroad Co. now amounts to $3,200,600, and all but a few shares are under the absolute control of this company. This places the property of that corporation under the control of this, and it will hereafter be operated as a part of the property of this company.

While the revenues derived from the main line of the Southwestern Co., extending from Washing to Leavenworth, have not been equal to the expenses incurred by this company in improving and operating the road, a steady improvement in this regard is noted. The balance of disbursements over receipts would be considerably reduced by an allowance of drawbacks on business furnished to the roads of this company at rates which are frequently obtained by feeding lines. The franchises of the line in Missouri are deemed valuable. They were granted by special charter, and continue in perpetuity.

From the foregoing statement it will be seen that the property owned, leased or controlled by this company, at the date of this report, is as follows:

# American Railroad Journal.

**Saturday, July 7, 1877.**

### Financial and Commercial Affairs.

Despite the active preparations for the July interest and dividend disbursements, the supply of Money, all through the week, has been largely in excess of the urgent requirements of the market, and lenders have been obliged to accept low rates, in the loan and discount line, from responsible borrowers, who have had little difficulty in making prompt provision for their wants at the minimum quotations of the season. Call loans have been quoted here at 1@2½, with most of the important negotiations reported on the basis of 1½@2 per cent; and very choice to prime mercantile credits are rated at 3@5, mainly 3@4 per cent per annum. The City banks, last week, reported a further increase in their legal tender with a handsome gain also in their specie reserves, and a further moderate contraction of their circulation. The loan and discount item was enlarged moderately, and the deposit average to a fair aggregate. The loan and discount average shows an increase of $1,239,100. The item of circulation was reduced $122,400, and of deposits augmented $3,172,100. The legal tender reserve was enlarged $2,103,900; and the specie average $1,244,000.

The City banks reported their average of gold last week at $17,458,000, as against $18,291,800 same date last year; and their greenback average at $60,359,500, as against $54,778,400 on July 1, 1876. Their deposits stood at $226,448,200, against $216,055,200 same time in 1876. The loan item was $251,655,600 against $221,888,300 a year ago.

The City bank net reserve of specie and legal

tender notes now shows an excess over the legal requirement of reserve to liabilities of $21,190,450, as against $18,635,574 the preceding week, $9,039,775 the week ending 14th April (the lowest footing of this item thus far in the current year,) and $24,781,800 on January 27 (which latter was the highest aggregate reached this year.) The City bank exchanges in currency reached $327,793,221, or a daily average of $54,632,203.

The U. S. Sub-Treasury in this city closed the week ending on Wednesday with a currency balance of $49,681,717, against $49,026,196 the preceding week; and a coin board of $88,613,320, against $86,154,027 on the return of a week earlier. The Customs revenue of the port during the past week was $1,569,000.

The U. S. Sub-Treasury receipts in June were $89,817,823 (of which $6,345,019 from custom); payments, $87,179,266, (of which $8,234,231 of coin interest.)

Washington advices report the total amount of silver paid out to date, $33,121,687; currency destroyed, $21,140,061; silver exchanged for United States notes, $11,981,526.

The liquidation of the national indebtedness in June was $8,219,119, making the total reduction since June 30, 1876, $39,281,122, or more than $10,000,000 of a reduction in excess of the liquidation made in the preceding fiscal year, and fully $6,000,000 in excess of the amount required to pay the sinking fund.

The aggregate of the outstanding U. S. currency of all denominations, July 1st, was $380,627,977. The outstanding amount of legal tender notes is $359,764,332. The National bank circulation is now $316,290,662 of currency notes and $1,428,625 of national gold bank notes.

National Bank notes received at the Treasury Department last week for redemption were to the amount of $5,185,000.

The income of the Government from internal revenues last week was about 1½ millions, and during the fiscal year ending June 30, 1877, $118,886,749; and from Customs last week about three millions, and during the fiscal year ending June 30, 1877, $129,500,000.

On Wednesday of this week the cash balances of the Treasury Department at Washington were: of Currency, $7,980,274; special deposit of legal tenders for the redemption of certificates of deposit, $54,960,000; Coin, $115,122,474, including of Coin certificates, $41,572,600.

The total disbursements of the National Treasury in June (other than on account of the interest or principal of the public debt) were $10,630,558, including on account of civil and miscellaneous, $3,642,340; war, $3,862,873; navy, $535,268; interior (Indians and pensions), $2,590,069.

Gold has fluctuated little during the week. Speculation has been comparatively tame. The Customs call has been very moderate; and the export drain limited. The extremes of the price during the week have been 105⅛@105⅛, closing at 105¼, as against 105⅛ on Wednesday of the preceding week. The lowest point yet touched was 104¼, on Friday, March 2d. The specie outflow last week was $1,105,843, (of which $130,000 to London, $668,853 to Liverpool, $100,000 to Southampton, $150,000 to Plymouth, $40,000 to Paris, $1,650 to Bremen, $10,000 to Panama, and $5,340 to Honduras,) making the total exports of specie hence since January 1, $19,561,172, against $30,117,152 the same time in the preceding year. The imports of specie at this port last week were $78,460, (of which were $14,300 from Havana, $20,363 from St. Domingo, $19,807 from Aspinwall and $23,990 from Port au Prince,) and since January 1st $7,341,049 as against $2,171,185 same time last year. The Customs demand for gold last week averaged only $261,500 per day. Foreign Exchange has been moderately sought after, leaving off quite firmly. Bankers' sixty day bills on London closed on Wednesday at $4 87⅛@$4 87¾; sight bills on London at $4 89½@$4 90 to the £ sterling. The week's imports of Dry Goods and general merchandise were to the specie value of $8,220,740 as against $3,486,548 the corresponding week of 1876. The week's import entries of Foreign Merchandise at New York included $826,488 of Dry Goods and $7,394,252 of General Merchandise.

Government securities have been in generally good demand and quoted rather firmer as to price. The July interest and dividend disbursements tended to quicken business on investment account. At the close the market was quoted firm, leaving off on Tuesday as follows:

United States currency sixes, 123@123¼; do. 6s, 1881, registered, 111@111⅛; do. coupon, 111⅞@111⅛; do. 1865, new, registered, 106¾@106⅞; do. coupon, 106¾@106⅞; do. 1867, registered, 109¼@109½; do. coupon, 109⅜@109½; do. 1868, registered, 111¾@112⅛; do. coupon, 112@112⅛; do. ten-forties registered, 112⅛@112¾; do. coupon, 113@118¼; do. five per cents 1881, registered, 111⅝@111⅞; do. coupon, 111⅝@111⅞; do. 4½ per cents, 1891, registered, 108⅝@108⅞; do. coupon, 108⅝@108⅞; Central Pacific Gold bonds, 107@107¾.

The amount of U. S. bonds held by the Treasurer of the United States, as security for the National Bank circulation, is $338,683,600, and $18,866,000 as security for public deposits.

State and Railway bonds have been in fair request since our last, with prices of the more substantial loans generally quoted firm. And in the line of Railway and Miscellaneous share property business has been moderately active at less variable prices closing generally more firmly.

The dealings in most kinds of domestic produce have been on a restricted scale, mainly in Breadstuffs, Provisions, Cotton and Petroleum, and prices have been unsettled and generally weaker closing in favor of purchasers. Foreign merchandise has been in slack demand, with values tending, in most instances, downward.

Hardware and Boots and Shoes have been attracting rather more attention; while Dry Goods have been in fair request, at, however, irregular prices.

Metals have been in generally quite moderate demand with prices quoted as a rule weak. Eglinton Pig Iron quoted at $25 50; Glengarnock $27 50; Coltness $28 50 @$29; No. 1 American Pig at $18 @$19; No. 2 do. at $17@$18; Forge $16@$17; American Rails at works $32@$35; Old Rails $18 @$19. Wrought Scrap $22@$25. Steel Rails, on the basis of $45@$48 at the mills. Ingot Copper quoted 19⅛@19¼ for early delivery.

The Ocean freight market has been moderately active, but rates have shown depression and irregularity. The business has been mainly in the line of Petroleum, Grain, Provisions, Tobacco Naval Stores, and Cotton shipments. Liverpool steamer rates at the close for Grain, 4@4½d. per standard bushel. Provisions, 20s.@45s.; Tallow, 20s.@25s.; Leather, 50s. Measurement Goods at 15s.@20s. per ton; Cotton, $\frac{3}{16}$d.@$\frac{7}{32}$d. per lb., Liverpool, by sail. Cotton, $\frac{1}{8}$d. Grain, 4d. Oil Cake and Slate, 10s.@12s. 6d.; Measurement Goods 10s.@12s. 6d.; Tobacco 25s. Grain rates on charter hence for Cork and orders left off at 4s. 3d.@4s. 9d.; for the Continent, at 5s., and from Baltimore for Cork and orders, 4s. 2d.@4s. 6d. and from Philadelphia at 3s. 9d.@4s. 3d. per quarter. Refined Petroleum hence for Cork and orders, 3s. 9d.@4s.; for the Continent, 3s. 3d.@4s. per bbl. And for Liverpool by steam, from Chicago, of through freight, Provisions, at 45@50c. via Boston, and from Cincinnati 40c. per 100lb.

No. 5 Nassau St., New York.

U. S. Government Bonds bought and sold in amounts to suit investors: also, Gold, Silver and foreign coins: Deposits received in Currency or Gold, and interest allowed on Balances: Special attention paid to Investment Orders for Miscellaneous Stocks and Bonds.

### Freehold and New York Railway.

A company for the purpose of constructing a railroad from a point in the town of Freehold, in the county of Monmouth, to the town of Keyport, on the shore of the Raritan Bay, with a ferry or boat service from Keyport to some point in or near the city of New York, to be called the "Freehold and New York Railway Company," was organized at Trenton, N. J., on the 29th ult., under the General Railroad law. The length of the road is 14¾ miles by rail and 22 miles by water, and the capital stock $200,000, divided into shares of $100 each. The following are the directors: William H. Vredenburgh, Theodore M. Morris, Hiram B. Willetts, William R. Schultze, Samuel Osborn, John J. Schultze, Joseph B. Hoff, Telfair Hodgson Charles M. Wiley, Herbert C. Felton, William A Wells, Justus E. Ralph and Samuel B. Brown.

☞ At a meeting in Cincinnati on the 25th of June of the Common Carrier Company, formed to operate the Cincinnati Southern Railroad, subscriptions to the capital stock were reduced from $470,000 to $167,000. Members of the Syndicate who hold the controlling interest in the stock reduced their subscriptions from $93,000 each to $5,000 each. A resolution was adopted continuing the books open for further subscriptions until July 10, with a view of getting a capital of $250,000 subscribed, and as soon as $200,000 are taken they intend to contract with the Trustees for a temporary license to operate the finished portion of the road, leaving the city to complete the unfinished part.

### Steel Rails in Canada.

The experience of the Grand Trunk Railway in the matter of steel rails must also be the experience of the Great Western of Canada, the Northern of Canada, the Midland of Canada and other Canadian railways. The fact has been established beyond the possibility of doubt or criticism that steel rails, and steel rails alone, can enable Canadian railways to withstand effectually the rigors of Canadian Winters. It is not, however, equally clear that all the steel rails which may be laid down in future upon Canadian railways will be ordered in England. On the contrary, so far from this being the case, even now we find that in 1876, out of 79¼ miles of steel rails laid down upon the Grand Trunk Railway of Canada, only 32 miles were supplied from England. In 1875, out of 155 miles of steel rails similarly laid down upon the system, 99 miles were supplied from England. Here we have another illustration of the growth of American metallurgical industry and of American competition.—*London Colliery Guardian.*

☞ The Hagerstown (Md.) Mail says that Major Boyne, engineer of the Harrisburg and Potomac Railroad, has just completed a survey of its bed from Shippensburg to Chambersburg, and that property holders along the whole line have donated the right of way. As this road must run parallel with and almost in sight of the Cumberland Valley Railroad, the object of its construction is not by any means apparent. Its only object would appear to be to give Chambersburg competing lines, for which purpose we would not suppose parallel lines were by any means the most profitable.

☞ The engineers of the New London Northern Railroad have finished their surveys and estimates for the Turners Falls extension from South Montague, and they calculate the cost of placing the road in full running order at $90,000. The route is very feasible, nowhere requiring a greater grade than 50 feet, or a curve of more than four degrees, except near the falls terminus.

☞ It is reported that both ends of the Northern Pacific Railroad, as far as completed, are paying a handsome profit above running expenses. The company have recently built a branch, thirty-one miles long, to an eleven-foot vein of bituminous coal, for which it is said there is a good market in Oregon and Washington.

☞ The Boston and Lowell Railroad has specifications ready to invite proposals for a new bridge across the Merrimack at Lawrence. The bridge will be 352 feet in length, with two abutments and five piers. It will be constructed wholly of iron, of the pattern of the Hudson river bridge at Albany.

☞ The sale of the New York and Oswego Midland Railroad, which was to have taken place at Middletown, N. Y., on the 29th ult., has been again postponed to September 7, by Kenneth G. White, master, pursuant to the order of Judge Blatchford.

☞ The Baltimore Sun of June 30th notices the arrival at that port of the new and handsome steamer B. S. Ford, Capt. P. S. McConner, built by the Harlan & Hollingsworth Company, Wilmington, Del., for the Chester River Steamboat Company, of Baltimore.

☞ The sale of the Hempfield Railroad which was to have taken place on the 27th ult., has been postponed to the 13th of August.

### Cincinnati Southern Railroad.

A Cincinnati dispatch says that a sufficient amount of stock in the Common Carrier Company of the Southern Railroad has been subscribed to secure a temporary lease with the Trustees, and the completed portion of the road will soon be put in operation, and then adds:

Late developments in connection with this great enterprise have been anything but satisfactory to the citizens. Some time ago a syndicate, composed of leading capitalists and railroad men, took a controlling share of the stock in the Common Carrier Company in expectation of advancing the $2,250,000 necessary to complete the road and securing the permanent lease. They discovered, however, upon investigation, that there was nothing present or prospective to secure their investment, even the future income of the road having been mortgaged for the original bondholders. Thereupon the most of their stock was withdrawn, and the tax payers made the interesting discovery that there was no way of finishing the road and saving the $16,000,000 already invested, except by voting two or three additional millions. The completed section will be operated under the new lease. It is 160 miles long, and extends nearly through Kentucky. It is estimated by R. M. Shoemaker that the net earnings from the local traffic for the first year will be $344,000. The through line to the Southern sea-board, to which our merchants have so long looked forward, is something in the indefinite future.

### Chicago, Rock Island and Pacific Railroad.

We give on an another page the Report of the Chicago, Rock Island and Pacific Railroad Company for the fiscal year ending March 31, 1877, showing the gross earnings, expenses and net income during the year, and the financial condition of the company at the close of the same. From the tables appended to the report we learn that—

The percentage of operating expenses in 1876-'77 was 47.65; including taxes and legal expenses, 51.07; against 49.78 in 1875-'76, 52.19 in 1874-'75, 55 in 1873-'74, 54.8 in 1872-'73, 50 in 1871-'72, 56.5 in 1870-'71, and 57.66 in 1869-'70.

The number of passengers transported during the year was 1,455,366, of which 1,436,994 were first class, 6,376 second class, and 11,995 emigrant. Of the total number, 43,899 were through, and 1,411,467 way; 715,402 going east, and 740,324 west. Number of passengers carried one mile, 60,684,585; equivalent to carrying each passenger 41.6 miles. Average rate per passenger per mile, 2.923 cents; against 2.97 cents in 1875-'76, 3.061 cents in 1874-'75, 3.394 cents in 1873-'74, 3.596 cents in 1872-'73, 3,617 in 1871-'72, 3,840 in 1870-'71, and 4.59 in 1869-'70. Average amount for each passenger, $1 22½, against $1 25½ in 1875-'76. Increase in number of passengers over previous year, 48,933; and in the mileage of do., 1,241,070. The gross earnings per mile of road operated were $9,784 52; expenses, $4,996 95; net earnings, $4,787 57. Earnings for each mile run by passenger trains, $2 04, against $1 98 in 1875-'76.

Tons of paying freight carried one mile, 276,199,164. Average rate per ton per mile, 1.71 cents; against 1.91 cents in 1875-'76, 1.92 cents in 1874-'75, 2.07 cents in 1873-'74, 2.26 in 1872-'73, 2.49 in 1871-'72, 2.64 in 1870-'71, and 2.74 in 1869-'70. Earnings for each mile run by freight trains, $1 38.2, against $1 42.07 in 1875-'76.

The company have 229 locomotives, 12 sleeping coaches, 75 day coaches, 6 railway post office, 28 baggage and express, 1 paymaster's, 1 officers', 2,514 box freight, 572 stock freight, 979 platform and coal, 90 caboose and drovers', 2 repair, and 509 hand and other cars.

The number of miles run by passenger trains was 984,406; by freight trains, 3,406,079; by wood, construction and gravel trains, 406,435—total, 4,796,920. Cost per mile run for repairs, oil, waste, fuel, and wages of engineers, firemen and wipers, 18.22.

The commissioners of the sinking fund report, that since their annual report for April, 1876, they have received from the following sources:

| | |
|---|---|
| Balance on hand at date of last report | $28,410 11 |
| Cash received from land commissioner | 160.000 00 |
| Interest on bonds and loans | 57,116 11 |
| | $245,526 22 |

And they have purchased $220,000 of the mortgage sinking fund bonds of the Chicago, Rock Island and Pacific Railroad Company, at a cost of $231,363 71

| | |
|---|---|
| Cash in Corn Exchange Bank | 14,162 51 |
| | $245,526 22 |

The securities and cash now held by them are as follows: $916,000 in 7 per cent. mortgage sinking fund bonds of the Chicago, Rock Island and Pacific Railroad Co.; $24,000 in first mortgage bonds of the Peoria, Pekin and Jacksonville Railroad Co.; $14,162 51 cash in Corn Exchange Bank.

All of the bonds of the Chicago, Rock Island and Pacific Railroad Co. held for this fund are registered in the name of the commissioners of the sinking fund, and so mutilated that they cannot be issued again.

Of the bonds called for redemption July 1st, 1876, all have been presented for redemption, except one, No. 2699; and of those called for January 1st, 1877, four have not been presented, Nos. 1595, 2696, 3191 and 7093, the owners of which are unknown, and they have ceased to bear interest from the date at which they were advertised to be redeemed.

At the annual meeting of the stockholders, held in June, 1876, the board of directors submitted a plan to reduce the annual interest on the bonded indebtedness of this company by the issue of bonds at a lower rate of interest, which was approved, and preliminary steps have been taken to prepare the mortgage and issue the bonds.

The sales of land belonging to the company, as reported by the land commissioner, have been 21,532.16 acres, for the sum of $178,595.57, at an average of $8 28 per acre.

Interest on time contracts, $62,773 07. Bills receivable increased from $808,276 08 to $823,950 32.

Taxes paid on account of 333,261.72 acres owned by the company on the 1st of November, 1876, amounted to $52,578 58—an average of about 15¾ cents per acre.

After paying expenses of the land department, including salaries, commissions, advertising, and legal expenses and taxes, there has been remitted to the commissioners of the sinking fund $160,000 as the net cash receipts realized from the sales of land for the year; making, with previous remittances, a total of $640,000 contributed to the sinking fund from this source.

The sales of the past year have amounted to less than one third the quantity sold during the year previous. This is accounted for by the continued hard times, the partial failure of crops, fears of grasshopper incursions, and the remoteness of most of the company's land from railroad facilities.

The amount charged to construction and equipment account, exclusive of that expended in extending the Oskaloosa Branch Railroad to Knoxville, has been $120,757 11; construction of Oskaloosa Branch, $528,060 43—total, $648,817 54. From April 1st, 1869, to April 1st, 1877—a period of eight years—the expenditures on account of construction and equipment have been as follows:

| | |
|---|---|
| For land and land damages | $750,330 28 |
| New equipment | 2,977,977 24 |
| Grading and masonry | 1,268,578 92 |
| Bridging and superstructure | 338,977 38 |
| Ballasting and filling tracks | 251,558 08 |
| Additional side tracks | 416,849 98 |
| Second, or double track | 545,533 77 |
| Depots, water stations, shops, and machinery | 897,704 56 |
| Fencing, sign boards, etc | 277,578 97 |
| Excess in cost of steel over iron rails, furnished previous to April 1st, 1875 | 491,499 21 |
| Excess in cost of new bridge at Rock Island over value of old bridge | 356,921 67 |
| Rebuilding depots in Chicago | 232,210 06 |
| Engineering and contingencies | 37,226 56 |
| Expended in construction and control of branch railroads (187 miles) | 2,275,631 00 |
| Expended on account of improvements and interest paid for Chicago and Southwestern Railroad in excess of net earnings of said road | 3,686,255 00 |
| | $14,804,832 68 |

During the same period of eight years—

| | |
|---|---|
| Capital stock has increased | $6,980,000 00 |
| Bonds have increased | 1,157,936 88 |
| Income from surplus earnings | 6,630,290 00 |
| | $14,808,226 88 |

Land and land damages include cost of land purchased in Chicago for right of way and depot purposes, amounting to over half a millions of dollars, and land in cities of Rock Island and Davenport, used in approaches to new bridge.

The equipment has been increased by the addition of 122 locomotives, 49 baggage, passenger and sleeping cars, and 1,773 freight cars of all classes; and a considerable portion of this had to be purchased or constructed when prices were fully fifty per cent. higher than now.

☞ The Ayr (Iowa) Record says that the preliminary survey of the Afton and Des Moines Railroad has been completed, and the engineer's report shows the distance to be sixty-two miles. Only three bridges of any consequence will be required on the whole line, and thirty-five miles will not require a single bridge. There are but eighteen miles of heavy work, the survey leading all the way to St. Charles on a divide. The Des Moines and Minnesota Narrow Gauge Railway Company will furnish the rolling stock and aid in the construction.

☞ A company has been organized and a contract entered into for the continuation of the construction of the Covington, Columbus and Black Hills Railroad. The road now runs up the south side of the Missouri River to Ponca, thirty miles west of Sioux City. It is intended to follow out the original design, and build to Niobrara 125 miles west, and to LaPorte, 60 miles southwest. Surveying parties are on the road laying out a line, and construction from Ponca westward will commence soon. The company contemplate completing the road to Black Hills next year.

☞ The Naugatuck Railroad Company have decided to build a branch road from Wheeler's Farms, just below Derby, to intersect the New York, New Haven and Hartford Railroad at a point between West Haven and Milford.

### The South Pass Jetties.

Capt. James B. Eads has made a long report to the South Pass Jetty Company, of St. Louis, which covers almost the entire operations at the South Pass since work was begun. The results, as stated by Capt. Eads, are as follows:

Our works were begun two years ago in an unused outlet of the Mississippi River, and have necessarily disturbed the regimen governing the outflow to the sea by an enormous volume of water, but the theories upon which they were based have been fully vindicated by the result produced, and it is now manifest that entire and complete success will reward our labors. Among the prominent results developed by our operations are the following:

First—Concentration of the water flowing across the sand bar at the mouth of the Pass by the jetties created a channel over 200 feet wide, in no place less than 20 feet deep, where only about eight feet previously existed.

Second—The concentration of the water flowing over a shoal in the river at the head of the Pass created a channel over 400 feet wide, in no part of it less than 20 feet deep, where but 14 or 15 feet previously existed.

Third—During the time, in which a portion of the flow into the Pass was interrupted by the works at its head, and the current consequently slackened, a temporary deposit took place in the passes between the jetties.

Fourth—The gradual restoration of the normal flow into the Pass through the new channel at its head has already begun to enlarge the pass again, and has, since this restored flow commenced, removed from between the jetties, within the past three months, over 500,000 cubic yards of deposit, and given through more than half the length of the jetties a much larger and deeper channel than ever previously existed, the size of which is already throughout more than 2,000 feet, 28 feet by 300 feet, or that required to entitle us to the fifth payment from the United States, while many hundred feet of it exceeds 30 feet by 350 feet.

Fifth—The Gulf current athwart the jetties at the mouth of the Pass effectually prevents the reformation of the bar in advance of the jetties by deepening the outer slope of the bar, and sweeps away any such portion of the discharged sediment as the river current fails to carry to unknown distances seaward.

Sixth—The Mississippi River at the head of the Pass, and where it has a width of over 9,000 feet, is brought under complete control by our works, which are so designed as to enable us to increase or limit the discharge into our pass, if hereafter necessary, with but little additional outlay.

Seventh—Finally, I may add with absolute certainty that this entire system of works is now so far completed that no financial difficulties can intervene to arrest the process of nature which is continually operating to enlarge and perfect the desired channel through them.

☞ At the election for Directors of the Anderson, Lebanon and St. Louis Railroad, held at Lebanon, Ind., on the 26th ult., the following Eastern Directors were chosen: Lieut.-Gov. F. B. Loomis, Connecticut; A. B. Stone, L. A. Millbank, C. G. Rogers, and W. W. Lamon, New York. L. A. Millbank, Superintendent of the Monticello, and General Manager of the Ontario Southern Railroad, of New York, was elected President.

☞ At a meeting of the New York Bridge Company, held at their office in Brooklyn on the 2d inst., the report of the Treasurer was presented showing the total receipts up to June 30th to have been $7,701,282 88, and the total expenditures $7,547,135 52. The cash in bank and petty cash on hand amounted to $154,147 36. The total liabilities of the company, including salaries for June, bills for materials, &c., were $30,911 52. The Executive Committee reported concerning the propriety of increasing the size of the wires for the great cables. The same machinery, it was stated, could be used as for the smaller size; there would be no deterioration in the elasticity of the wire, and its tensile strength would not be decreased.

### Scioto Valley Railroad.

The route between Chillicothe and Waverly has been settled. Crossing Paint creek and the canal at Chillicothe, it comes down the west side of the canal to within four miles of Waverly. Here it crosses the canal and runs east of Waverly through the Corwin and Clough lands, and forms a junction with the Springfield, Jackson and Pomeroy road within three hundred yards of Waverly. The right of way along the Portsmouth and Columbus and the Waverly and Beaver turnpikes has been agreed upon. The documents are signed, and the railroad company is to pay the turnpike company $12,000. Everything is ready now for vigorous work along the whole line.—*Portsmouth Tribune.*

### Statement of the Public Debt of the United States, July 1, 1877.

DEBT BEARING COIN INTEREST.

| | Amount Outstanding. | Accrued Interest. |

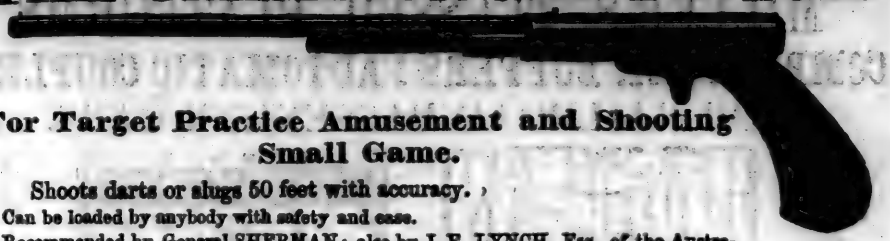
| Western Pacific bonds, 1862-4 | 1,970,560 00 | 59,116 80 |
| Sioux City and Pacific bonds, 1862-64 | 1,628,320 00 | 48,849 60 |
| Totals | $64,623,512 00 | $1,938,705 36 |

Interest paid by United States, $24,018,923 78; interest repaid by transportation of mails, &c., $8,514,489 89; balance of interest paid by United States, $25,504,433 89.

The foregoing is a correct statement of the public debt, as appears from the books and Treasurer's returns in the Department at the close of business, June 30, 1877.

JOHN SHERMAN,
Secretary of the Treasury.

☞ The Delaware, Lackawanna and Western Railroad Company have decided to issue $10,000,000 of bonds secured by a mortgage upon the main line of that road. The bonds will be dated September 1, 1877, have thirty years to run, and bear seven per cent interest, payable semi-annually.



☞ The amount of canal tolls received at Buffalo for the month of June was $47,570 07, a decrease of $46,529 25 from the same month last year. The amount received to July 1 was $88,714 16, against $184,173 65 for the same time last year.

☞ The six per cent. loan, amounting to nearly $400,000 of the Boston and Lowell Railroad Corporation, issued to retire the floating indebtedness, has been taken by the banking house of George William Ballon & Co. of New York and Boston.

☞ The Patterson and Hudson River Railroad Company of New Jersey has declared a semi-annual dividend of 4 per cent. and the Paterson and Ramapo Railroad Company of New Jersey one of 3 per cent. payable in New York on the 3d instant.

☞ Adolph Poppenhusen has been elected President of the Long Island Railroad Company, vice D. N. Ropes resigned.

# THE CHAMPION AIR PISTOL.

**For Target Practice Amusement and Shooting Small Game.**

Shoots darts or slugs 50 feet with accuracy.

Can be loaded by anybody with safety and ease.

Recommended by General SHERMAN; also by J. F. LYNCH, Esq., of the Australian Rifle Team.

PRICES.

Black.....$5 00. Nickel Plated.....$6 00.
Nickel Plated Rosewood Handle..... ... 7 00.

Each pistol is put up in a neat box with a skeleton gun stock, 6 Darts, 100 Slugs, 6 Targets, a Ramrod, Claw and Wrench.

Sent by Express C. O. D., or by mail at the risk of parties ordering, on receipt of price, and 40 cents additional for postage.

POPE MANUFACTURING CO.,
45 High St., Boston, Mass.

### The Coal Trade.

The tonnage of the Reading Railroad for the month of June was 670,000 tons, of which about 300,000 came to Port Richmond and 295,000 tons were shipped thence. The tonnage of the Reading Coal and Iron Company for the month was 365,000 tons. These figures show a very large business and the wonderful capacity of the Reading Company. For the week ending on the 23d ult., the total tonnage, as reported by the several carrying companies, amounted to 446,662 tons, against 158,620 tons in corresponding week last year, an increase of 288,042 tons. The total amount of anthracite mined for the coal year is 9,311,642 tons, against 7,252,778 for same period last year, an increase of 2,058,864 tons. The quantity of bituminous coal sent to market for the week was 73,891 tons, against 72,744 tons for corresponding week last year, an increase of 1147 tons. The whole bituminous tonnage from the beginning of the coal year is 1,502,350 tons, against 1,537,116 in corresponding time last year, a decrease of 34,766 tons. The total tonnage of all kinds of coal for the week is 520,553 tons, against 231,864 to corresponding date last year, an increase of 288,689 tons, and the total tonnage for the coal year is 10,813,992 tons, against 8,789,894 tons, to same date last year, an increase of 2,024,098 tons. The receipts at Perth Amboy for the week ending on the 23d ultimo were 31,701 tons, the shipments 27,386 tons, leaving a stock on hand of 124,936 tons. The quantity of coal and coke carried over the Pennsylvania Railroad for the first week in June was 89,721 tons, of which 73,446 tons were coal, and 16 275 tons coke. The total carried for the year is 3,152,269 tons, of which 1,746,098 tons were coal and 416,489 tons coke. These figures embrace all the coal carried over the road, east and west.—*Phila. Ledger, July 2.*

### Petroleum in California.

On the 18th of June a body of oil, yielding, according to report, 40 barrels a day, was struck in a well 400 feet deep in the San Fernando oil district, 17 miles northwest of the town of San Fernando and 5 miles from the Andrew Station on the Southern Pacific Railroad. Five other wells, all of them including the new one within an area of one acre, had previously reached a flowing supply of oil, but the quantity from the five was only 40 barrels in the aggregate, so the new one equals in importance all the others together. The cause of its superiority is probably to be found in the fact that it goes down twice as far as the older wells, and is the first to reach so great a depth. A well in the vicinity was sunk 900 feet without finding oil, but it was started on the mountain, so that when it had gone down to its full depth, its lowest point was about on a level with the surface of the canon in which the last well was sunk. We are told that the crude San Fernando oil contains 75 per cent of kerosene or illuminating oil, 17 per cent of lubricating oil, and 8 per cent of tar available for fuel. Refineries, with a capacity to handle 180 barrels a day, have been erected at Andrew Station. Although the San Fernando oil springs have been talked of and written about for eight or ten years, the oldest well dates from last year, and the development of the business is to be credited partly to the influence of the Southern Pacific Railroad, which gives facility for access and transportation. The only other productive oil district in the State is about 85 miles to the westward, in Ventura county, where half a dozen shallow wells yield perhaps one-third as much as does San Fernando. The numerous borings in Humboldt, Santa Clara, Santa Cruz, Colusa and other counties, have amounted to nothing save loss.—*Alta Cal.*

### Mechanics in Civilization.

Civilization is the direct result of invention and discovery. From the earliest ages to the present time there has been a rapid succession of discoveries, inventions and improvements. To-day those nations stand highest in the ranks of civilization that have made the greatest progress in industrial art and mechanical science, and that advancement has been occasioned by the practical application of discoveries developed by inventive minds. Hence tribes and nations have advanced in civilization just in proportion as they possessed inventive minds among them, not mere workmen but thinking inventors. The truth of this statement is apparent when the status and characteristics of civilized nations are considered, and a comparison made with those less advanced. The Chinese have no superiors as mere workmen, copying their patterns with faultless exactness; but China has stood still in her civilization for centuries. The lack of inventive faculty and exclusiveness stand as barriers to her progress. And yet there must have been a time in her history when she was on equal terms with any of her neighbors in their inventions and improvements.

Pure science without the inventive faculty to prove and apply would be useless. It is to the mechanic the scientist turns to prove the truth or falsity of his theories. Our own impression is that few if any men make their mark as successful scientists who lack in mechanical ability. Profs. Tyndall and Faraday are cases in point. These men not only invent but often construct their own apparatus. Dr. C. W. Siemens at the exhibition of scientific apparatus in England said: "In mechanical science accurate measurement is of such obvious importance that it needs no argument to recommend the subject to your careful consideration." But it is not generally admitted that accurate measurement occupies a very important position to science itself and that many of the most important discoveries may be traced back to the mechanical art of measuring. Sir William Thompson, in his inaugural address delivered to the British Association in 1871, said that "nearly all the grandest discoveries of science have been but the rewards of accurate measurements and long continued labor in the minute sifting of numerical results."

At the recent Centennial Exhibition those machines and apparatus received the greatest attention and excited the intensest interest which displayed measurements and forms geometrically accurate. Steam engines, as well as the most delicate watches or accurately adjusted microscopes, lose their value as imperfect measurements and disproportions are detected. In the measurement of length Sir Joseph Whitworth's instruments measure to the one-millionth of an inch. At Philadelphia is an instrument made by the students at Cornell University that measures to the one-millionth of an inch, made upon Whitworth plates, and Sir Joseph Whitworth says his workmen in their regular work use measurements to the twenty-thousandth of an inch. The wonderful machines invented by German, French, English and American people are the very strongest indications of a high and progressive state of civilization; and from these it may be rationally inferred that any nation will advance most rapidly in the arts and sciences when it emulates to excel in mechanical devices, beautiful for their accuracy and admirable for their intrinsic value and usefulness.

### Eastern (N. H.) Railroad.

The annual meeting of the stockholders of the Eastern Railroad in New Hampshire was held at Portsmouth on the 10th inst. Mr. Moody Currier presided. It was voted, without discussion, to accept the act passed by the Legislature in 1876 amending the charter of the corporation. It was voted further to refer the by-laws of the corporation to the board of directors with authority to report such alterations and amendments as they might see fit.

A ballot for directors was taken which resulted in the election of Moody Currier, Walter Hastings, Dexter Richards, Francis Thompson and Edward L. Giddings by a unanimous vote, 2459 votes being cast. The Hon. Francis Thompson of Boston offered a vote requesting stockholders to contribute one dollar for each share of the stock of the Eastern Railroad in New Hampshire owned by them, for the purpose of defraying the expenses of the present litigation with the Eastern Railroad of Massachusetts to recover possession of the road, and that the Treasurer give a receipt therefor payable with interest out of future earnings of the road before any dividend is declared. The vote passed unanimously, and the meeting dissolved.

☞ The directors of the Anacostia and Potomac Railroad Company recently elected are: L. W. Guinand, N. Young, A. Richards, H. A. Griswold, John Webster, R. B. Clark, T. E. Smithson, H. A. Willard and John Van Riswick. This company owns the road now operated from the navy-yard to Uniontown, and which has just been extended along M street south to the Alexandria

ferry. President Guimand advises further extensions of the line.

**Chicago, Burlington and Quincy Railroad.**

We gave in our issues of April 15, 1876, and March 31, 1877, the Reports of the President and Directors for the years ending December 31, 1875 and 1876. Below will be found a comparative statement in detail of the earnings and operating expenses in those years:

| Earnings: | 1875. | 1876. |
|---|---|---|
| From freight | $8,502 617 37 | $8 821,225 16 |
| " passengers | 2,677,942 44 | 2,653,888 54 |
| " mail, etc. | 557,888 36 | 528,836 75 |
| " interest & exchange | 52,912 86 | 53 844 40 |
| | $11,791,361 03 | $12,057,794 85 |
| Expenses, viz: | | |
| Train service | $505,826 49 | $557,613 27 |
| Engine service | 639,985 14 | 704,695 58 |
| Station service | 696,425 11 | 680,154 57 |
| Water service | 74,741 45 | 64,280 64 |
| Repairs track | 1,276,916 94 | 1,452,151 18 |
| Repairs bridges | 258,692 01 | 282,100 64 |
| Repairs fences | 20,206 29 | 33,724 62 |
| Repairs buildings | 80,830 17 | 63,684 95 |
| Repairs docks | 7,883 17 | 5 00 |
| Loss and damage | 148,324 58 | 123,824 79 |
| Fuel consumed | 634,575 10 | 626,404 51 |
| General expenses | 530,551 55 | 547,581 28 |
| Foreign agencies | 100,472 55 | 81,942 72 |
| Stationery, etc. | 60.570 60 | 58,613 28 |
| Repairs cars | 554,388 02 | 559,934 88 |
| Oil and waste | 96,855 74 | 94,178 48 |
| Repairs locomotives | 402,747 68 | 394.979 82 |
| Rent of cars | 35,689 17 | 149,431 68 |
| | $6,120,676 76 | $6,475,251 79 |
| Taxes, State, County and city | 309,445 83 | 393,293 58 |
| | $6,430,122 59 | $6,868,545 32 |
| Net earnings | $5,361,238 44 | $5,189,249 58 |
| Add balance as per report of 1875 | 4,361 567 27 | |
| | $9,550,816 80 | |
| From which deduct— | | |
| Rent of tracks | $84,263 13 | |
| Interest on bonds | 1,991,056 79 | |
| U. S. taxes | 24 940 83 | |
| Sinking fund | 709,207 19 | |
| Dividends, March and September, 1876, five per cent each | 2,749,065 37 | |
| | 5,559,433 31 | |
| Balance to credit of income account, December 31, 1876 | $3,991,383 49 | |

Compared with the year 1875, the gross earnings of 1876 show an increase of $265,502 28, with an increase in expenses of $434,164 37—making a decrease in the net earnings of $168,662 09 Excluding deferred tax on capital stock for 1874, paid in 1876, ($138,808 63) the increase in expenses is only $295,355 74, and the decrease in net earnings only $29,853 46.

The number of miles of road operated at the beginning of the year was 1,297; Quincy, Alton and St. Louis Railroad leased Feb. 1, 1876, 46—total number of miles at the end of the year, 1,343. The average number of miles operated during the year was 1,339, against 1,268 in 1875—an increase of 71 miles.

The total number of passengers carried in 1876 was 2,215,783, against 2,019,484 in 1875—an increase of 196,299. Tons of freight hauled in 1876, 2,892,614; do. in 1875, 2,711,992—an increase of 180,622.

The equipment consists of 305 engines, 114 passenger coaches, 2 parlor cars, 61 baggage, mail and express, 4,211 box freight, 1,725 platform and coal, 141 way, 2 office, 1 pay, 31 dump, 5 wrecking and tool, 1 pile driver, 421 hand and 361 rubble cars.

General Account, December 31, 1876.

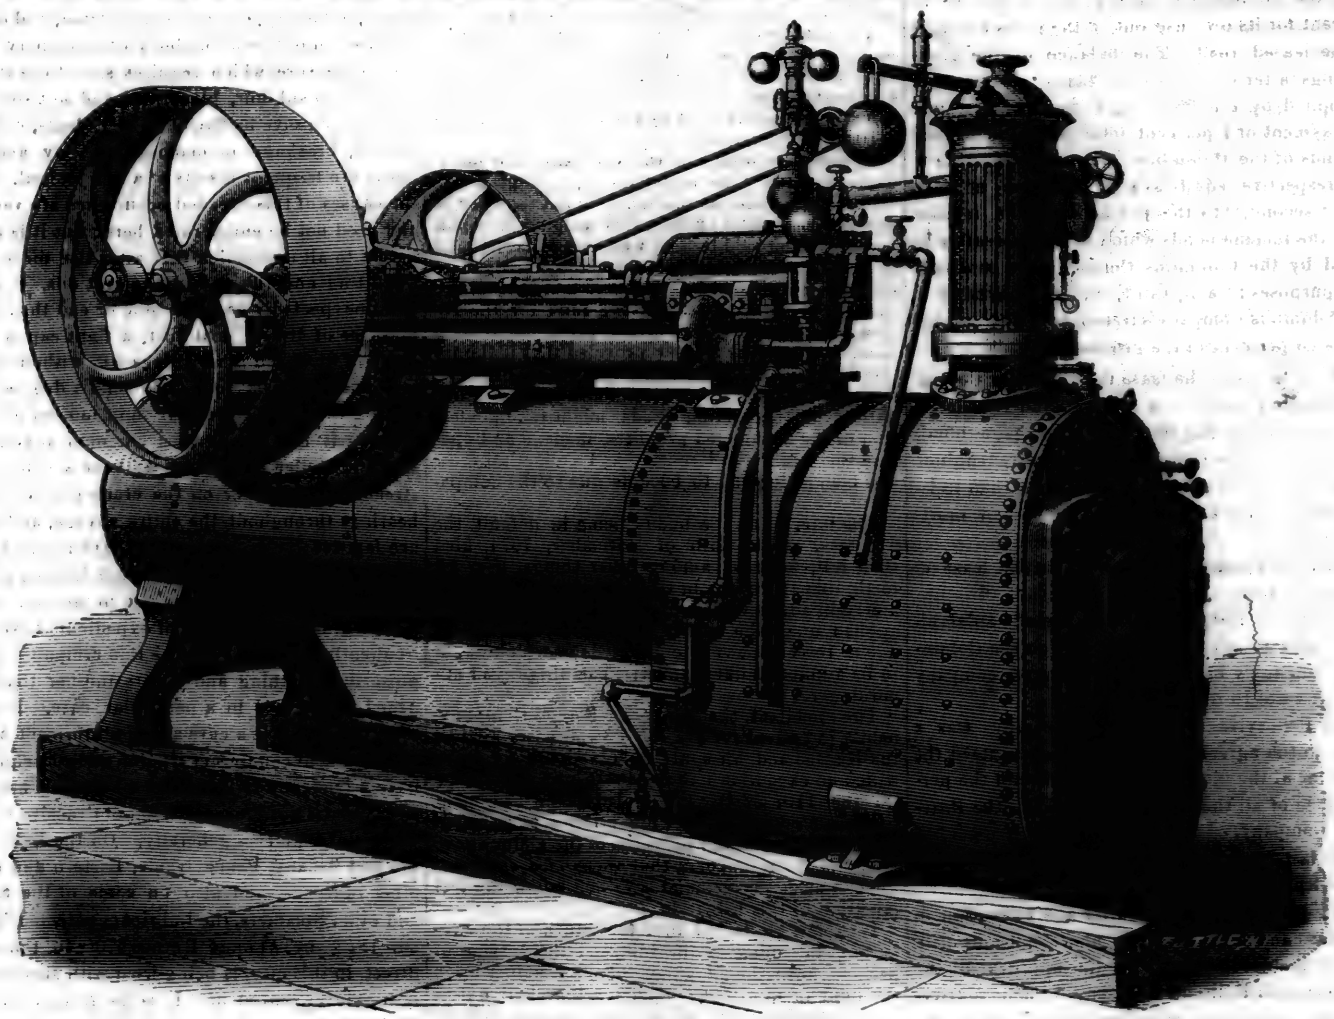
General Auditor.—Gronon Tyson.



**Improvements in Portable Engines.**

To even the most casual observer it must be apparent that many of the out-door operations in the industrial arts as well as in agricultural pursuits are now accomplished far more expeditiously and easily by the aid of steam machinery than when manual labor only was employed. Ships are now loaded and unloaded, piles are driven for wharves and buildings, coal is transported from wharf to yard, lumber is cut and grain thrashed, all by labor-saving machinery. These important results have been attained principally by the introduction of what are familiarly known as portable engines. The improvements in this class of machinery have been of late years very marked; the neat designs, compactness and efficiency observable are highly creditable to the manufacturers whose aim has been to furnish strong, durable and in all respects first-class machines.

Among the most prominent establishments where the construction of portable steam en-

gines is made one of the specialties, are the Erie City Iron Works at Erie, Pa. At these works, steam engines, boilers, and other machinery are constructed. The annexed engraving represents one of the improved portable engines made by the company, of which, on account of its superior excellence, we give a technical description. The two most prominent features in the general design seem to be a large boiler and a compact engine. Careful examination discloses strength, simplicity, and a judicious arrangement that enables easy management. The boiler is of the locomotive type, having horizontal tubes and a capacious fire-box, the bottom of which is rounded off in a semi-circular form; it is strongly stayed and has few joints; the fittings, consisting of safety valve, glass water gauge, gauge cocks, steam gauge, whistle, etc., are all of the best description and most approved patterns. The smoke stack is placed on the top between the driving pullies; into this the exhaust pipe enters and extra blast is thus provided for, as in locomotives. The smoke box and fire doors allow the tubes to be easily cleaned and examined. On the arch of the firebox is a cast iron casing and steam dome. In the crown sheet there is a fusible plug which will melt and cause the fire to be put out in case of low water. The boiler has ample capacity and steams freely with easy firing. The boilers of these portable engines are thoroughly tested at 150 lbs pressure.

Reference being made to the engraving, it will be seen that the engine is of the plain horizontal type, with the bed seated on saddles bolted to the boiler. This arrangement allows the engine to be disconnected from the boiler and placed at either side on the floor or set up on an independent foundation wherever desired. The feed pump and heater are placed at the side of the steam cylinder and bed. This arrangement allows the heater to be readily detached, prevents all heating of bearings, (as is the case when the heater is inside the bed,) and in the case of freezing and bursting

IMPROVED PORTABLE ENGINE AS CONSTRUCTED AT THE ERIE CITY IRON WORKS, ERIE, PA.

it can be replaced at small expense; the pump can feed independently of the heater. The piston and valve rods are of the locomotive pattern and the cylinders are fitted with Dunbar's Patent Self-Adjusting Packing rings, which require no attention, are economical and do not cut the cylinder. The crank shaft is cut from a solid forging and has no welds; all the bearings and wearing surfaces are large and suited for high speed.

Of the description of portable engine represented here the Erie City Iron Works construct various sizes, varying from six to forty horse power. One of six horse power has the following dimensions and proportions:

Diameter of cylinder, 6 inches.
Length of stroke, 6 inches.
Usual number of revolutions, 200.
Diameter of pulleys, 24 and 30 inches.
Face of pulleys, 6¼ and 8¼ inches.
Diameter of boiler, 26 inches.
Length of furnace, 34 inches.
Width of furnace, 21 inches.
Height of furnace, 33 inches.
Number of tubes (all 3 inch), 17.
Length of tubes, 58 inches.
Estimated weight, complete, 4,150 pounds.

One of 30 horse power has a cylinder 12 inches diameter, a stroke of 15 inches, and a weight of about 14,000 pounds.

These engines can be fastened to timbers as represented or mounted on wheels and easily transported from place to place as occasion may require.

They can be seen at the company's ware and sales-rooms at No. 45 Cortlandt Street, in this city, where all information can be obtained in regard to the various machinery made by this company.

## LAW DEPARTMENT.

EDITED BY R. STUART WILLIS.

Special Term, New York Supreme Court—Augustus C. Brown vs. The Pennsylvania Railroad Company.

This important case came up on demurrer to the complaint, on the 26th ult. It appears from the complaint that on January 22, 1869, the Columbus, Chicago and Indiana Central Railway Company was leased to the Pittsburg, Cincinnati and St. Louis Railway Company for 99 years from February 1, 1869, with perpetual renewals at the option of the lessee.

The Pittsburg Company agreed to maintain the leased road in good condition and to perform toward the public all the obligations due to it from the Columbus Company, and to receive 70 per cent for its own use out of the gross earnings of the leased road. The balance of the gross earnings, after deducting the taxes, etc., were to be applied by the Pittsburg Company: first, "to the payment of 7 per cent interest on $20,000,000 of bonds of the Columbus Company agreeable to the respective equities and priorities of each bond; second, "to the payment of the interest upon the income bonds which might thereafter be issued by the Columbus Company for construction purposes;" and, third, "to the payment to the Columbus Company's treasurer of any surplus of the 80 per cent of the gross earnings."

By the terms of the lease the Pittsburg Company was also to provide a sinking fund for the redemption of the $20,000,000 of mortgage bonds of the Columbus Company. On the redemption of said bonds the latter company was then to issue to the other an equal amount of new mortgage bonds.

Other provisions were inserted in the lease of less importance.

In case the Pittsburg Company made a default of 60 days in payment of interest on the Columbus Company's bonds the last named company had the right to re-enter, etc.

The Pennsylvania Railroad Company was a party to the agreement, and fully guaranteed the payment of the interest on the bonds and the performance of all the other covenants by the Pittsburg Company.

The last named company went into possession of the leased road.

The plaintiff says that after the execution of the lease and after its terms and conditions had, to the knowledge and with the approval of the Pennsylvania Railroad Company, become matters of public notice in the New York market, he bought three of the consolidated first mortgage bonds of the Columbus Company relying on the faith of the Pennsylvania R. R. Co.'s guarantee. Plaintiff claims that the interest coupons were paid as they fell due up to the month of April, 1875. Plaintiff sues to recover the amount of the unpaid coupons.

This is a test suit, the result of which will determine the Pennsylvania R. R. Co.'s liability under the agreement. The Pennsylvania R. R. Co. demurred to the complaint on the ground of a defect of parties defendant and for several other reasons; among which was one that no legislative sanction was alleged for the execution of the lease. It was claimed also by the Pennsylvania Railroad Company that the lease being under seal the plaintiff, not being a party or privy to it, cannot recover. The lease, it is claimed, was merely intended for the benefit of the parties to it, and not intended to give any trust in relation to or any beneficial interest in third parties. Judge Donohue reserved his decision which we will probably be able to publish in our next issue. The case creates great interest, as it involves millions of dollars.

### Creditor's Lien on Property Foreclosed under Mortgage.

The following decision has been rendered in the United States Supreme Court:

No. 804—The American Bridge Company, appellant, vs. Max Heidelbach and Milton Courtright, Trustees.—Appeal from the Circuit Court of the United States for the District of Kansas.

The controversy in this case has arisen out of a mortgage executed by the Kansas and Missouri Bridge Company to the appellees, as Trustees, to secure the payment of the principal and interest of certain bonds issued by the mortgagor and described in the mortgage.

Besides the bridge of the company, the mortgage included "the rents, issues, and profits of said bridge, as far as the same are not required to pay the necessary expenses of keeping in repair and operating said bridge, which rents, issues, and profits," it was declared, "are hereby pledged to the payment of said interest as it matures, and to the establishment of a sinking fund for the redemption and payment of the principal of said bonds," etc. It is further provided that if the interest were in default six months, the Trustees, upon the written request of the holders of one half of the outstanding bonds, might take possession of the mortgaged premises, manage and operate the bridge, and receive and collect all rents and claims due and to become due to the company.

The interest on the bonds being in default, the Trustees, on the 25th of November, 1874, filed their bill, wherein, among other things, they set forth, that there was in the hands of the company a certain amount of money due which ought to be applied upon the mortgage, and certain claims due to the company the proceeds of which ought to be applied in like manner. The bill prayed accordingly.

The appellant, the American Bridge Company, held a judgment for $15,435 88 and costs against the Kansas and Missouri Bridge Company, upon which an execution had been returned nulla bona. On the 11th of December, 1874, the judgment creditor filed a bill claiming priority of payment out of the money and proceeds of the claim above mentioned. It appears that there is a sufficient fund to meet the demand awaiting below the termination of this litigation.

It cannot be denied that the return of the execution, the filing of the bill, and the service of process gave the judgment creditor a lien upon the fund in question, which must prevail unless the mortgagees have shown a paramount right to it. (Miller vs. Sherry, 2 Wall., 249; 2 Barb., Chy. Pr., 2 revised ed., 157, note 13.)

The question as to the right claimed by the Trustees is conclusively settled against them by Galveston Railroad Company vs. Cowdrey, 11 Wall., 460, and Gilman vs. Telegraph Company, 91 U. S. Rep. S. C., 603. Both these cases, as regards this point, present exactly the same legal aspect as the case before us. It is unnecessary to reproduce at length what was said in those adjudications.

In this case, upon the default which occurred, the mortgagees had the option to take personal possession of the mortgaged premises, or to file a bill having a Receiver appointed, and possession delivered to him. In either case the income would thereafter have been theirs. Until one or the other was done the mortgagor, as Lord Mansfield said, in Chinnery against Black, (3 Doug., 391,) was "owner to all the world and entitled to all the profits made." The mortgage could have no retrospective effect as to previous income and earnings. The bill of the Trustees does not affect the rights of the parties. It is an attempt to extend the mortgage to what it cannot be made to reach. Such a proceeding does not create any new right. It can only enforce those which exist already. The bill of the Trustees is as ineffectual as if the fund were any other property, real, personal or mixed, acquired by the mortgagee aliunde and never within the scope of the mortgage. Reversed.

Mr. Justice Swayne delivered the opinion.

### Prevention of Hot Journals.

Whether in the manufactory, the steamship or the locomotive, a hot journal is a dangerous annoyance, dreaded by every engineer who has care of machinery; it is a disturbance of the general peace, in factory, engine room or train, and causes prostration of the whole body of machinery; it is a running sore which requires skill to heal, but with which sulphur, black lead and soft soap too frequently prove ineffacious. Accidents, conflagrations, breakage of machinery, delay and expense are frequent results of a hot journal. Now the causes of this dreaded occurrence are various, and need not be enumerated here; but it is a fact patent to all mechanics that after the most careful fitting and the use of the best oils, journals will unexpectedly heat. A side or end thrust, the presence of dirt or coal dust, a tight cap, a shaft "out of line" and other things will without warning cause a journal to heat to such a degree as to require the complete cessation of motion in order to have it cooled. It is a common practice in screw propeller steamships to have a continuous stream of cold water on the crank pins and shaft bearings throughout the entire voyage, and there are few marine engineers who have not had their patience severely tried by journals heating just as soon as the machinery was put in motion. As a matter of course all kinds of expedients have been frequently tried to overcome this difficulty. Some prescribe one thing and others another that happened to succeed in a particular case. Prevention is better than a cure and if a lubricant can be used that will counteract friction and consequently have a tendency to keep cool all metallic bearings and prevent hot journals, it should receive the attention of engineers generally. On the Erie, Boston and Albany, Pennsylvania, Eastern and many other railroads, and also on some of the Sound and other Steamers, the Lubricant patented March 26, 1872, by ALBERT BRIDGES of 46 Cortlandt Street, in this city, is being used with success and is highly approved of. It is far from being one of those compounds compounded to confound engineers who repeatedly confess that with the purchase of them they were sold themselves, but is carefully prepared especially for the purpose, and since its introduction has proved highly efficacious and valuable. This Lubricant is of a magnesian character, is free from all grit, and is furnished in the form of a paste. On railroad journals, shafting, etc., when applied from the top of the bearing three or four pounds of the Lubricant to one gallon of oil, well mixed, is the substance used. This does not coagulate, and proves equal in service to about three gallons of the best oil. Respecting the application to a hot journal, Mr. Bridges says: "as soon as a hot journal is discovered, no matter how hot, use no water, but apply

the paste to the journal as directed and there will be no necessity for delaying the train to cool off and repack the journal. If the journal is very hot it may burn out the Oil, with which the Lubricant is mixed, but it will not destroy in the least the anti-friction properties of the *Lubricant* which is perfectly *incombustible*. The Lubricant can be used on the finest class of machinery with perfect safety."

### A New Hydraulic Elevator.

An examination of the accompanying engraving will give the reader a good insight into the general arrangement of a new elevator, manufactured at the Burdon Iron Works, corner Front and Pearl streets, Brooklyn, N. Y. This elevator differs materially from others hitherto introduced, and has advantages and good features peculiarly its own. It is free from all complication, is inexpensive in first cost, highly economical in operation and space, easily operated, and not liable to get out of order, or to need constant repairs. A personal examination, thorough in its character, enables us to speak in this confident manner, and we feel assured that our opinion coincides with that of experts in machinery.

This hydraulic machine consists of a hollow cast iron base, upon which is placed a large cast iron pipe, bored and fitted with a piston. Inside the base is an iron drum, through which is a shaft extending through each side of the base, and having a large drum securely fitted on each end. From each of these drums two or more wire ropes run to the top of the building, over suitable grooved wheels, and down through the car. Each end of the ropes is secured to an iron shaft at the bottom of the car, one rope winding around the shaft one way, and the other the contrary way. Connected with this shaft is a wedge brake, which, should either rope break, would instantly throw a strain on the other rope, and this would cause the shaft to turn, and throw the wedge in, stopping the car before it could go one inch. Around the iron drum in the base are two chains—one end of each is securely fastened to each end of the drum, and the other ends to the piston in the pipe.

The power to operate this machine is the pressure of water from the city main, or from a cistern in the upper story. At the bottom of the base is a three-way valve, on the stem of which is a grooved wheel, and a corresponding one at the top of the building. These wheels are connected by a small wire rope, running up through the car.

When the water is let on to the base, it acts on the piston, inside the iron pipe, which causes the piston to move upwards, and unwinds the chain on the drum, causing the large drums to revolve, winding up the wire rope, and hoisting the car. When the car has ascended as high as required, a pull of the small rope reverses the valve, and lets the car descend, as fast as the operator wishes. There are stops on the top and bottom, connected with the car and the small wire rope, so that the car will stop itself at top or bottom. It will be seen that the whole machine is remarkably simple and safe, with but few moving parts to keep in order, and that it is easily managed. There are only three joints to be kept tight, viz., the piston in the cylinder, and two ends of the drum shaft running through the base. These are kept tight by what is known as a hydraulic cup packing made of leather. Another important feature of the machine is that it can be placed in the under celler. The only cutting required is for the car—3 by 2½ feet—which is large enough for a private house. The pressure of the city water is all that is required. Almost all towns of any size now have water-works, and the cost of water is from one to two cents per hundred gallons. An elevator carrying four persons, as many as would need to ride in a private house at one time, would cost about one cent for every full four-story trip, and less for shorter distances. This is estimated at Brooklyn prices, two cents per one hundred gallons, which is as high as any city in the country.

HYDRAULIC ELEVATOR FOR HOTELS AND RESIDENCES.

From two to four wire ropes are used, varying from one-half to three-quarters of an inch in diameter; also from two to four chains, of the same size as the ropes. For a private house, two wire ropes would be used, capable of sustaining 16,000 pounds; also two chains capable of sustaining 32,000 pounds. Four persons would weigh about 600 pounds, and the car being balanced by separate rope and weights, the weight of the persons is all that is required to be raised. For a hotel elevator, to raise ten or twelve persons at a time, four wire ropes, would be used capable of sustaining 60,000 pounds, and four chains, capable of sustaining 120,000 pounds. The unusual preponderance of strength over and above what is really required, should relieve the minds of the most timid while riding on elevators of this class.

In hotels and public buildings, where steam is used, the extra cost of pumping the water into a tank in the attic would not be more than half a cent per hundred gallons. The consumption of water in this elevator is only one way, going up—no water is used while coming down; and the operation is so smooth and quiet that persons in the car would hardly know they were in motion. The method of stopping and starting is as easy as turning on and off the faucet of a water basin. It is now generally conceded that it costs much less to pump the water to supply a hydraulic elevator than to run a steam elevator, as in the latter steam is consumed during the descension of the car.

☞ About 200 men are employed on the new Hillsboro' and Petersboro' Railroad, and the work is being pushed as fast as possible. The greatest grade will be about 50 feet to the mile, and the cuts and fills will be light, as the road follows the Contoocook river the entire distance. The cost will be $280,000.

☞ Four hundred convicts from the penitentiary at Richmond have been put to work on the Buchanan and Clifton Forge Railroad, which is to unite the Chesapeake and Ohio Railroad with the James River and Ohio Canal.

### Imports of Dry Goods at New York.

The imports of foreign dry goods at New York for the month of June, were:

ENTERED FOR CONSUMPTION.

| 1874-5 .... .... .... .... .... .... .... | 106,501,249 |
| 1875-6 .... .... .... .... .... .... .... | 88,058,966 |
| 1876-7 .... .... .... .... .... .... .... | 77,831,134 |

These figures represent only the foreign cost of the goods in gold, freight and duty not being included.

### Atchison, Topeka and Santa Fe Railroad.

The earnings of the Atchison, Topeka and Santa Fe Railroad Company for the month of May, 1877, were $189.914 88, the operating expenses $108,138 66, and the net earnings $81,776 22. For the month of May, 1876, the earnings were $219,369 85, the expenses $100,865 39, and the net earnings $118,504 46—showing a decrease in earnings of $29,454 97, an increase in expenses of $7,378 27, and a decrease in net earnings of $36,-728 24. Per cent of expenses to earnings in May, 1877, 56.95; in May, 1876, 45.98. Number of miles operated in both years, 711. The following is a comparative statement of the earnings, expenses, etc., for the five months ending May 31, 1876 and 1877:

| | 1876. | 1877. |
|---|---|---|
| From freight..... | $572,880 10 | $550,668 80 |
| " passengers ..... | 254,021 64 | 264,037 10 |
| " mail ..... ..... | 15,828 85 | 15,828 85 |
| " express. .... .... | 12,585 27 | 16,079 53 |
| " miscellaneous ... | 3,845 27 | 4,325 63 |
| Total ..... ..... ... | $859,161 13 | $850,939 91 |
| Operating expenses .... | 422,427 54 | 478,741 39 |
| Net earnings..... | $436,733 59 | $372,198 52 |
| Per cent operating expenses to earnings.. | 49.17 | 56.26 |

### Improvement in Air Compressors.

The increasing use of compressed air for the transmission of power, which of late years has been more and more extensively applied in tunnel-boring, on account of the peculiar condition connected with those operations, has stimulated the manufacturers of air compressing engines to not only supply the demand, but the foremost among them have also applied important improvements, of which we will now describe one invented by Mr. James Clayton, machinest and engineer, of 14 and 16 Water street, Brooklyn, N. Y.

His improved air compressor is represented in the adjoined illustration, and is not only double direct-acting, but also made a duplex by attaching two complete compressors to one axle and a heavy fly-wheel between them.

The steam cylinders and air cylinders are securely bolted on a very strong frame, the steam piston communicating the power directly to the compression piston. Of course the crank connection is made at right angles, so as to have no dead center, and the turning on the steam will at once start the engines. These have a long stroke in proportion to their total length, the use of the connecting rod having been superseded by the yoke, in which the sliding journal-boxes connect with the crank-pins. This yoke is represented in section in Fig. 2, and the sliding journal-boxes referred to possess Mr. Clayton's patent improvement, by which any wear or clash can be readily corrected, as well in regard to yoke as to crank-pin. The yoke runs on a guide, (with adjustable set-screws placed in it,) placed under its lower end, which carries the weight of the yoke, piston-rods, and piston, these being made the same weight in each cylinder; thus all the weight and wear are removed from the bottom sides of the cylinder and placed where they can do no harm, namely, on the guides and the cylinders will work many years and not need reboring.
